 from Corinth post, in this city.
 John W. Anderson writes from San
 Francisco: "Have found good perma-
 nent location here. Wishing success to
 your able paper and to your efforts to
 rescue the people to their own interests."
 The steamer Sue H. Elmore came in on
 Wednesday, having on board Captain
 C. C. Calkins, H. G. Van Dusen, J. E.
 Bartel and family, L. McFee, P. Becker,
 A. L. Clark, Bertie Stillwell and Bessie
 Hunt.
 Local happenings are scarce this week
 and nothing of a sensational character
 to be obtained, unless we interview some
 of our citizens and obtain their reasons
 for suddenly terminating their matrimo-
 nial blessedness.
 County Judge W. W. Conder and Com-
 missioners Bodfelt and Parrish, have
 gone to Nehalem to confer with the
 body of Clatsop county to see what can
 be done to build a wagon road between
 the two counties.

A dance was given at the opera house
 on Saturday by the young ladies, and
 they had the pleasure of inviting the
 young men to dance and to supper, in
 fact, did all the inviting. A pleasant and
 enjoyable evening was reported.
 The steamer Sue H. Elmore left on
 Saturday for Astoria, having on board
 as passengers; F. F. Dance, Vida Still-
 well, H. Rager, Rev. Pather Fisher, Mr.
 and Mrs. Shultson and family, Mrs. New-
 comb, J. F. Fink, Miss Nesby, W. S. Has-
 brook and W. W. Curtiss.
 The many friends of Mr. and Mrs. E.
 A. Fitzpatrick will be pained to hear
 that death deprived them of another
 child this morning, making the third
 within a few months. It was their son
 William, aged 3 years and 10 months,
 that died this morning from typhoid
 fever.
 The Margarita Fischer Company came
 in on Sunday and commenced a week's
 engagement at the opera house Monday,
 drawing a large crowd each evening, and
 as the company has new talent in it since
 it was in the city before, makes it one
 of the best theatrical troupes to visit Til-
 lamook, and on that account the enter-
 tainments are enjoyed by the large audi-
 ences. The play this evening will be "A
 Homespun Heart."
 Examination for teachers' certificates
 commenced on Wednesday, and those
 taking the examination were: County
 Papers—Misses Grace Wilson, Ethel
 Dennis, Una Baker, Tillie Foss, Amanda
 Tinnerstet, Emma Gill, Minnie Rolland,
 May Payne, Mrs. Mary Millard, W. S.
 Buell. State Papers—Miss Ruth Cooper
 and Miss Regina Wilt. The examiners
 are County Supt. G. B. Lamb and Prof.
 E. H. Whitney and W. W. Wiley.
 Frank Barnard, who is supposed to be
 a tough character, is doing 30 days in
 the county jail on a charge of larceny,
 who was sentenced by Justice Alley on
 Wednesday after pleading guilty. He
 had been working for Henry Leach, and
 from the hired man's room he stole a pair
 of shoes and came to town and sold
 them for a dollar. Barnard had acted
 in a suspicious manner and was found at
 one time with two laundered shirts in his
 possession when sleeping in the brush at
 Fairview, which is something unusual
 for tramps to carry with them as part
 of their wardrobe.
 Articles of incorporation have been
 filed at Salem incorporating the Oregon
 Pacific Navigation Company, Portland,
 with a capital stock of \$35,000, with J.
 K. Locke, A. J. Parrington and F. H.
 Skinner as incorporators. This is the
 company that is to put on a line of
 steamers between Portland and Til-
 lamook. We are informed that it was
 the intention to purchase a steamer that
 was for sale on the Sound, but as this
 vessel was not suitable for the purposes
 a new vessel is to be built and in the
 meantime other arrangements will be
 made to commence business as soon as
 possible.
 The farm house of Will Eason, which
 he bought recently from C. A. Bailey,
 was totally destroyed by fire on Wed-
 nesday afternoon, including the furniture
 belonging to each family. Mrs. Bailey
 was in the city at the time and two of
 her children were about the premises.
 Will Eason was in the barn at the time.
 How the fire originated is not known,
 but when it was discovered there was no
 time to save the furniture, only a few
 articles being taken from the burning
 house. The fire licked up every particle
 of the house, wood shed and hen house
 that would burn, leaving the real estate
 and bricks. The loss is probably about
 \$1500, with an insurance of \$500 on the
 house in the Fireman's Relief.
 The new school building, which is now
 nearing completion, is nicely designed
 and strongly constructed, and when it is
 finished the people of this city will have
 reason to be proud of the new 8-roomed
 school house. Each room is well lighted
 and ventilated, with steam heat from a
 boiler in the basement, and being lofty
 and commodious, with the necessary
 cloak rooms, etc., make each room com-
 plete in itself for conveniences. In this
 respect the rooms are much alike, which
 appears to be a special feature in the
 architecture. The foul air from the rooms
 will be ventilated to the smoke stack
 from the boiler, and with new black
 boards, furniture, etc., the new school
 building will be the perfection of com-
 pleteness. School will commence on the
 14th September, the faculty including
 eight teachers well equipped and with
 the best of credentials. They are Prof.
 E. H. Whitney, principal; Misses Adele
 Pickett, Florence Hudson, Alma Wagner,
 Minnie Rolland, Ann Wallace, Eva Keys,
 and Mrs. Ella Hays.

Editorial Snap Shots.
 We have been expecting to see the
 agitation renewed for the city to bond
 itself in the sums of \$60,000 for a water
 system. Are the promoters a little
 scared for fear that the citizens will vote
 down such a yoke of bondage?
 With the exception of the campers, the
 steady rain this morning was welcomed
 by everybody, and the indications make
 it clear that Old Bossy will have plenty
 of green feed the remainder of the sum-
 mer and fall, and with plenty of hay put
 away for the winter.
 W. S. Cone went out on the stage on
 Wednesday, but the Bay Cityites need
 not get excited, for there is not much
 likelihood that he will bring back the
 terminal grounds of the proposed rail-
 road in his vest pocket and establish it
 in the boom city on the bay.
 The price of sugar has gone up with-
 out waiting first for the Havemeyers to
 make the usual charitable or educa-
 tional donations that would afford the
 explanation for it on the same theory
 that the increase in the price of oil is
 ascribed to the Rockefeller philan-
 thropy. This will prove disappointing to
 a lot of democratic newspaper organs.
 If we keep on getting so many "roast-
 ings" the editor of the Headlight will
 begin to think that he has a monopoly
 on that in Tillamook. Pile it on, for its
 only a waste of ammunition. Every out-
 spoken newspaper man must expect a
 "roasting" once in a while, for that is a
 requisite which goes with the profes-
 sion. However, the newspaper man, if
 he is patient and forbearing, will soon
 find an opportunity to repay the "roast-
 ing" with a large amount of interest.
 We are glad to know that the Nehalem
 cheese factory is being made a success, of
 after a number of unsuccessful attempts
 at that place. The north part of the
 county will be greatly benefited by the
 introduction of cheese factories. They
 have proved themselves to be of inesti-
 mable value to the dairymen in the south
 part of the county, and there is no reason
 why they should not be so in the north
 part of the county.
 How the Headlight man did snicker
 when he reached home Monday and read
 C. Ben Riesland's 'owl,' 'owling roast in
 the 'owl,' 'owling little sheet. We have
 nothing to add to or take from our criti-
 cism of the Land Agent, and no matter
 how hard we trod on Riesland's soft
 corns, he only makes it worse for him-
 self to roast the editor of the Headlight
 in that manner. We can smile and let it
 pass, hoping the next time C. Ben pens
 anything about us he will confine him-
 self to the truth and not write so much
 nonsense.
 The roads in Tillamook County are in
 good shape and the money the county
 court has expended upon them have been
 used to good advantage. The county
 judge and the commissioners are devoting
 a good deal of attention to them, and
 there is a general impression through-
 out the county they are doing the best
 they can and spending the money to
 good advantage. One thing is noticeable,
 there is very little kicking on account
 how the road work is done and the road
 fund used. Let us all encourage the
 county court to do the best it can to
 improve the roads in every district, for
 it is very essential to the interest of the
 county and the dairymen that Tillamook
 have good roads in the winter as well as
 in the summer.
 H. G. Van Dusen, fish commissioner,
 came in on the steamer on Wednesday,
 and, of course, it will not be in order for
 any of our citizens to go trout fishing
 after dark while that gentleman is buzz-
 ing around, although by doing so they
 help the salmon industry, for it is well
 known that salmon trout have a won-
 derful appetite for salmon egg and de-
 vour thousands of them in our rivers.
 We never could see the sense of the state
 legislature appropriating money for the
 propagation of salmon and a law pro-
 tecting the greatest enemy salmon have
 after entering fresh water to spawn, so
 if Mr. Van Dusen is wise he will wink his
 left eye when he hears of persons fishing
 for trout out of season or at nocturnal
 hours. Mr. Van Dusen went up to the
 hatchery on the Wilson today, and is in
 hope that they will meet with better
 luck on that river this year than they did
 last year.
 Every once in a while old settlers will
 recite to us the difficulties they had in
 disposing of their product and the ridic-
 ulously low prices they received for it
 and for cattle, especially during Cleve-
 land's administration. Times and con-
 ditions have changed, so much so that
 the dairymen in Tillamook never enjoyed
 such an era of prosperity as they are to-
 day, and with the prospects that it will
 continue. Is there a dairymen in Tilla-
 mook county who is desirous of another
 dose of democratic hard times? No
 wonder that Tillamook is overwhelming
 republican, for there is an object lesso

right here at home in the changed con-
 dition which now exist in the county.
 The fact stands out prominent that Til-
 lamook dairymen are receiving double
 for their product today, under a repu-
 blican administration, what they received
 under the last democratic administra-
 tion. Isn't that a fact? and which our
 democratic friends should put in their
 pipes and smoke.
 We are informed that Mr. Remington,
 who paid Tillamook a visit with John
 McCracken and Wm. Reid, who are iden-
 tified with the proposed Portland, Ne-
 halem & Tillamook railroad, has gone
 East for the purpose of placing his obser-
 vations before the parties who have pro-
 mised to finance the project, and it will
 be but a few weeks when it will be known
 whether Tillamook county is to have an
 independent railroad to Portland or not.
 We hope so. In view of this fact, and
 should the money be forthcoming to
 bond the road, it will be up to the prop-
 erty owners and the citizens to deter-
 mine whether they are willing to grant a
 right of way. That some of the property
 owners will readily do so is to be taken
 for granted, especially the timber owners,
 for it will greatly enhance the value of
 timber lands. There are sure to be those
 who object to granting a right of way and
 will want to be paid. Under those
 circumstances, what is best to be done?
 True it is that a railroad can force its
 way through and the damages will then
 be appraised. We have always thought,
 no matter what company gave Tilla-
 mook railroad connections, it would de-
 mand a right of way and probably a
 subsidy. It remains to be seen whether
 a right of way free of cost can be obtain-
 ed in Tillamook. We hope it can, for a
 railroad would be a great advantage to
 Tillamook.
 Most everybody who comes to Tilla-
 mook and looks over the resources of the
 county go away with the impression
 that there is a great future for Tilla-
 mook county. That is a well established
 fact, and as conditions are rapidly shap-
 ing themselves to that end by the pros-
 pect of Tillamook bar being improved
 and the advent of railroad connections
 with Portland, we do not expect that it
 will be long before Tillamook will be
 become a large manufacturing center.
 Although dairying has made rapid
 strides the past few years, it is plain
 to see that it is still in its infancy, for
 there are thousands of acres of idle land
 in the county which can be converted

into valuable dairy farms. Tillamook
 is in need of more population to develop
 this growing industry to larger propor-
 tion, but as long as the impression is
 abroad that Tillamook land is held at
 such high prices, it offers very little in-
 ducements to home seekers to locate
 here. As for lumbering, with the pros-
 pect of Tillamook bar being improved
 and the talk of railroad connections
 with Portland in the near future, this
 industry will assume large proportions
 in Tillamook. The HEADLIGHT has great
 faith in the future of Tillamook, and as
 conditions are shaping themselves very
 rapidly, it is not surprising to find that
 people who visit the county go away
 with the impression that Tillamook will
 be a good place to make investments.
 The timber syndicates have already
 demonstrated that, and as they are
 buying up all the timber land they can
 get hold of, goes to prove that they ex-
 pect to make large profits out of their
 holdings, for when the sellers have sold
 most of their timber then it will be seen
 that the timber syndicate will ask a big
 price for stumpage.
