**Their Plain Duty.**

It is not with a disposition to quarrel with Sheriff Woolfe, the constables or the city marshal, or anyone else for that matter, that the HEADLIGHT takes the position and makes the assertion that it is their duty to enforce the licensing and gambling laws. They have taken oaths of office and receive pay, but fail to do their duty. Because officials have failed to do their duty in the past, this is no excuse for the present officials. The sheriffs of Multnomah, Baker, Union and other counties are doing their duty and living up to their oaths of office, the consequence is that the gambling joints have had to close down. So they would have to in Tillamook City if either Sheriff Woolfe or Constable Marshal Quick did their duty, and not wait until a poor woman has to file a complaint. Another thing, the taxpayers should not be put to that expense nor the public to the trouble of filing complaints when peace officers are paid for that, especially when they know where the licensing and gambling laws are being openly violated. One fault with our political system is that if the saloon keepers and gamblers turn in and elect a man to office they think they have a right to do as they please. For instance, not long since, City Marshal Clements went into Hadley's saloon to put a stop to a drunken disturbance and he was pitched out into the street twice in rapid succession. Now, why should gamblers be allowed to do as they please because they helped elect a few men to public office? Here is a section of the gambling law that has only one meaning:

**SPECIAL DUTY OF OFFICERS TO PROSECUTE FOR GAMBLING.**

1950 It shall be the special duty of each district attorney, sheriff, constable, city or town marshal, and police officer to inform against and diligently prosecute any and all persons whom they shall have reasonable cause to believe guilty of a violation of the provisions of this act.

It is the duty of the above officials to "inform against and diligently prosecute." That is their duty and for which they draw their salaries.

**A Successful Company.**

One of the most successful manufacturing institutions of Tillamook county is the Tillamook Creamery Company. This is now the largest co-operative creamery in the county, and although late in the season, is now receiving over 5200 lbs. of milk daily. Many of the creameries have this year reported a decrease in the amount of milk received, but owing to the intelligent management, the Tillamook Creamery has thus far received 46 per cent more milk than during the corresponding period last year. The factory has added a number of patrons during the year, and 28 patrons are now taking their milk there, several of them hauling by one or more factories. The prices received and the prompt payments made are largely responsible for this. Prices so far paid are as follows:

For butter fat, after making and all expenses are deducted, the several amounts being net payments to the patrons, to wit: January butter, 30 cts.; February butter, 28 cts.; March butter, 25.10c.; April butter, 19c.; April cheese, 24.50c.; May cheese, 23.20c.; June cheese and July cheese partial payments of approximately, 20c.; and August cheese full payment of 21 cents. August cheese was sold before the present rise in prices. Dairymen patronizing this factory are well pleased with the manner this factory is conducted and there is every prospect that the coming year will be the most prosperous one in its history. During the month of June 286,400 lbs. of milk were received. To October 1st, 98,000 lbs. of cheese and 11,300 lbs. of butter were manufactured. This concern is a large buyer of cheese, and last week bought the entire August and September make of the Red Clover Creamery, for which they received ten cents per pound, f.o.b. Tillamook. The officers of the corporation are J. Sanders, president, and Carl Haberlach, secretary. It will be remembered that this was one of the creameries which fell into the hands of the combine, but as that was liable to close the factory, it was thought wise to allow the patrons to run their own business, as they had done in the past, and they have again made a success of it.

**Rotten Gambling and Politics.**

The Headlight, although it is waging a determined fight against gambling, it has purposely avoided making it a personal fight against those who have been running games or those who have been "bucking '21" and other games. It is the whole system of gambling that is a curse to the whole community, which is being run wideopen, illegally, and should be stopped by the county or city authorities, whose duty it is and who are paid to suppress it, but who fail to do so. On those ground, thus far, have we confined ourselves, and not to personalities, to arouse public sentiment against gambling. It is no new thing for the editor to be told that Mr. So-and-so was gambling last night in the saloon and had lost so much. Perhaps, some people will expect the Headlight to make some statement as to the gambling that was going on on Saturday night in Tillamook City, for the matter was freely discussed by those who watched the games and told what was going on to their friends on the street. We were informed on Saturday evening that Mr. So-and-so was gambling and had lost \$40. Monday morning we were informed that the same person had lost \$800, another person told us it was over \$1000 and that he had stopped payment on his checks, and later in the day Mr. So-and-so came to an understanding with the gamblers and paid them \$150.

There is no use denying this, for so many persons, who watched the games on Saturday, know this to be facts. Here we take a different view to some people. We do not think it right to expose one person and not others for gambling, neither do we think it right to pull one gambling joint for gambling and not the other. In fact, the whole system of gambling is rotten, and there is something rotten with our political system when "wide open" gambling is going on in some saloons and officials won't do their duty. No wonder that the anti-saloon sentiment is strong in Tillamook County when the people see the rotten system of robbery that is going on in the gambling joints of this city, and the game that was played on Saturday night and continued until Sunday morning is only one of many incidents connected with gambling in Tillamook, and with its bad and distressing circumstances.

According to the Iowa Dairy commissioner, the cost of making a pound of butter at the various creameries of that state varies from 1.2 cents to 6 cents per pound. The butter that cost 1.2 cents to make was at a co-operative creamery that made annually about 500,000 pounds of butter from whole milk. The average cost for making butter, taking the state as a whole, was 2 1/2 cents per pound.
