THE JERSEY-HOLSTEIN CONTROVERSY.

The Black and White Brother Gored by the Jersey Brother.

TO THE EDITOR TILLAMOOK HEADLIGHT.
 Through your courtesy, as I said in my brief answer of May 3rd to my black and white brother, Mr. Houghton, and your many readers, I would answer his long felicitous articles. First, I will say no one can carry on a discussion with men who will not be truthful and state facts and figures, and all of them, not leaving part out, which is worse than a real falsehood. Fair play and equal deal as he quotes is all the excuse I have to offer for this article. He wants to know where, when and how, by whom the Holsteins were forced into a subordinate position?
 No. 1.—During the test for economical production, at St. Louis.
 No. 2.—During the fall of 1904, for a period of 120 days.
 No. 3.—By the Jerseys producing largest economical profits.
 Here are the true figures as put out by the men who carried on the test at St. Louis. Average per cow, 120 days. Average per cow per day.

No. Cows, Jerseys, 25, No. Cows, Holsteins, 15.	Milk	Fat	Butter	Solids Not Fat	Cost Feed	Net Profit, Class A	Net Profit, Class B
Jersey yield per cow.....	4981.0 lbs.	232.43 lbs.	273.66 lbs.	436.093 lbs.	\$28.90	\$39.52	\$53.91
Yield per cow per day.....	41.5 lbs.	1.936 lbs.	2.28 lbs.	3.634 lbs.	24 cts.	33 cts.	45 cts.
Holsteins yield per cow.....	6411.7 lbs.	219.89 lbs.	254.46 lbs.	508.727 lbs.	\$34.33	\$29.23	\$46.55
Yield per cow per day.....	53.4 lbs.	1.832 lbs.	2.12 lbs.	4.239 lbs.	28 3-5c.	24 1-3c.	39 cts.
Brown Swiss yield per cow.....	5301.6 lbs.	191.56 lbs.	224.10 lbs.	470.340 lbs.	\$32.89	\$23.13	\$38.69
Yield per cow per day.....	44.2 lbs.	1.596 lbs.	1.87 lbs.	3.919 lbs.	27 2-5c.	19 1-4c.	32 3-4c.
Short Horns yield per cow.....	4152.0 lbs.	158.41 lbs.	No test.	377.556 lbs.	\$26.56	No test.	\$30.18
Yield per cow per day.....	34.6 lbs.	1.279 lbs.	For Butter	2.979 lbs.	22 1-10 Forclass A	25c

 per day. Jerseys \$7.96
 \$10.29.

Fifteen Poorest Jerseys Compared With the Fifteen Holsteins.

The lowest fifteen Jerseys averaging 72 days from calving at the start of the test gave 71,428.6 lbs. milk, against 96,175.3 lbs. milk in case of the Holsteins, an excess of 24,746.7 lbs. in favor of the Holsteins, but this large quantity of milk did not contain as much butter as did the Jersey milk. When the amount of butter equivalent to the milk is computed, however, the Jerseys took the first place, their butter being 3,832.43 lbs. against 3,817 lbs. for the Holsteins. A difference of 15.43 lbs. butter in favor of the Jerseys. The cost of feed consumed was \$423.36 for the Jerseys and \$515.7 for the Holsteins. The feed of the Jerseys costing \$91.71 less than the Holsteins. The purpose of this test was to demonstrate the economic production of butter fat. Butter and milk for all purposes of dairying, in this the poorest 15 Jerseys proved their superiority, the net profit as butter producers being \$534.75 against \$438.55 for the Holsteins, and as milk producers \$746.75, against \$702.75 for the Holsteins. So had the 10 leading Jerseys been absent, those left would still have carried off the victory in net profit of \$96.20 on butter and \$38.00 on milk.
 If this does not prove the poorest 15 Jerseys better than the 15 Holsteins for economic production in this case (and this is the case I have been maintaining), I cannot figure and must have on some of those black and white goggles which my Bro. Houghton is thrusting at every body he can reach. If this does not show up Mr. Houghton the Holstein breed and the "Literary Bureau" in their true light I miss my calculation. He denies that the Holstein people have "imposed upon the credulity of the farmers boastful claims that are little short of false." Mr. Houghton's letter fails to substantiate his denial, but strengthens my position. He says point-blank, without qualification, that at the St. Louis Dairy Demonstration "The Holstein cow Shadybrook Terben was the winner." I don't know what Mr. Houghton's ideas of truth may be, but is ignorant of the fact that Loretta D, the Jersey cow was awarded the official distinction of "Champion—best cow of any breed" in both classes A and B, in the Dairy Demonstration (which was for both butter and the old dollar, which we are all after when we keep cows) I am surprised that the secretary of the Holstein-Frisian Association of America would allow his prejudices to betray him into such an obviously false statement. It leads us to wonder what we are to think of the rest of his statements. I don't think it any use to follow him any further in his mistatements and twisting of figures as I might prove

many more false by taking the time to look up the facts and figures. As I invited him to meet me again in competition if he and his black and whites are not satisfied. But I know there is no use to write them as I see by the Jersey bulletin a report from Mr. F. H. Scribner, who was superintendent of the Jersey cattle at the National Dairy Show, Chicago, in February. He asserted that the Holstein and Guernsey people objected to a competitive dairy test and would not take part in a national dairy show unless this feature was eliminated. As the Jersey people hold the honors of public competitive tests, they can well afford to rest on their laurels and concede this point. Whenever rival breeds are ready to contest the Jersey's well established superiority, it is believed the Jersey breeders will be found ready to accommodate them. If the future should develop any reason for such competition, with these remarks I will leave Mr. Houghton to his fate, but wishing him success in developing his big black and whites even to the extent he has claimed for their even vitality milk. He puts me very much in mind of an incident I witnessed when a small boy, about thirty-five years ago. While going to school one morning, I saw some commotion up the road and when I got there, two men were having a desperate battle, one a German the other an Irishman. After a little time the German had the Irishman down and knocking the whey out of him, when all at once the Irishman called out to the bystanders: "Take this bloody foiting Duchman off me, or 'oil whip him again." This illustrates the position Mr. Houghton is in at present. Thanks to you many times, Mr. Editor, for your space to defend the Royal Queen, the Jersey cow.

J. F. MARTIN.

Rheumatism.

Why suffer from this painful malady when one application of Chamberlain's Pain Balm gives relief? Hundreds of grateful people testify to the magical power of this remedy over rheumatism. For sale by Chas. I. Clough's Drug Store.

FATHER DE ROO SPEAKS IN TILLAMOOK.

Catholic Mission at Sacred Heart Church.

Rev. P. De Roo, pastor of St. Joseph's Catholic church, Portland, will be in Tillamook next Sunday to begin a mission for the benefit of the Sacred Heart parish. In the evening he will deliver a lecture to non-Catholics in the Academy hall. Father De Roo has earned a reputation as a missionary priest in Oregon. His lectures are highly pleasing, learned and instructive. He is acknowledged by all as the most learned priest in Oregon, and is second to none on the Pacific Coast. Father Le Miller feels himself fortunate in securing the services of the rev. father, who is now well up in years and finds it quite an undertaking to come to Tillamook. A private rig has been sent to Sheridan to bring him in, and he is expected here on Friday.

The public is cordially invited to attend the lectures given in the hall, and no words will be spoken to hurt the feelings of any, whatever their honest convictions may be as to the sentiments expressed or the doctrines defined by the speaker. The hall will be open at 7 p. m. At 7:30 a short musical exercise, accompanied with sacred singing, will precede the lecture. We give below the program for Father De Roo's mission:

SUNDAY, JUNE 10TH.

8:00 a. m.—Low Mass. Instruction for children.
 10:30 a. m.—High Mass. Opening of the Mission. Sermon in English.
 2:00 p. m.—Instructions for children.
 3:00 p. m.—Vespers. Sermon in German. Benediction.
 7:30 p. m.—Lecture to Non-Catholics in the Academy Hall, preceded and followed by singing.

MONDAY, JUNE 11TH.

8:00 a. m.—Mass. Sermon in German.
 9:00 a. m.—Instructions for children.
 10:00 a. m.—Rosary and Litany in German.

BOULDER CREEK.

M. F. Soars was down from Battle Lake one day last week.

C. A. Smith went to Tillamook Tuesday and returned Thursday.

W. N. Bays took his butter to Cloverdale last Saturday. He always gets top prices for it, as those who buy it once, want it again.

J. W. Tompkins is the victim of a boil in his ear, at last accounts the ear was swollen entirely shut, so that he was unable to hear with it.

To all outward appearances, election passed off quietly enough in this precinct.

H. L. Jensen's mile of fence is nearly completed. Although it has been a long and somewhat costly job, when done it is bound to improve the appearance of the place and be a credit to the builder.

J. W. Tompkins put in a phone for Mr. Norman Dye last Saturday.

Mrs. L. Poland came up from Beaver last week to her mother's. Her sister Miss Ida Nicklaus who has been staying with her, accompanied her.

Ralph Bunn, of Beaver, was a caller in our neighborhood, Monday.

Mrs. Laura Bays, who has been some what under the weather for a week past, is better, and able to be out.

Messrs. Walter Kinnaman, Oliver Kinnaman, wife and baby, and Mrs. N. Dye came up from Beaver last Friday to look after things on O. W. Kinnaman's ranch.

J. W. Tompkins bought a horse last week.

Several Boulderites attended the closing exercises of the Blaine school last Friday evening. They report an excellent program, well rendered.

Dave Hess started to town Monday morning with a load of cheese, but was stopped by a slide of rocks on the grade below N. Dye's, and had to take it back.

Dwells on Boulder have had a sufficiency of moisture for a while and would now be much pleased to see some sunshine.

Robins and blue jays are making havoc in strawberry patches around here. If present indications hold good they will not leave many berries.

Unknown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Chas. I. Clough's Drug Store.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed it has a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, unless cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. J. CHENEY & CO., Toledo, O.
 Sold by Druggists.

Take Hall's Family Pills for constipation.

\$50.00 Reward.

The undersigned will pay the above reward for information leading to the arrest and conviction of the contemptible hood who stole the hedge surrounding the grave of the late Mrs. Allendorf, in the I. O. O. F. cemetery.

B. C. LAMB.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, and liver in general. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankruptcy vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy. Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.
