Mills and Smith drove out as soon as possible and attended to the injuries, and they are in hope the severed fingers will grow together.
The steamer W. H. Harrison had a narrow escape of being disabled at sea on her last trip from here last week. It seems that she must have picked up a piece of wire cable with her propeller after she left the dock, which hung onto the shaft. Just before reaching the dock at Astoria it bound itself round the propeller and disabled the vessel, but being at her destination she was hauled to the dock.
H. R. Wilson and wife, of Gatesburg, Ill., were in the city on Tuesday. For the information of those who are interested in chittim bark, Monday's market report is discouraging. Here is what it says: "The market for chittim bark is dull, weak and lower. Advices from the East say the market there is in a waiting attitude, with consumers making no purchases. All the heavy manufacturing chemists and speculators have large stocks on hand and in view of the immense supply of unsold bark on this Coast, are strictly out of the market. It is estimated there is a five years' supply already peeled and unsold in this country. If this is true, it means that prices must get down to the basis of 1901 and 1902 when bark sold at 2 1/2 to 2 3/4 cents."

Married, on June 11th, at the residence of the bride's parents, Mr. and Mrs. J. A. Reeber, at Wilson, Or., Mr. C. H. Hoyt, of Hillsboro, and Miss E. Grace Reeber. Mr. McNamer brought in the groom's friends from Hillsboro, consisting of 11 persons, and the horses were decorated with white roses and ferns. The groom is a member of the firm of the L. M. Hoyt Company, merchants, of Hillsboro, where the newly married couple will make their home. The groom's best man was Mr. Howard Baird, and the bridesmaid Miss E. Hoyt. The bride is one of Tillamook's bright belles and an accomplished and affable young woman. Many beautiful and valuable wedding presents were received.
A number of the friends of Mr. and Mrs. B. F. Durfee arranged a surprise on them on Friday evening, which was a surprise indeed, for neither of them, nor their daughter, Mrs. M. Warlick, who is visiting them from Chicago, had any inkling of what was on the tapis until his house was besieged. When the Headlight man appeared on the gay scene the old couple were having the time of their life, with Mr. Durfee doing the light fantastic and swinging his partner with the agility of a young man, reminding him of the good old times when tipping the light fantastic toe and swinging your partner was considered innocent amusement at family and social gatherings. The remainder of the evening was devoted to singing and recitations and a good social time, and the ladies serving refreshments before the party left for their homes.
The annual school election passed off pleasantly on Monday. After Clerk T. Coates had read the annual report, Mr. Claude Thayer drew attention to the increase in the cost of running the school last year, and thought they should get along with less teachers, as the taxes in the city were getting to be burdensome. He did not favor cutting the high school out, but he wanted the board to economize and obtain the same results at less cost, which he pointed out could be done and not in any way interfere with the young people getting a good education. Director H. T. Botts said steps had been taken to that end, for they expected to get along with less teachers, but he said, it was the intention of the present board to keep the standard of the school up to what it had been. The only nomination for director was A. M. Hare, and he was declared elected by acclamation. On an informal ballot for clerk, the vote was: T. Coates, 14; A. M. Finley, 11; A. T. White, 6; E. Harrison, 3; E. W. Stanley, 1; B. F. Durfee, 1. On the next ball lot the vote stood: Coates, 15; Finley, 18; Harrison, 2; White, 1. As it took 19 votes to elect another vote was taken which proved decisive: Finley, 21; Coates, 15; Stanley, 1. The chair appointed S. A. Brodhead, W. M. Harrison and Geo. Edmunds to audit the clerk's accounts.

AMOS VAUGHN.

For Japan first, and secondly for Asia and the world, peace will bring consequences of vital importance. The immediate effect will be the aggrandizement of Japan by freeing her from all menace of Russian attack in the future; by giving her strategic points of offense and defense at Port Arthur and other places in Manchuria; by establishing her suzerainty over Korea, and by placing the reorganization of China in her hands. These changes will be of vast moment to the mikado's empire. Emancipated from all danger of Russian attack, she will be free to extend her influence over China and Korea, to develop her own internal resources leisurely and on such lines as intelligent deliberation dictates, without regard to the opinions or the interests of any outside power. She will be fourth among the nations of the world in naval strength, first among them all in naval and military experience, and not behind any nation in fighting power per unit on land or sea. Under the new conditions the sea of Japan, the Yellow sea and the sea of China will become Japanese lakes.

Death of E. G. E. Wist.

E. G. E. Wist passed away on Wednesday at his home at the saw mill at Pleasant Valley, after a short illness, and on that account his death was a great surprise, for he generally enjoyed robust health. He was an old settler and prominent citizen of this county, for he came to Tillamook over twenty years ago and taught school at Nehalem, being the first school teacher in that part of the county. He homesteaded on what is now known as Upper Nehalem, where he became a successful merchant until he was burned out. He built the salmon cannery at Upper Nehalem, and after he had sold it to S. Elmore he removed to Tillamook City. A few years ago he, in connection with several others, formed the Yellow Fir Lumber Company, who bought the machinery from the saw mill at Bay City and removed it to Pleasant Valley where he has operated the mill since that time. He owned the Palace hotel in this city.
Deceased was an enterprising and public spirited citizen, and we regret to have to announce his death. He leaves a wife and family of four children to mourn their loss. Deceased was 55 years of age, and the remains will be buried on Saturday.

Archbishop Farley declared at Carnegie Hall at the commencement exercises of the College of St. Francis Xavier that the laws of divorce were fast undermining our society, and that the whole structure would shortly collapse, should no hand be raised to ward off the advance of this tendency. The archbishop spoke as follows: "I believe no President since Washington's time has had a more beneficial effect on the roots of society and the family than Roosevelt has by means of his frank declarations. Not only does the President preach the doctrine he believes, but he exemplifies it in his own life, and his own family stands as an illustration of what the Nation's executive thinks and says of the race standards. It is like gratifying to find that the President has not confined his labors in this direction to his own circle wholly, but the fact is made known to me that the Cabinet has taken this question up and will deal with it. When the heads of our Government take up a problem of this grave nature, there can be no need for the people doubting that the situation must be gravely considered, and we feel that much good will be done if effort is properly directed."

ABOUT FARM MACHINERY.

McCormick's and Osborne's are the Best and Cheapest.
You don't want a rake that is weak in the head and weak in the joints or that has faulty teeth do you? Well, better buy a McCormick or Osborne and take no chances.
A telephone connection with all the world's wheat fields would enable one to hear McCormick and Osborne machines at work continuously from January 1st to December 31st.
A McCormick knife grinder will sharpen any thing from a pair of scissors to a mower knife.
A fool and his money are soon parted. Buy a McCormick and don't part with your money for repairs on your mowers.
A successful farmer is a practical one who thinks out his work and then works out his thoughts.
McCormick and Osborne machines might well be indorsed by the humane society—they are so easy on the horses.
McCormick and Osborne machines have been tested through seventy-four harvests and have grown in value through each one.
McCormick levers are always within reach; a fact which every farmer appreciates.
McCormick's and Osborne's worldwide reputation is not the result of accident—it is the reward of merit.
Like the town criers of old, the farmers sing out the praises of McCormick and Osborne machines until they are known wherever grain is grown.
