General News.

The steamer Indravelli brought news from the Orient of continued war preparations. Japan correspondents at Peking tell of large guns arriving over the trans Siberian Railway for Niu Chwang. The war feeling in Japan continues, and war preparations are still going on.

New religious bodies are coming into existence, but they are not being made by splits among old ones. For the most part they are composed of followers of individuals. There are exactly 150 religious bodies in Protestant and Roman Catholic America, 145 from Protestant and five from Roman Catholic origin, and they increase at the rate of about one a year.

Servants to hire by the hour is the latest idea of Boston society women, with a view of solving the servant girl problem. The experiment will be tried by the Woman's Education Association. A house on the Back Bay will be opened August 1 where girls will be trained for a month or six weeks in various household duties, after which they will be hired out by the hour to the householders.

Oscar Larson, a logger in the employ of the Deep River Logging Company, was brought to the hospital in Astoria, in a badly injured condition, the result of having a large log roll over him. His companions fully believed that he was dead when they picked him up after the log had rolled over him, but upon examination it was found that his only injury was a broken hip, and he will be all right again in a few weeks.

Antonio Triola was put to death in the electric chair at Sing Sing Prison, N. Y. Five shocks were necessary to cause death. Stone Electrician Davis said it was harder to kill a thin, wiry man, like Triola, by the electric current than a stout man, as in the case of a thin man there are not enough tissues to convey the current quickly to a vital spot. Antonio Triola shot and killed, Mamie Cerelli, a young Italian girl, who was a theatrical performer in a small theater on the East side, New York. The girl had refused to marry Triola.

The American Society of Equity issued a bulletin to the farmers of the United States demanding an increase in the price of wheat, giving arguments that the minimum price should be \$1, and urging the farmers of the United States not to sell for less than \$1. The society has been organized, with Indianapolis as national headquarters, for the purpose of maintaining higher prices for farm products by co-operation of farmers of the country, and this is the first formal demand for an increase in prices as the result of the combination.

J. E. Elkins, a resident of Independence, Ore., and a pioneer of '45, has a very unique record. For a year after coming to Oregon Mr. Elkins did not know the taste of bread. For a year he was without a shirt, except a buckskin he wore. He settled on the N. L. Butler place, a mile north of Monmouth, and erected a good cabin for the early days. This place was later traded to a Mr. Elkins for a "hickory" shirt. This farm, consisting of 640 acres, is now worth many thousands of dollars—and without a doubt Mr. Elkins' shirt proved to be one of the costliest ever purchased.

Reports received from the Philippines say that, in spite of the good intentions of both Archbishop Guidi, the apostolic delegate, and Governor Taft, the question of the purchase of the friar lands is growing more complicated, because of the efforts of the friars, especially the Dominicans, to conceal their possessions of a large part of the shares in companies purposely formed as to appear as the owners of the land. The reports state if the situation remains unchanged, it is probable Governor Taft will abandon the idea of purchasing the lands, which will entail a great loss on the friars and promoters of the companies, as they will have to prosecute each of the present 60,000 tenants.

Florence Blythe, who inherited a \$4,000,000 estate from her father after a sensational 15 year suit in San Francisco courts, has narrowly escaped death with her husband, A. A. Moore, jr., and his sister, in an automobile accident near Oakland. The tire of one of the rear wheels blew up while the machine was going at a speed of 35 miles an hour. Mr. Moore threw on the brakes and shut off the power. The heavy machine swerved to the right, but fought itself for an instant, and then upset. Mr. Moore and his wife and sister were pinned under the wreck of the automobile. The high-back seats prevented all three from being crushed.

That the Pacific Coast and especially the Willamette Valley of the State of Oregon is especially adapted to the culture of flax and that of the very finest quality, has been demonstrated beyond any possibility of a doubt by Mr. Eugene Bosse, the celebrated Belgian flax culturist, who has been conducting a scientific course of experiments in and around Salem for more than a year past, and is now engaged in raising the second crop for the purpose of proving this fact to the entire satisfaction of those who are now backing him financially, and have shown heretofore a dis-

position to doubt the veracity of his broad assertions regarding the possibilities of the flax industry for Oregon.

At St. Louis, after being out 55 minutes, the jury in the case of Emil Hartman, ex-member of the House of Delegates, for bribery, returned a verdict before Judge Ryan, finding Hartman guilty, and fixing his punishment at six years in the penitentiary. The penalty is the heaviest that has been inflicted so far in the bribery trials. During the course of the trial several former members of the House of Delegates testified to the distribution among 19 members of the House combine of \$47,500 paid for passage of the city light bill. Hartman, several witnesses testified, was one of the number who received \$2500 apiece for their vote on this measure.

The first stage in the Paris-Madrid automobile race from Versailles to Bordeaux, 343 miles, was finished, when Louis Renault dashed at a furious pace into Bordeaux, having made a record run of 8:27:00. An hour later M. Gabriel arrived with a still better record of 8:07:00. It is estimated from the time made that these automobiles covered 62 miles an hour on the road outside the cities. These victories, however, were clouded by a series of accidents, having in one case, at least, a fatal result. At least two cars were wrecked and Marcel Renault, the winner of the Paris-Vienna race last year; Lorraine Barrows, a very well known automobilist, and Renault's chauffeur, were seriously, and, it is believed, fatally injured, while Barrows' chauffeur was killed.

There are 165,000 idle men in New York City, notwithstanding the fact that every line of business is booming in the city. These men, but for strikes, lockouts and dissensions among rival labor unions, would be earning a total of \$650,000 a day, or \$3,960,000 a week. Not only is every penny of this stupendous sum lost to them, but industries and firms representing a total capitalization of \$550,000,000 are at a standstill, with a consequent loss of profits. The trade paralysis there has reached a stage more extensive than any heretofore known, even during the periods of great industrial depression. Most of the workmen are idle, not by any act of their individual unions, but from the acts of other unions, or because of the recent decisions of the employers to stand together and fight the demands of one union by throwing the men of many unions into idleness.

In the presence of several of his low-brained prison associates, handsome, intelligent George C. Allen, the reputed heir to a fortune of \$3,500,000 in Honolulu, on Monday in Portland stood up in the State Circuit Court and heard Judge George pronounce upon him a sentence to serve 2 1/2 years in the penitentiary. Without a word or change of expression on his handsome face, the millionaire felon walked coolly from the courtroom and was escorted back to his prison cell, to await transportation to Salem. The crime for which the heir to millions must pass a portion of his life in prison is that of forging a paltry check for \$28 on Ladd & Tilton's Bank, last March. The bogus instrument was signed "J. H. Ranekes," and was cashed by E. Schiller, a cigar dealer. March 31 Allen was arrested on a charge of forgery, and May 13 the jury in Judge George's court returned a verdict of guilty. At the trial Allen sought to justify his action in uttering the spurious check with a plea that he had no criminal intent; that he had only recently been discharged from the Good Samaritan Hospital, and was expecting money from his home in Honolulu, from the man whose name he had forged.

The General Land Office has received the amended map filed by the Oregon Development Company, showing lands on the Upper Deschutes River in Eastern Oregon, which it proposes to reclaim under the Carey act. On this map the company has eliminated nearly 15,000 acres that were included in the original selection, this action being taken because of the report of Special Agent Green, that much of the original selection was land covered with merchantable timber. Commissioner Richards, after hearing the company's statement presented by C. W. Idleman, was not satisfied, in view of Inspector Green's report that all of the land covered by the amended map was properly classed as arid. He fears some considerable portion may be pine lands. He has accordingly given the company 90 days in which to make a detailed showing as to the character of each section embraced in their selection, and to establish its character by proof. When this information is available, the matter will be taken up, and in all probability the truly arid sections will be segregated under the Carey act.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, the sound vibrations are intercepted, and when it is entirely closed deafness is the result, and as the inflammation continues, the tube becomes permanently closed, and the hearing is lost. It is not a matter of time, but of degree, and the sooner it is cured, the better the result. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. 5000 Negatives for Sale. All persons having had pictures made at my studio during the past two years and wishing to preserve the negatives for future use may have the same at very reasonable rates by calling at the studio within the next two months. After that date all negatives remaining will be destroyed. These negatives are all in first class condition and will last a life time if properly taken care of.

Much Suffering in Kansas. TOPEKA, Kan., May 23.—Much suffering has resulted in Kansas from last night's tornado. On account of the bad condition of the wires, complete returns are just beginning to come in. In Dickinson County, several miles of country was made desolate by the wind. Two people were injured, but they will recover. Cattle were killed in large numbers, and crops badly damaged. Eldorado reports a wind storm throughout Butler County. One man was badly hurt, and six residences destroyed. Newton suffered the loss of some building. Eureka was struck by tornado at midnight. Eight people were badly hurt, but it is thought none will die. The damage to property here will amount to \$50,000. In Phillips County, the German Church near Stuttgart was demolished, and a number of farmhouses between Logan Speed were blown down. One man was hurt. Over 300 cattle were killed in Clay County, and a number of farms swept clean. All the streams in the Eastern and Central portions of the state are very high, as a result of the heavy rains of last night and to-night.
