The lumber schooner Oakland sailed on Sunday for San Francisco with a cargo of lumber from the Truckee saw mill at Hobsonville, which is the first cargo to be shipped since the mill resumed operations. \*

School commenced on Monday in the Kilchis district, the directors having leased the McIntosh building at Riverdale and converted it into a school house. Miss Maude Kelly, of Albany, is the teacher. \*

Saturday evening the band boys will entertain the people with another theatrical play, entitled "Dollars and Cents," and with other attractions. As the band boys' entertainments have always been appreciated by the public, it is safe to say another first class evening's enjoyment awaits those who expect to patronize the band boys. \*

### JOINT SESSIONS.

Attorneys Want Pay for Advice--Pete Lamar Appointed Superintendent of the Pipe Line.

The city council and water commission met on Monday evening for the purpose of advising with some of the law firms as to what was best to be done in view of the threatened litigation by the water company. Attorney T. B. Handley was the first speaker, and he thought it was important that the city should have some legal advice, which was coincided by Attorneys B. L. Eddy, Claude Thayer and H. T. Botts, but as to what the cost of the legal advice would amount to the legal lights would not commit themselves, for as Mr. Thayer remarked, the suit may not amount to much, but on the other hand it may grow in magnitude and go to the supreme court, and in that event it was necessary to retain some law firm. Attorney C. W. Talmage thought the attorneys ought to be patriotic enough to conduct the case free of cost, and he would be glad to do his part if the other attorneys would do the same. It reply to this Mr. Thayer said he saw that the butcher was not supplying free meat to the men nor were the merchants furnishing free cement for the contractors to do their work, and Mr. Eddy said as far as his law firm was concerned he was not there soliciting to be employed, for that was something he did not do in his practice. He was there by invitation of the mayor, and if his firm was employed by the city it would get the best service he knew how to render and the best in his shop. After Mr. Thayer had stated that it was immaterial to him who the city employed, the attorneys retired. The water commission went into session and on motion President Brodhead appointed Commissioners Harrison, Reynolds and McNair to confer with Councilmen Chase, Leach and Mason, which they did, and Councilman Chase and Commissioner Reynolds were appointed a sub-committee to wait on the attorneys and ascertain their terms.

At the meeting on Wednesday evening, Commissioner Reynolds submitted a proposition from Attorneys Handley, Thayer, Eddy and Botts to give the city an opinion for \$100. This led to some discussion, after which Commissioner Handley moved and Councilman Leach seconded a motion that no legal advice be obtained, which was carried.

The commission was called to order on Wednesday evening, when Commissioner Reynolds moved that Pete Lamar be employed as superintendent to represent the city in the construction of the pipe line at \$3 a day, which was carried.

At a meeting of the city council Monday evening, with Mayor Geo. Cohn in the chair and all the councilmen present, Fire Chief Crenshaw handed in a report of the three tests of the water system, which showed but 18ft., 20ft. and 30ft. respectively. The bill of the Tillamook Water Company for water for April, was referred to the ways and means committee. The bills allowed were:

- City recorder.....\$15.00
- R. L. Wade..... 17.25
- W. O. Chase..... 1.00
- McIntosh & McNair..... 3.00
- Electric lights..... 40.00
- O. E. Quick..... 21.00
- Elm Olds..... 19.00
- J. H. Smith..... 2.00
- G. W. Grayson..... 2.00
- Marshal's salary..... 13.50

The city council then took up the matter of street improvements and adjourned until Wednesday to meet again with the water commission.

### Furnish the Information.

Portland, Oregon, April 25th, 1905.  
Hon. B. L. Eddy, Tillamook, Oregon.  
Dear Sir,--As you are aware, the Chamber of Commerce here has taken up the question of getting additional transportation facilities built in this state. One of the lines under consideration is that to Tillamook. I wish you would put me in touch with the right person to get full information from on this subject. It is possible that much of the information has already been gathered. What I desire to know particularly at this time is from and to what points the proposed road would run, its mileage, its probable cost, the character of country through which it runs, whether the grades are heavy or light, the probable amount of traffic the road would have etc. In other words, I would like to have full and definite information, such as one would want if they personally were contemplating making such an investment. Information furnished on this basis is the only kind that is of real importance at this time, as we are taking up these matters and want it just as reliable as possible when we first present it.

Yours truly,  
J. N. TRAL.

### The Cantata.

The cantata, "Queen Esther," which was given in this city two evenings last week was certainly a creditable production for local talent, and those who took part in it are justly deserving a word of praise. It was an entertainment somewhat out of the common for Tillamook, as well as difficult to fine people with the required vocal ability to fit in all the solo parts in so small a community, yet for all that the solos were nicely rendered, while the choruses, which are prominent features of the cantata, were given with pleasing effect, while those given by the girls' chorus were particularly sweet. The dress, which was attractive and bright, helped to make the cantata a success from a spectacular point of view. All those who took part are certainly entitled to a word of praise for so creditable a production of the cantata, which was deservedly well patronized. The leading characters were:

Esther, the Queen.....Mrs. C. W. Talmage.  
Ahasuerus, the King.....H. T. Botts.  
Haman, the King Counselor.....T. B. Hanley.  
Mordecai, a Jew.....E. M. Patterson.  
Zeresh, Haman's Wife.....Mrs. Dr. Upton.  
Mordecai's Sister.....Mrs. E. M. Patterson.  
Prophetess.....Miss Ruth Bewley.  
Median Princess.....Mrs. W. F. Barker.  
Persian Princess.....Miss K. Mills.  
Scribe.....John Latimer.  
Boggar.....Prof. W. W. Wiley.  
High Priest.....Wilber Stillwell.  
Herald.....Walter Pettys.  
Harbonah.....Thomas Coates.

### Building for Sale.

For sale, cheap, it sold at once, the building east of the Headlight office that was used by Otto Heins for his studio.-- Apply to Mrs. Heins in this city for price.

### Notice.

On and after May 1st we have decided to sell only FOR CASH. All who are indebted to us will please call at our office and settle their accounts either with cash or by note and oblige.
