 John D. Keerscheiter, plaintiff, vs. Alois Vaunieuwheuz and Jacob Prayne, defendants, is a suit filed in the circuit court for \$812.35 on a promissory note and \$100 attorney's fees.
 The lumber schooner Volant, with 260,000 feet of lumber from the Tillamook Lumbering Company, has finished loading and will be towed to sea by the steamer Sue H. Elmore.
 The snow at the summit on the North Yamhill road was so deep that the linemen repairing the telephone line had to dig down into the snow to get into the upstairs windows of the summit house.
 The steamer Sue H. Elmore came in on Wednesday with the following passengers: C. F. Willis, A. E. Jundell, J. A. C. Freund, J. C. Murphy, J. C. Yale, C. Hannenkrat, I. Quick, A. R. Gangloff, Oak Nolan.
 Owing to the death of the wife of Prof. E. H. Whitney, the public school was closed on Monday and Tuesday out of respect to the deceased lady. Superintendent Lamb has charge of the school during the professor's absence.
 Oak Nolan returned on the steamer on Wednesday and expects the rigging in next week for the purpose of making up rafts of logs to be towed to the Columbia river, the Tillamook Logging Co. having decided to go into that industry.
 S. B. Hill obtained a judgment against Daniel Millar in the county court on Monday, and it was ordered that the proceeds of the sale of cheese be applied to the judgment and that the Three Rivers Cheese Factory be sold to satisfy the judgment.
 The Academic Club of Amateurs gave a performance at St. Alphonsus Academy on Monday evening, which was well attended and the entertainment was much enjoyed. The young amateurs had "Out on the Streets" for their play, and they acquitted themselves right well.
 At a meeting of the congregation of the Presbyterian church on Sunday, it was decided to extend a call to the Rev. E. T. Allan, of Portland, who is assistant to Dr. Hill. Mr. Allen is well known in this city, having supplied the pulpit previous to the church being erected.
 Mr. and Mrs. F. H. Davis, who will soon be leaving Tillamook City, were accorded a surprise party at the Oddfellows' hall on Wednesday evening by the Rebecca Lodge, at the Rathbone, K. of P. and Oddfellows' lodges were invited. A large number attended and they had a right royal time.
 Joseph Guptill and Arthur Eberman thought they would have some fun on Wednesday evening by tick-tacking the bell of the U. B. church while services were being held. They were, however, caught in a trap, for the ladder they ascended to the belfry was taken away after they commenced their performance, which left them without means of escape. The marshal was sent for and the boys were taken to the cooler.
 B. S. Clark, of Woods, found a bottle on the beach near that place, which contained an order blank of the firm of Messrs. Wm. V. Willis & Co., of 143 South 11th St., Philadelphia, Pa. On the back of this was written, with a red lead pencil, the following: "The liner Artic was wrecked off Cape Horn, on the first day of January, 1903." On a badly worn half of an envelope was also written, "The crew of 22 men may be all lost. Capt. T. J. Jones."

City Council Gives the Gamblers and Slot Machines 24 Hours to Close Down.

A meeting of the city council was held on Monday evening, with Councilmen A. T. White (in the chair), W. O. Chase and G. Munson, present. Bills allowed were:
 Water rent \$30 00
 Electric lights 27 00
 Marshal's salary 45 00
 R. L. Wade 4 00
 Recorder's salary 15 00
 Printing 3 00
 Eli Olds 6 00
 Councilman Chase moved to have the city attorney file a complaint against M. H. Larsen for maintaining a nuisance, which was carried.
 An ordinance, granting the Tillamook Lumbering Company a franchise for 99 years, to operate an electric light system was read for the third time and passed. The principal features of the franchise is that the company agrees to furnish the city with electric lights for 10 years at the rate of \$25 per month for 35 lights, and 70c. per month for all lights over that number, the service being from sun set until midnight and from five o'clock in the morning until daylight. The rate for electric lights to individuals cannot exceed 4c. a candle power and not less than 16 candle power in one house. The company also agrees to furnish lights for the city hall free of charge.
 Councilman Chase moved that the city marshal close up gambling houses, slot machines and gambling devices and games. He said he did not want to prosecute any one, and advised the marshal to give saloon keepers and cigar stores 24 hours notice to close down on the games and remove the machines, and if that was not done in that time he had obtained plenty of evidence to convict them. A number of persons kept going to him to have the gambling stopped, and he thought it was as well to stop it right now as any other time, as the people demanded it. Gambling had been allowed to run a number of years, and as to the slot machines in the cigar stores, Councilman Chase thought they were worse than the gambling tables, yet he did not have so much objection to the cigar slot machines.
 Councilman Munson seconded the motion, and in doing so said that gambling should be stopped.
 The motion carried.
 The action of the council evidently surprised Marshal Clements. He said there was no city ordinance whereby he could proceed against the slot machine proprietors.
 Councilman Chase said he had seen the deputy district attorney, and they could proceed against them under the state law. He told the marshal that he had already obtained the assistance of half a dozen of witnesses who were ready to go on the stand and testify against the slot machines and gamblers if they did not close down.
 Both Chase and Munson thought that the saloons should be closed up on Sunday.

STOPS THE GAMBLING.

until quite recently that his creditors had unwisely jumped upon everything they saw in sight, while, if he had been given a little time, he would have come out all right, for Dan is a young man who is bound to make money in the butter and cheese business, and his return to the city was a great surprise to those who wanted to do him up.
 P. McIntosh, who manufactured a million pounds of cheese last year, came in on the steamer after making a business trip to Portland and the Sound. Dairy-men have great confidence in his business ability, and although there is a tendency amongst them to change factories, those who have stayed with Mr. McIntosh's factories have reason to congratulate themselves that they have participated in his success and have received unprecedented prices for butter fat the past few years and quick returns. It is to be regretted that a few individuals are trying to poison the minds of the dairymen against Mr. McIntosh, but more they do this more patrons flock to his factories and more cheese he manufactures every year. Mr. McIntosh has made a big business success of cheese making in Tillamook, and as it is characteristic of some few people in this city to pull a successful business man down by dirty, star chamber proceedings, they will not succeed very well when they try and poison the minds of the dairymen against Mr. McIntosh. The dairymen have a good idea who are the hoodlums to certain factories.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure not known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Death of Prof. Whitney's Wife.

It is with much regret that we have to announce the death of Mrs. Blanche L. Whitney, wife of Prof. E. H. Whitney, principal of the Tillamook public school, which occurred early Monday morning. Deceased was confined on March 24th, giving birth to a son. She was doing well until last week, when septic poisoning set in, and although the deceased made a brave effort to fight death, she succumbed at last. Her death caused considerable sorrow in the city, for she was a young woman greatly respected, and much beloved by the friends she had made during her happy, but short residence here. Her maiden name was Miss Blanche L. Claypool, and she was born in 1878 at Orleans, Harlan County, Neb., where she resided with her parents, Mr. and Mrs. B. R. Claypool, until her marriage with Prof. E. H. Whitney on the 24th June, 1903, when she came to Tillamook with her husband. Her untimely death has cast a heavy cloud of sorrow over her parents' home, and her husband was grief stricken when death came and parted two happy lives who had started out hand-in-hand and with a bright future before them. The entire community sympathizes with the bereaved husband and relatives in this sad and unexpected sorrow that has befallen them. Prof. Whitney started with the remains for Nebraska on Tuesday, where they will be buried. He expects to return in a few weeks.

The Dairy Commissioner's Ideas.

TO THE EDITOR TILLAMOOK HEADLIGHT.
 As Tillamook county is recognized as the leading cheese county of the state, both as to quantity and quality, and as it is particularly adapted for dairying, and wishing to encourage the industry as much as possible, I would like, through your valuable paper, to offer a few suggestions. It is this, that the farmers, the men that produce the milk, are standing in their own light in asking and demanding often times more for their product than the market will justify. The consequence is that the dealers will send their orders east, instead of to Tillamook county. We are all proud of our dairy state, and as a general thing, the merchants prefer to patronize home industries, but the question of sentiment is often not as strong as the one of dollars and cents, and when there is a difference of 4c. to 5c. a pound between the home manufacture and that of the east, many a dollar goes there that ought to be and should be kept here at home. For the past year there has been a big demand for milk and cream; and often times the manufacturer is obliged to pay more than he can afford to for it. Now, my idea is this: That the farmers should increase their herds constantly, replacing them with better and more profitable ones, and aim to sell their product so as to keep out all competition. In this way there will always be a market for the home product at a good price, and don't forget that the cheese manufacturer, the man who handles your milk, and pays you his money is entitled to a good deal of consideration, for he is your best friend; it costs money to make and sell butter and cheese, and there is always some losses to stand, which does not fall upon the producer. Tillamook county has gained an enviable reputation. Let the good work go on, all work together; but of all things do not expect more for your goods than the markets will warrant. Increase your output, and in that way increase the amount of receipts.
 J. W. BAILEY,
 State Dairy and Food Commissioner.

Dr. P. J. Sharp, the experienced dentist is located in Dr. Wise's dental parlors, and is prepared to do nothing but first class work and give the best of satisfaction. If your teeth need fixing call upon him.

Mike Nelson, a saloonkeeper at Elgin was arrested Saturday, charged with selling liquor to minors. It seems that a number of boys at Elgin, which is 25 miles from that city, have for some time been procuring liquor and getting drunk. The parents of the boys made up a purse \$100, which they offered for information regarding the identity of the dealer who sold the liquor to the boys. Nelson was the man arrested for the crime, and in a hearing before Justice Morelock, of that place, was bound over Circuit Court.
