**LONG PRAIRIE.**

Well, friends, as we haven't written any items for so long a time, we will at first proceed to write the aged items first. Here goes.

Miss Dove Quick is working for Mrs. James Bibby.

John Harter visits considerable on the prairie of late, so we are informed.

Henry Rogere took a business trip to the valley a few weeks since and returned with a span of fine trotters, one of which cost \$210.00 and the other \$80.00, so Dame gossip says.

P. J. Heyvaert is selling off his stock and expects soon to leave for Mt. Angel, where he will stay for a year or two.

Albert W. Phelps is working for Thomas Bibby this week.

Henry Olds is talking of moving onto his Fairview ranch for a few weeks till pasture is again good over here.

It is stated that the drill on M. R. Hanenkratt's place, has struck sandstone. This, it is claimed, is an indication of oil.

Miss Edith Olds is suffering with a felon in the palm of her hand. Dr. Smith was called Wednesday.

Charles Erickson and family spent Tuesday and Wednesday with Henry Olds and family.

**NEWS FROM NIAGRA.**

Niagra is one of the suburbs of Blaine and the trails are so crooked up in this part of the country that only those guided by divine providence ever get here. That's the way we came to arrive.

Matt Thompson was up here Sunday. He says he was guided by the evil one. And that our trail would make a snake-track look straight. Matt was one of the candidates for the Legislature at the primary this spring but ran in the wrong direction, and beat both of the other candidates out at the little end of the horn. But Matt is a good fellow and is just as popular where he is known as other candidates who spent more time and money electioneering.

The deer are eating my garden and the game law is in force. What am I to do? I put up a scarecrow, made up in the likeness of Jean Rowland, the mighty hunter of these parts, but they chewed the whiskers off and butted it over the first night. Does the game-law recognize the plea of self-defence?

Some fellows in from the valley trout fishing last week says they had pretty good luck, but complained of the law that made it necessary to measure each trout before they caught it, so to be sure that it was six inches in length they said it hindered the sport somewhat. They went up to the falls to try to spear some salmon, but when we showed them the trail in the rock that the salmon had worn going around the falls in the night, they got discouraged and gave it up.

A letter from John Browning, now in Seattle, says he is well and making money, but gets awfully lonesome for the Oregon hills. He says the simple life is the life for him.

Ours is one of the lonely ranches which to use the explorer's phrase "The hand of woman has never set foot." The church people send tender young female missionaries to the heathen, and Uncle Sam sends shiploads of pretty school ma'ams to the Philipenos, who wouldn't appreciate them half as much as some of the lonely bachelors in the Oregon hills. As Lawson says, there is something wrong with the system.

I will send you my receipt for snail pot-pie in my next.

I claim to have brought the first typewriter into this part of the country. I carried it twenty miles over the trail on my back—it is a typewriter machine not a typewriter girl.

I am spending most of my spare time (which amounts to about twelve hours a day) in trying to write the great American novel. I expect to Jack Londonize the world some of these days.

**CLOUGH'S PLAIN TEAT**

**BISTOURY**

**For Cutting Obstructed Teats.**

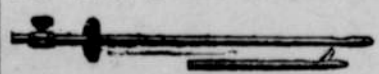

Illustration shows instrument both open for cutting and closed for inserting.

This obstruction may be a stricture or other growth of a tumorous nature, which is often the result of the bite of a dog, a kick or a bruise caused by going over a fence or through a dense underbrush; or the cow may have had some trouble with that quarter of her bag, and in milking and forcing the thickly curded milk out, a small rupture had resulted, so that when the scar tissue formed, the opening became smaller.

I also carry of German silver milking tubes, four different lengths.

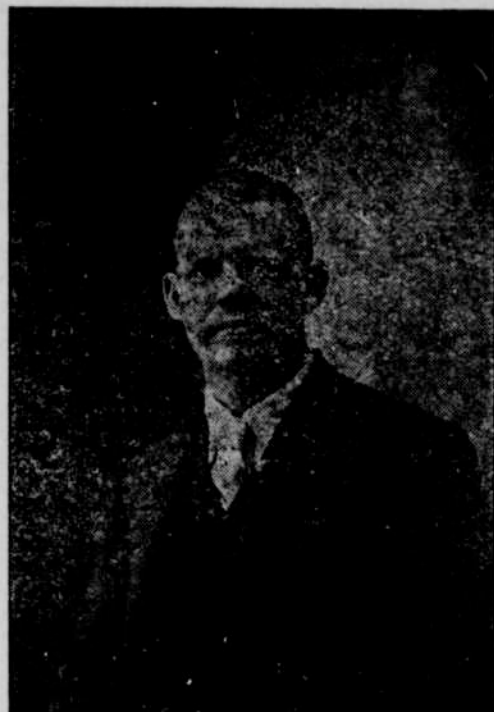

Improved Instruments for opening obstructed teats without cutting.

Feed Probes or Sounds.

**Clough's Drug Store.**

**A Lady Has the Floor.**

MR. EDITOR.—I was reading the protest of a few Oregon ladies against ladies voting in this state. They reminded me of an old song all the style 50 years ago:

**LORDS OF CREATION.**

The Lords of creation men we call,  
Who think they rule the whole;  
But they're much mistaken after all,  
For their under a woman's control,  
For ever since the world began  
It has always been the way,  
For did not Adam, the very first man,  
The very first woman obey?  
Ye Lords, who are present and hear my song,  
I know you will quickly say:  
Our size more large, our nerves more strong,  
Should the stronger the weaker obey?  
But think not though these words we hear,  
We shall e'er mind the thing you say,  
For as long as a woman's possessed of a  
tear  
Your power will vanish away.  
But should there be so strange a weight,  
As not to be moved by a tear;  
Though much astonished at the sight,  
We still have no cause to fear.  
Then let them please themselves a while  
Upon their fancied sway  
For as long as a woman's possessed of a  
smile  
She will certainly have her own way.  
Now, ladies, since I have made it plain,  
That the thing is really so,  
We'll even let them hold the rein,  
But we'll show them which way to go!  
For ever since the world began,  
It has always been the way,  
And we'll manage it so that the very last  
man,  
Will the very last woman obey.

Now this sounds very well, but all ladies do not have husbands, brothers and fathers, whom they can control, and ladies have to live here "on this ship of state, and in this union, strong and great," and need laws made for their benefit as well as the men.

These ladies first mentioned do not want suffrage imposed on them. It can't be, they will not be compelled to vote even if they have the privilege.

A man said he wanted to see women vote and would like to see one a judge and call down contesting lawyers. What did he mean? That the lawyers were careless, forgot their manners and did not conform to the rules of court and politeness?

Women own property and pay taxes. There should be no taxation without representation.

Voting is a woman's right, really; she is born free and equal with man, and together they should make laws for the common good.

A man said the polls would be a shameful place for ladies, men swearing and smoking around. But then ladies live with these same men at home.

Some men say ladies are not equal in business capacity. Many have proved that they were. Even in Bible times a lady judged Israel four years. Which proves that she was capable to do so. When I was going to school the girls were ahead of the boys in all our studies.

Ladies take more interest in the schools than men and teaches the children more by far. A man knows very little more than his mother taught him as a rule.

Some say ladies are not competent. When did men acquire the supremacy in wisdom and common sense?

Some say bad women would vote strange! They allow bad men to vote. Some say that ladies would not know who to vote for. I know of a lot of men who have to depend on some one to mark their ballot for them. Are they capable of voting?

More ladies on an average read and writ than men where I have lived.

A LADY SUBSCRIBER.

G. W. Fouts, Postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow, when my doctor prescribed Electric Bitters; which cured me and have kept me well for eleven years." **It Is Dangerous to Neglect a Cold.**

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by Chas. I. Clough's Drug Store.
