Dr. Bartel's house had a narrow escape on Thursday evening. It seems that the electric light fell and caught the bed on fire, and when the hose company appeared on the scene the bed was all ablaze. This was packed out into the street and put out, which was the extent of the loss.

Fire destroyed Joseph Blazer's house and barn, with the furniture, hay, etc., on Monday evening, which is known as the McCormack place on the road to Long Prairie. It is not known how the fire originated, but it first started in the barn and then caught the house on fire, making a clean sweep of both. The loss is covered by \$1,000 insurance in the Oregon Fire Relief Association, of which Mr. J. S. Stephens is the agent.
Geo. W. Phelps swore out a complaint and had Elmer Hall arrested for stealing a cow, but as there is a replevin suit filed in the justice court to prove the ownership of the animal, the case against Hall was continued until the 1st September so that the parties can fight out the civil suit first before the criminal action is taken up. Attorney T. B. Handley will represent Hall and Attorney H. T. Botts Phelps in the civil suit.
The hose company was called out on Wednesday afternoon, a fire having started in the roof of the building next to Long's saw mill, presumably from a spark. The chemicals kept the fire in check until the hose was hooked on, and then it did not take long to put it out. This is the fourth fire caused by the mill that the company has been called out to, and it is to be hoped the last one before the new system is in operation.
A mistake in ordering engine pipe is the cause of the delay in the completion of the new water system, which would have been completed last week had it not been that the contractors had not calculated for the pipe lapping at the joints, which made it that much short when it came to finishing up the work, which amounted to about 200 feet. This was brought in on the steamer on Wednesday, and in a few days the system will be finished.
Justice Haberslach bound Howard Edmunds over to the grand jury on Thursday on a charge of gambling. The case grew out of the gambling where Howard Edmunds, Billy Stephens and W. Bosley partly loaded I. F. Larson with whiskey in Hadley's old saloon building and then got into a game with him in the room over Morton & Trombley's store. Larson lost about \$80 and "squealed" the next morning, when Edmunds cleared out, but was arrested as reported in our last issue.
J. T. Fletcher has had occasion the past few days to visit the proposed line of the much talked of Hillsboro and Tillamook railroad at several places and he says it is the nearest baby play of any railroad building he has ever seen. At one or two places there are two or three men at work, but they work as if they were simply putting in time instead of trying to do something. Mr. Fletcher

says the management will have to get a move on if they ever get that road built, let alone this year.—Forest Grove Times.

Vantress, and the place of business will be Hobsonville. The new company will take possession of the Truckee Lumber Company's saw mill in Tillamook Bay on the 1st September, the Hadleys, it is reported, obtaining controlling interest in that property. Logs for the mill will be furnished from the new logging camp that is to be started by the Hadleys on the Wilson river and by the Tillamook Logging Company.

On Wednesday afternoon of this week the ladies of the Shakespeare Club had a very pleasant outing. A few invited guests were present, the party numbering in all nineteen. A very beautiful spot was selected on the banks of the Trask river near its mouth; nor did nature ever seem a more appropriate setting than for this picture of beautiful women. At about four o'clock in the afternoon the writer, having been previously notified that at about that time the cloth would be spread, found his way to the appointed place where a most delicious luncheon was spread and in short order was being enjoyed by nineteen happy people. The study of Shakespeare is indeed commendable, and we are sure that the ladies of this club feel that they have not spent their time in vain, but should Shakespeare never be opened and the club was simply Shakesperian in name, the benefit that these ladies derive from afternoons like this, when the cares of home can be left behind would be incalculable.

Hillsboro and Tillamook Roads.
Progress on the new P. N. & T. railway is progressing very satisfactorily, according to the report of Edward Records, president of the Atlas Contract & Construction Company, of San Francisco, which holds the contract for the line. Mr. Records has returned from Hillsboro to Portland, where he went to submit the contract for the second 10 miles of the line. The first 20 miles of the line must be completed by the end of November to fulfill the conditions of the contract, but, according to Mr. Records, this portion of the line will be finished before that date.
No attempt to extend the line beyond the first 20 miles will be made this Fall, but work will be recommenced early in the Spring—in March, if the weather will permit. The last 80 miles are, for the most part, through very rough country, but a large force of men will be kept

at work, and the line completed as soon as possible. The contractor expects to have the work done before the close of next year.

Judging from the sound of the rumbling, there is a strong and growing sentiment to disjoin the north end of the county, including Road District No. 1, and annex it to Clatsop county. The cause of this dissatisfaction comes from the fact that we think we are entitled to a bridge across the South Fork of the Nehalem. Seeing the county judge refuses to move in the matter, perhaps the northern county would treat us better.
