 Those who have not seen brome grass can do so by visiting Alex. McNair & Co.'s or Cohn & Co.'s mercantile stores in this city. Those who have seen it are well pleased, as it comes up to what we published concerning it. The next thing to do is to get it started in Tillamook, and with a little patience and perseverance not a few of the farmers believe this will eventually become the grass for the prairie land.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse Schools of Telegraphy, in this issue and learn how easily a young man or lady may learn telegraphy and be assured a position.

 Attorney T. B. Handley does not see any sense in going out to the headworks of the water system on Sunday to celebrate the turning on of the water into the new water system, for the reason that so few persons can get there. We agree with him and make the suggestion that the event be deferred until Monday evening so that the hose company can book onto the new system, and the old one too for that matter, so that all the citizens can participate.

 2nd grade—Octav Voget, Spruce; Effie Holt, Foley; Fred Borneman, Bay City.
 3rd grade—Sara Watt, Bay City; Ralph Moore, Clara Eichinger and Eacie Oliver, Tillamook.
 The best set of papers were those of Octav Voget, whose average was 97, and he is deserving of considerable praise, for being educated in Germany, he has only been in this country two years.
 After one or two attempts to rain, the gentle patter of a Tillamook mist was heard descending on Wednesday morning, and it did not have to get a permit from the county clerk to put out fires where the farmers were clearing up their land, but it did so all the same. Although it is several weeks since rain fell, the meadows have remained green through the summer, but the rain was what was wanted to give the grass another start and to lay the dust. Thus far no forest fires have occurred in this county, and it is not likely that any will, unless the wind should turn to the East and dry up the underbrush, which had a wetting on Wednesday.
 Howard Edmunds, who was wanted in this city charged with gambling, was brought back by Sheriff Woolfe on Wednesday. It seems that Edmunds was on his way in from Seaside on Saturday, and stopped at Nehalem. On Sunday Sheriff Woolfe and Deputy Sheriff Coates went to Nehalem to arrest Edmunds, but finding out what was up, he beat a hasty retreat, and the county officials returned without their man. Sheriff Woolfe telephoned Sheriff Linyville at Astoria to arrest Edmunds, who telephoned to Marshal Thorp at Seaside to arrest the man if there. At the conclusion of the ball game on Sunday at Seaside, the marshal arrested Edmunds and locked him up for the night and next morning took him to Astoria. Sheriff Woolfe made a trip overland to Seaside to bring Edmunds back which he did on the steamer Wednesday. He is up before Justice Haberlinch this morning.
 Married, on Tuesday, at the home of Mr. and Mrs. W. C. Morton, near Bay City, Mr. William A. Petteys to Miss Lorena Bell Rolver, the ceremony being performed by the Rev. C. A. Stockwell, pastor of the M. E. church, when about twenty relatives of the contracting parties were present to witness the happy event. The bride is the grand daughter of Mr. and Mrs. W. C. Morton, and a young woman greatly respected in the county, while the groom is also well known and an exemplary young man, being a son of Mr. and Mrs. M. B. Petteys, of Bay City. He is a graduate of the State Normal College at Monmouth, where he is now one of the professors in the training department, having attained that position by dint of perseverance, hard study and a determination to succeed. Both have a large number of friends in the county, where they were raised, who extend to them their congratulations and best wishes for their future happiness. Mr. and Mrs. W. A. Petteys left the same day by private conveyance for the toll gate, taking the stage the next morning. They will spend their honeymoon in Portland, remaining there for a month, after which they will make their home at Monmouth. They had a large number of useful presents.

John Harter, or "Honest" John, as he was called at Happy Camp, made himself awfully pleasant down there last week, and the invitations to dine out were so numerous and so pressing he could not accept them all. But John got into a devil of a fix. It was reported in the camp that John had not been there very long when the grass widows phoned for him to come back to the city, and no sooner had he arrived in the city than the ladies of the camp phoned for him to return. And like a "young" gallant he did so and there was much rejoicing in Happy Camp when Happy John put in an appearance again. John tried to make everybody happy in the camp and succeeded in doing so.

A Good Company.

Messrs. McCowell & Pyle, who were formerly with the Margarita Fischer Co., have their own company now, and opened a very successful engagement at Tillamook Opera House last Saturday night to a crowded house. The performance was truly a surprise to those present, as it was far above what they had expected. The company as a whole are exceptionally competent in their respective roles. Monday night they again delighted a large audience with the comedy "Private Secretary," special mention should be made of the clever specialties between acts, as it, does away with those long waits one so often experiences at a performance. They will present a heavy melo drama, "Crawford's Claim," tonight and have painted special scenery for the production. Saturday night they will present the beautiful war drama "Two Soldier Boys," and the management will give away a "Pig" to the one holding the lucky number. If a man wins the pig he will compel him to come up on the stage and catch him in full view of the audience, if a woman wins the pig she will have the authority appoint any man in the audience to catch it for her. The company will also play Tuesday and Thursday nights of next week.

Long Walk in Sleep.

TACOMA, Wash., Aug. 14.—A remarkable case of somnambulism has just occurred at Eatonville. Antoine Grassel, who lives four and one-half miles west of this place, left a week ago for a camping trip in the mountains, leaving his wife alone at home. Mrs. Grassel is a strong, healthy woman, never having had any ailment, either physical or mental.
 About 2 o'clock yesterday morning she rose from her bed going to the kitchen and lighting a lantern. About 3:30 o'clock Mrs. G. B. Ingersoll, whose residence is opposite the Eatonville postoffice, looking out of the window, saw a white figure sitting on the post-office steps. Beside her was a lighted lantern. In a few minutes the figure arose and started briskly down the street.
 About an hour later Mrs. Grassel, clad only in her night robe and stockings, arrived at the home of John Anderson, a mile and a half east of town. She opened the door and Mr. Anderson, the only occupant awoke and spoke to her. With a scream she came back to consciousness, and it was some time before she became calm enough to understand where she was or what had happened to her. She had no recollection whatever of her trip.
 The entire distance traveled was six miles. Mrs. Grassel was returned to her home this morning, seemingly none the worse for her nocturnal jaunt.

M. Witte has received final instructions, relative to the extreme limit of the Russian concessions, according to information received this afternoon by the Temps from its St. Petersburg correspondent, who says he learns in governmental circles that, should Japan insist on the payment of an indemnity, the negotiations will be broken off. The decisive result, the correspondent says, is expected this week.
