On Friday evening the pupils of the sixth and seventh grade of the public school gave their teacher, Miss Ruth Cooper, a surprise party at her home, when the young people had a nice time together and refreshments were served. Prof. and Mrs. W. C. Buel were tendered a reception on Friday afternoon by the friends and patrons of the Fairview public school, the occasion being the last day of school in that district. Prof. and Mrs. Buel have given good satisfaction, and it was thought fitting that the patrons should show their appreciation of the services rendered by the teachers, so the reception was arranged, which was largely attended. Some appropriate remarks were made by Director Webb Mat-tux and the dinner that was served is reported as being extra fine. \*  
At a meeting of the Water Commission on Wednesday evening a warrant was ordered drawn for \$1,350 to pay the contractors, also several warrants were drawn for small amounts. The firm of Handley & Thayer submitted a proposition to defend the commission in any suit that may be brought against it by the water company for the sum of \$300. This the commission agreed to accept, and instructed the president and secretary to enter into a contract with Handley & Thayer for that amount, which will be done to day and ratified at another meeting of the commission this evening. \*  
To-morrow (Friday) will be the last day of school in this city, which will terminate another successful school year with six pupils, 1905, to graduate from the high school in this city. Although the attendance fell short what had been expected and provided for, it is admitted that Prof. E. H. Whitney and the teachers have done good work and the patrons are well pleased with the results and the harmonious manner in which the school has been conducted. It is generally easy to find a few "knockers" to find fault with something connected with the public school—the principal is not liked, the results are not satisfactory to some, the cost is too great, or some other trivial complaint—but, fortunately for the district, we do not hear of any "knockers," for the simple reason that the citizens wanted a good public high school, which they succeeded in getting. The graduating exercises will be in the opera house to-morrow (Friday), and is of special interest to the school, for the 1905 class, will receive their diplomas, which will entitle them to enter the state university if they want to continue their studies. The salutatory, "Progress," is by Ralph U. Moore; class history, Miss Clara Eichinger; valedictory, "We Have Crossed the Bay: The Ocean Lies Beyond," Miss Sadie M. Watt. The address and presentation will be made by Mr. B. L. Eddy, and there will be vocal and instrumental music. The graduates are Clara Watt, Edgar Munson, Sadie Watt, Clara Eichinger, Easie Oliver and Ralph Moore. \*  
It is understood that B. L. Eddy, recommended by Mr. Fulton, has been agreed upon for Register at Roseburg, and that the Senator has refused to consent to the appointment of J. M. Lawrence, of Bend, as Receiver. Mr. Lawrence is the man whom Mr. Hitchcock wants appointed to this office. The Secretary will not discuss the case further than to declare there is no ill-feeling between the Senator and himself. He says no appointment will be made until two men are agreed upon, as there would be no advantage in appointing a Register without a receiver or vice versa. It cannot be ascertained whom Mr. Fulton recommended for Receiver, or who was the original choice of Mr. Hitchcock for Register, though this latter preference is no longer of consequence. \*  
SALEM, Or., May 19.—When asked this evening regarding the status of the appointments to the Roseburg Land Office, Senator Fulton declined to discuss the subject, except to confirm the information that has been given out by the department at Washington. Senator Fulton says that he suggested two men for the positions of register and receiver at Roseburg. \*  
He understands that the man recommended for register, B. L. Eddy, has been approved by the Secretary of the Interior, and will be appointed by the President. He has not been advised that the other man has been objected to by Secretary Hitchcock. When he has been notified that the man recommended for receiver is objectionable, he will submit another name. Senator Fulton declined to give the name of the man recommended for receiver. He says that when the places are filled the appointees will be men recommended by him. \*  
Senator Fulton is in Salem to meet his friends, and will remain here all day to-morrow. \*  
Building for Sale. \*  
For sale, cheap, if sold at once, the building east of the Headlight office that was used by Otto Heins for his studio.—Apply to Mrs. Heins in this city for price. \*  
The Tokio correspondent of the daily Telegraph wires that the railroad to Vladivostok has been severed, as the result of which the fortress is isolated. \*  
and the traveling public for the last 24 years. That ought to convince any intelligent man that we should not continue the same blight and curse. People that have traveled the road recently say that they never saw the road in better shape. No thanks to the proprietors for the same. I understand the court says that it cannot keep the roads fixed for travel. I would ask them who fixed or put the roads in shape this spring? I think the good Lord did want to do as much for the people as he did for the toll road company. We do not ask the county to expend one cent on the roads. All we ask is to be let alone, not persecuted any longer with the toll roads. For my part I prefer free roads to a lingering death. \*  
Yours truly,  
A. W. FLETCHER.  
Oretown, Ore., May 21st, 1905.

The Toll Road Question. \*  
TO THE EDITOR TILLAMOOK HEADLIGHT. \*  
DEAR SIR.—The people of the South end of Tillamook County are glad to see that the Headlight takes the right view of the toll road nuisance. For twenty-four years tolls have been collected on these mud trails, thousands and thousands of dollars have been collected from the traveling public; and if anything like a fair proportion of the money had been spent on the roads, Tillamook County today could boast of having the finest roads in the state. \*  
The progress and development of the county has been greatly retarded by the toll gate barriers. While counties all around us are increasing in population, we find ourselves with a decreasing one. Desirable ranches are lying vacant for the want of buyers, and it is a startling fact (which we regret to admit) that land is changing hands today for less money than it did eighteen or twenty years ago. \*  
When the attention of real estate agents in the valley are called to the desirable places that are for sale, they invariably say, "We can do nothing. People will not go behind those toll gates over such rough roads." \*  
While the county is offering prizes for exhibits to the Lewis & Clark fair, there ought to be a prize offered for a good photograph of certain sections of the toll roads; of course it would be best not to have any winter views, when about all any one can see of a team and wagon, is the mules ears sticking out of the mud. It would be better to take some midsummer views of places in the road, where it is possible to drive along without getting one's hat knocked off by the brush. \*  
Printed placards should be placed with these pictures, informing locaters that for the privilege of coming into the county they would have to pay a dollar, and pay another dollar to get out, as we have no free roads into the county. It is necessary to be plain with the facts, as it may have the effect, of avoiding any unlooked for rush, and the truth may as well be found out first as last, as it will come out anyway. \*  
Abraham Lincoln, once said: "You can fool the people some of the time, some people you can fool all the time; but you cannot fool all of the people all of the time." \*  
If he had ever been in Tillamook County he would see a people who are being fooled and robbed all of the time. \*  
NESTUC.  
Oretown, May 22nd, 1905. \*  
Six.—Would say that the people here are opposed to the county renting or leasing the toll roads. In the south end of the county, we have been punished we think with toll long enough. Let us have at least one summer of free roads in Tillamook county and see what effect that will have. We know that said roads have been a curse to the county

from Tillamook, but when it came to sever connections with old associations and say good-by to friends who had stood by him for years, and clients who had put confidence in him and whom he had advised, it was not such an easy matter to break loose as he thought it was. He thanked those who were so kind as to tender them that reception, also to the speakers for the kind remarks. He saw friends in that hall who had stuck to him in his battles, and although he had never thanked them for their friendship and the way they had encouraged him, he thanked them now. He had made some enemies, but he left with malice to none. \*  
Death of Mrs. Peter Brant. \*  
We have to record the death of Mr. A. J. Brant, wife of Mr. Peter Brant, which occurred on Tuesday morning at nine o'clock at her home in this city. She was in poor health for several months, but her death was hastened on account of a severe attack of paralysis eight days before her death, which rendered her prostrate. Everything that could be done for the aged sufferer was done by loving friends, who watched her day after day until she passed away. The funeral took place on Wednesday, the religious service being in the M.E. church, conducted by Rev. C. A. Stockwell, the pastor, and the burial in the Oddfellows' cemetery. There was a large attendance at the service of sympathizing friends and neighbors, for Mrs. Brant was a good woman and much respected, and the bereaved husband and family have the sympathy of the entire community. \*  
Mrs. A. I. Brant was born in Oak-glenck County, Ohio, on the 30th October, 1825, and was a daughter of John and Anna Catterlin, being the oldest of a family of 10 children. She moved to Indiana with her family about 1840, in her early girlhood days, where she married Daniel Bodyfelt in 1846. Of this union six children were born, only two of whom are now living, viz.: Commissioner G. W. Bodyfelt and Mrs. Jonas Olsen, both of whom reside in Tillamook county. She left Indiana in the spring of 1857, and went to Marion County, Iowa, where she remained five years with her husband, and in 1862 they left for Oregon by ox team. On arriving in this state they settled first in Lafayette, Yamhill county, where they remained until the fall of 1865, and then came to Tillamook county over what was then known as the Harris trail. Her husband died in this county in 1881, and she was married again on the 28th June, 1883, to Peter Brant, and has resided in this county ever since. \*  
Card of Thanks. \*  
Mr. Peter Brant desires us to express his sincere thanks to the friends who assisted and sympathized with him in the death of his beloved wife. \*  
All prospects of peace in the Chicago teamsters' strike have disappeared, and will be open war from this time on.
