AWARDS AT THE FAIR

Fine Display of Stock, Cheese and Farm Products.

NEAT DISPLAY FANCY WORK.

Culinary Department was a Pretty Exhibit of Canned Fruits and Delicacies.

One of the most gratifiying features of the fair, especially amongst those who participated in the exhibits, was in the award of premiums. As far as we were able to obtain them, we give below the awards, as follows:

Butter and Cheese.

The exhibit of cheese was one of the principal features of the Fair, for there was a lively competition between the large factories for the blue ribbon. The display was most creditable, and the result showed but little difference in the grade of the cheese, and this may be account for, as the cheese factories employ experienced makers. The cheese exhibit was in a large booth on the Main street, in the center of which was a large cheese weighing 300 pounds, manufactured by Al. Bunn, of Beaver, around which were numerous flats of various size, weight and shape, from 90 pounds down to the Young American. Not only was the famous Tillamook Cheddar cheese exhibited, but brick cheese, Swiss cheese and that loud smelling Limberger and other kinds of cheese manufactured in Tillamook were there also to show the people that the county excel in these also. Prof. Kent, of the Agricultural College, graded the cheese, and three factories won the first premium, viz., Nehalem Dairy Association, Al. Bunn and H. F. Goodspeed, each of which obtained 91 points. The points gained by the other factories were: J. B. Agen (L. B. Ziemer, representative), 90½; East Beaver, the Miami factory and the South Prairie factory, 90; Chas. Ray, 89; Tillamook Creamery, 88; Red Clover factory, 87½; Three Rivers factory, 85; C. B. Wiley, 84.

Gus Kunze displayed Limberger, block Swiss and brick cheese; H. C. Kunze, brick cheese; Chas. Kunze, brick cheese; John Neiger, Ementhaler cheese; Tillamook Creamery, Swiss cheese; while a number of the large factories exhibited Chedder cheese in flats.

There was but a small display of butter, the highest point being gained by Clay Daniel, who reached 90, the Clover Leaf being next with 88½ points, and D. E. Goodspeed being third nighest with 87 points.

The Stock Show.

The stock show, although somewhat on a small scale, was certainly a very successful affair and proved quite an attractive feature of the Fair, and should another stock show be held next year, it is safe to predict there will be a larger number of entries and a keen competition for the premiums, especially in dairy stock, for numbers of farmers expressed an opinion as being sorry that they had not put theirs in the show, for they felt certain that they would have taken the premiums had they done so. It was a good show of stallions, and goes to prove that the farmers, instead of raising scrubby horses of little value and of unknown breed, are raising horseflesh with a pedigree and of some value in the horse market. Amongst dairy stock, Jerseys were most numerous, and in that class some well-known breeds were to be seen, which attracted the attention of those who prefer the Jersey for dairy purposes.

Farm Products.

Several booths were used to display farm products, and those who interested themselves in this deserve credit. Although it could have been made more extensive had the large number of persons who were heard to remark "I'd won the prize if I'd put my potatos in," had done so, and numerous other farm products they had at home which they claimed would have knocked those on exhibits to smithereen for size and beauty. But they did not do so, consequently they did not get the premium for the mamoth spud, cabbage, squash, but the other fellow did because he placed on exhibition the best he had on his farm and he was ready to put that in competition. Below we give the premiums:

This was one department of the Fair, also situated in the Palace hotel, which attracted attention, and which had a committee of ladies who had the taste and ability to arrange the glass bottles of fruit and dainties in artistic style, and with a profusion of beautiful flowers the room presented a pretty pictures, and showed that in the art of preserving fruits and making rich cake, bread, pies and other tempting delicacies, the ladies of the county are fully abreast of the times in knowing how to prepare all these nice things for the enjoyment and pleasure of the opposite sex, but who would not allow the ladies to vote.

MADE FROM NATIVE ROOTS.

SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wasted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.
