County School Supt.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure not known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Buys a Million Apple Trees.

TOPPENISH, Wash., Jan. 11th.—The Washington Nursery company has just closed a contract with Arcadia Irrigation Association of Spokane for the sale of 1,000,000 apple trees. This is believed to be the largest single sale of apple trees ever consummated by any nursery.

The Arcadia company is developing and planting an immense tract of land near Spokane.

The Northern Pacific is building a large ice-house above town for use in icing refrigerator cars. The quantity of fruit shipped from Toppenish makes this action necessary. The company is also building a large warehouse adjoining for hay and grain storage. The rail road company is also building an ice plant at North Yakima.

Chamberlain's Cough Remedy Benefits a City Councilman at Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the City Council, at Kingston Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain another bottle." For sale by Clough's Drug Store.

My Eyes.

A word to the public.

I have been examined by over 50 occulists and opticians, and my eyes were never properly fitted until Dr. Henry E. Morris, of Tillamook, fitted them.

Yours respectfully,
C. R JOHNSON.

THE GOLDEN FLEECE.

Most Highly Prized of the Surviving Orders of Chivalry.

Of all the orders of mediaeval chivalry which have survived the shock of successive revolutions on the continent of Europe since the great cataclysm of 1789 that of the Golden Fleece is perhaps the most distinguished and the most highly coveted by personages of royal birth or of illustrious patrician lineage.

The badge of the order is a figure of a sheep in embossed gold suspended from a heavy chain of gold. The full robes consist of a long mantle of crimson velvet cut in the fashion of a sacerdotal cope, richly embroidered at the borders with emblematic devices of stars, half moons and fleeces of gold and lined with white satin, over a doublet and hose of crimson damask.

The full robes also comprise a "chaperon," or hood, with a long, flowing streamer of black satin, but this headgear has in modern times been generally dispensed with.

Originally the robes of the order, which was founded in 1429 by Philip the Good, duke of Burgundy, were of crimson cloth lined with white lamb's wool, and this circumstance has somewhat strengthened the theory that the Golden Fleece was instituted by Philip the Good in grateful recognition of the immense treasures which the Duke of Burgundy had acquired from the wool of the flocks reared on his vast estates in Flanders. Be it as it may, the woolen costume was changed in 1473 at a chapter held in Valenciennes for the more costly materials of velvet, taffeta, damask and golden embroidery.—London Telegraph.

FALSE MIRRORS.

Many Varieties Are Made For Special Business Purposes.

"It is not enough to make true mirrors," the dealer said. "If that were all, ours would be indeed a simple business.

"Dressmakers and milliners require mirrors of all sorts. They need, for example, a mirror that makes one look taller and thinner. When they dress a fat, short patron in one of their new hats or suits they lead her to this mirror, and she is so surprised and pleased with the change for the better in her looks that straight off she buys.

"For masseurs I make a mirror that, like a retouched photograph, hides blemishes, wrinkles, scars. The masseur takes the wrinkled face of some rich old woman, steams it, thumps it, pinches it and smacks it for an hour and then holds up to it the mirror that gives a blurred, blemish hiding reflection. The woman thinks her wrinkles are gone and is happy till she gets home to her own true mirror.

"Altogether I make some twenty varieties of false mirrors. Salesmen and saleswomen in millinery and dressmaking establishments can double and quadruple their business if they are quick and deft in their selection of the mirror that flatters each patron best."—Philadelphia Bulletin.

Housekeeping In Japan.

I never could regard housecleaning seriously in Japan, where the walls can be put aside by one hand, where there is no particular furniture to worry one and where even the matting can be laid and lifted without tacks or nails. But the Japanese housekeepers of my acquaintance rather resented my light attitude, assuring me, quite after the manner of housekeepers all over the world, that it is all very hard and requires much work—oh, very much work indeed. In order to justify myself to one housekeeper I drew a comparison of her own difficulties and those of an American woman, but the American picture seemed to her so terrible and she became so deeply sympathetic that I had to stop short to save her feelings.—Housekeeper.

First Man Dressmaker.

One day in 1730 a beautiful carriage appeared on the boulevard of Paris with an escutcheon in the shape of a pair of corsets and an open pair of scissors painted on the panel of each door. This was the coat of arms of Rhomberg, the first man who made a name as a woman's dressmaker. Rhomberg, who was the son of a Bavarian peasant from the neighborhood of Munich, owed his rapid success to his genius for concealing and remedying defects of figure. He left an annual income of 50,000 francs to his heirs.

Byron and His Title.

Professor Masson in the first published records of the ancient grammar school of Aberdeen recounts this school legend about the poet Byron: "It was said that on his coming to school the first morning after his accession to the peerage was known and on the calling out of his name in the catalogue no longer as 'Georgi Gordon Byron,' but as 'Georgi Baro de Byron,' he did not reply with the usual and expected 'adsum,' but, feeling the gaze of all his schoolfellows, burst into tears and ran out."

Result of Laziness.

"When Mark Twain was a boy at school in Hannibal," said a veteran Missourian, "the schoolmaster once set the class to writing a composition on 'The Result of Laziness.'

"Young Clemens at the end of half an hour handed in as his composition a blank slate."

Her Valuation.

"Elizabeth, has that man any expectations?"

"Fine, mamma."

"What do they consist of?"

"Me."

That which is seen at a distance is most respected.—Tacitus.

THE OCEAN LINER.

Safety Devices That Are Operated From the Bridge.

It is in its safety devices and the provision made to meet every possible accident that the ocean liner is perhaps most remarkable. All the machinery which may be set in motion in case of danger is centered on the bridge, and so perfectly has it been arranged that the entire vessel could be controlled if the necessity should arise by means of a series of levers and push buttons. About the walls of the wheelhouse are arranged curious looking indicators, much the same as one sees behind the desk of a great hotel. About them are hung a surprising variety of barometers, thermometers, thermostats, wind and rain gauges and other less familiar looking instruments. There are rows upon rows of buttons and levers on every hand, all highly polished and in the most perfect working order. The danger of fire at sea, for instance, is anticipated by a thermostat connected with the frame filled with little squares like the hotel indicator. There are thermometers in every part of the ship electrically connected with this box which are constantly on guard. If a fire should start in any part of the great ship the temperature would of course rise, and the fact would instantly be announced in the wheelhouse by the ringing of a bell, while a red light would flash at the same time in one of the squares of the indicator. The man at the wheel could tell at a glance the exact point of danger.—Francis Arnold Collins in St. Nicholas.

POTATOES IN FRANCE.

Parmentier's Wily Plan to Kill the Prejudice Against Them.

The way in which Parmentier created a demand for potatoes in France would have done credit to the wiliest of wily tradesmen. Nothing would at first induce the simple minded peasants to cultivate the popular tuber. They would not listen to lectures on its virtues nor accept seed potatoes free of cost for planting.

Parmentier therefore decided to get the better of their prejudice by artifice and with this object leased as much land as he could round Paris and planted it with potatoes. Just before the ripening of the crop he posted watchers round the fields and issued notices that all persons stealing potatoes would be severely punished, the crop being intended for the tables of the king and nobles.

Such delicacies, continued the notice, were too good for ignorant peasants, who would touch them at their peril. Of course watch was only kept during the day, and at night the fields were robbed right and left by the peasants, who were curious to taste the strange vegetable and jealous that it should be reserved for their betters.

As soon as they had tasted the succulent tubers the pilferers were only too anxious to plant as many as they could possibly purchase, the wily Parmentier's scheme thus succeeding beyond the most extravagant anticipations.

The Chinese Lily.

To raise the Chinese sacred lily in water remove the brown dried skin and all the hard callous at the base of the bulbs. Do not separate the bulbs, but take a sharp knife and score the main bulb as though to quarter it, but do not cut more than a quarter of an inch deep. Cut the offshoot also. This wastes the bulb, but develops the foliage growth. Arrange the bulbs in a glass bowl, steadying them with pebbles, bits of marble and shells; also put in broken charcoal to keep the water sweet. The water may be changed once or twice before they bloom. Place in a dark cupboard or closet for ten days until the roots are well started.

A President's Pipe.

General Jackson was a poor eater, and well for him that he was, or he would have often gone hungry on the days when large crowds came to the White House for a free lunch. It is related on one occasion the poor man was moved to thank the Almighty that after the crowd had gone there was a raw piece of steak in the ice chest off which he could make a dinner. There seems to be absolutely no foundation for the stories of Jackson being a hard drinker, for his physical condition forbade all excesses. He liked his toddy in company with his corncob pipe, but he was no lover of all kinds of intoxicants.—Home Magazine.

A King's Logic.

George IV. of England prided himself on lifting his hat to every one who saluted him in public, but once it was observed that he bowed to every one on the street till he came to a man who swept a crossing, whom he passed without notice. He explained the matter afterward, when points of etiquette were under discussion, by saying, "To salute a beggar without giving him something would be a mockery, and to stop for the purpose of bestowing sixpence would wear the semblance of ostentation in a prince."

The View of Experience.

"What I want," said the constituent, "is a nice, easy position."

"My friend," answered Senator Sorghum, "give up that idea. When an easy position is discovered so many people are after it that a man has to fight for hours a day to hold on to it."—Washington Star.

IF YOU WANT CASH

For Your Real Estate or Business

I CAN GET IT

No Matter What Your Property is Worth, or in What Town, City, State or Territory it is Located.

If I did not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today.

Why not put your property among the number that will be sold as a result of these "ads?"

I will not only be able to sell it—some time—but will be able to sell it quickly. I am a specialist in quick sales. I have the most complete and up to-date equipment. I have branch offices throughout the country and a field force of men to find buyers.

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it—or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that I have sold twice as many properties as I did the past year. But it will first be necessary for me to "list" more properties. I want to list YOURS and SELL it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail it to me today, I will tell you how and why I can quickly convert the property into cash, and will give you my complete plan,

Free of Charge

and terms for handling it. The information I will give you will be of great value to you, even if you should decide not to sell. You had better write today before you forget it.

If you want to buy any kind of a Farm, House or Business, in any part of the country, tell me your requirements. I will guarantee to fill them promptly and satisfactorily.

Why Suffer from Rheumatism?

Do you know that rheumatic pains can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It may not give you relief from pain, but will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by Clough's Drug Store.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.
