

Hunters! Take Notice.

Mr. Hunter: Which do you prefer, a Cartridge loaded ten years ago at the factory, full of caked powder—they are kickers, but not killers—or our hand loaded cartridges, which are beyond competition, and are loaded with nothing but the Best, Clean Shooting Powder, Chilled Shot in Good Shells?

We have positive proof that our factory loaded to order cartridges were loaded since the order was sent in this fall, and not old stock.

Our Motto: Satisfaction guaranteed or money refunded.

RALPH ACKLEY.

Who's "It" in the R. Robinson Cheese Company, of Tillamook? *
Who are the people who keep their noses on the grind stone on account of gambling. Cut it out, boys. *
We failed to mention, in our comment last week on "Golden Cheddar," that the article in the Tacoma Ledger, was paid for, as the asterisk in the last line indicates. *
If Green Chance develops any ability as a politician or a statesman we shall have to support him, for we believe in supporting the home product—if he is a "straight" republican. *
The earnest citizen who observed the great loss to his fellow citizens through the lack of uniformity in the quality of cheese produced in this county might also observe the great loss to his fellow citizens through keeping their noses on the grind stone on account of the gambling habit. *
The Oregonian last week copied part of an editorial from the Headlight and gave the Herald credit as the author. We take no offense for the trivial mistake, but thank the Oregonian for publishing it, for it dealt with a few facts relating to dairying in Tillamook and was a good advertisement for the county. *
One thing that the citizens of Tillamook county should do next month, no matter what their political affiliations may be, and that is to cast their vote. A light vote will make the county look small and insignificant, and for that reason everybody should turn out and cast their vote so as to give the county the best possible showing. *
One thing is peculiarly noticeable and pleasing in the present election, which goes to prove more than anything else, that there is implicit confidence in the republican party throughout the county. One is that no mills and factories have been closed down, throwing thousands of men out of employment, as in previous presidential elections. The other is, the money market has not tightened up, and there is confidence amongst manufacturers that the republican party will remain in power that no perceptible difference is noticeable in business or in the manufacturing industries. Let us call the attention of our readers to the conditions prior to previous presidential campaigns, and we will leave it to them to decide whether all this is not on account of the confidence there is in the republican party. *
Commenting upon the Headlight's remarks regarding the doubling up of business houses in Tillamook City, the Portland Journal had this to say: "These are sensible remarks, and will apply to many other towns as well as Tillamook. It is a free country, and anybody can start any kind of a lawful business anywhere, but it is regrettable that in small places, in which one man is just making a fair living in a certain business, some other man comes along and starts a business of the same kind, when he ought to know that he cannot succeed, that there is only room for one such store or shop in the place, and that he only injures himself by starting a business that will not pay, but also injures the other man. In larger places that are rapidly growing, and whose growth is reasonably sure to continue, the case is different. In such towns there is likely to be room for one more but in small and for the present stationary towns, it is folly for a man to 'butt in' to a business at which he cannot succeed, and by dividing which he only checks the other man's moderate success. The rival furniture men, saddlers and butchers of Tillamook have set a good example." *
The Editors snap shots were cut short this week, on account of having been called away on Monday. *
Big Lumber Deal is Consummated. *
One-half of the Booth-Kelly Lumber Company's timber and mill interests in Lane County have been sold to Eastern capitalists, headed by John W. Blodgett, of Duluth, Minn., for \$2,500,000. The deal has been going on for some time. *
With Mr. Blodgett are associated C. D. Dannaber, of Chicago, and Arthur Hill, of Saginaw. *
The Booth-Kelly company has 80,000 acres of timber land, and operates four sawmills. One of these mills is at Springfield, the second at Saginaw, the third at Coburg and the fourth at Wendling. Last year the company employed over 1500 men, but this year the number fell to 500, as a result of dullness in the lumber trade. *
There will be no change in the policy or management of the concern, and R. A. Booth will remain its nominal head.
