A set screw in the motor caught his sleeve and wound it round the shaft, and in doing so nearly wrenched Schofield's thumb off. Representative Beals, of Tillamook and Yamhill, in a bill introduced in the state legislature, asks an appropriation from the State of \$50,000 to be expended in deepening and improving the harbor in Tillamook Bay. The bill authorizes the appointment by the Governor of a commission of five persons, reliable residents of Tillamook county, who shall have charge of the work incidental to the expenditure of the appropriation that has been asked.

Roy Conder, son of ex-County Judge Conder, died somewhat suddenly at the home of his parents at Hebo on Monday from blood poisoning. Dr. Ross was sent for, but he had only gone part of the way when advised of the boy's death. It seems that the boy had a boil on his left arm, and it was from this that the blood poisoning occurred. He was 14

A large percentage of our business comes from regular customers who trade here year in and year out. They know our methods are right and that they will always be used as we would like to be were we the buyer instead of seller. Why not make this your regular trading place for drugs and medicines.

This will close all plays and what games until after the Lenten season, which begins on Ash Wednesday, the following day. The girls will render the comedy, entitled "The Fortune Teller, or Clairvoyant," a most humorous production; and the boys will give "The Nigger Boarding House," a raucous farce that will bring nothing but laughter for a straight hour.

**Resolution.**

We, the Ministerial Association of Tillamook, at our regular monthly meeting on Monday, Feb. 4th, resolved as follows:

"That it is the sense of the Ministerial Association of Tillamook that we are in hearty sympathy with all efforts put forth for the enforcement of the local option law of this county, and that we lend our support to all such efforts."

Geo. F. Zimmerman, secretary, and D. L. Schroder, committee.

**A New Lodge Organized.**

A new lodge of Knights of Pythias was instituted at Nehalem by Grand Chancellor M. P. Davis, of Union, Oregon, and about twenty members of the local lodge K. of P., of Tillamook. The boys from Tillamook went up to Nehalem last Thursday morning in four double rigs and two single ones. Mr. and Mrs. I. P. Allen went up in one of the single rigs and Mr. Sternberg in the other. Arriving at Balm the rigs were left at convenient places and the crowd was then taken down the river in a gasoline launch. Supper was served at the Kline Hotel and preparations were then made to give the Nehalemites the time of their lives. Twenty-two Nehalemites were shown through the mysteries of the Knights of Pythias and expressed their selves as well pleased with the initiatory ceremonies through which they passed. Supper was served a little past midnight and the balance of the work was then given. After all was over we again went to the hotel where we were served with a fine breakfast after which we started home. The Nehalem boys are certainly as hospitable a lot of boys as you will find any where in the world. They did all they could to make us feel at home and we in turn tried to leave a good impression on them.

The trip was a delightful one going up. Grand Chancellor Davis returned home with us and visited Marathon Lodge No. 89, of Tillamook. He stayed until Sunday morning, when he returned to Seaside with a Mr. Zeller who accompanied him from there.

The Nehalem Knights are requested to come down to Tillamook and give us a chance to reciprocate their hospitality.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure, not known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for testimonials.

The democratic mud slinging killed two Independent (?) newspapers and the Ocean Wave.

Tax collecting time will commence on the 15th. Penny up and don't squeal if it comes high.

Chapter III.—"If it hadn't been for the grafters, Tillamook City's water system would have cost \$10,000 less," is the statement of Mr. —

Someone last week stole the wood belonging to the United Brethren church. A man who will rob a church ought to be tarred and feathered. It would not surprise us to hear that it was a man who was too lazy to work and had been boot legging.

Tillamook County is o.k. Where is there another cheese factory in the state that received 3,745 480 pounds of milk for 1906, turned out a ton of cheese per day during the summer months, and for the 681 cows which supplied milk to this factory, gave an average of \$66.78 per cow?

Another travesty of justice in a murder case. Chester Thompson, the young man who shot Judge Emory, was found not guilty, the jury claiming that he was insane when he committed the awful deed. Anyone who commits murder can now work the insanity dodge. The jury system has many defects.

Representative Beals has introduced a bill asking the state legislature to appropriate \$50,000 to be expended in deepening and improving the harbor in Tillamook Bay. We hardly think that the bill will pass, but to help the good work along Mr. Beals might ask the legislature to pass a joint resolution to the national government asking it to appropriate sufficient money for the improvement of Tillamook bar.

Compared with other sections, all who reside in Tillamook ought to be thankful when they read of the blizzards, snow storms and intense cold in other sections of the country. True the rain and south west storms have been somewhat frequent, but these warm rain showers are only small affairs compared to the biting cold that is being experienced in Montana and other states.

We feel sorry that Rollie has not got over his bellyaching and continues to show his jealousy of the Headlight man gets a job of printing once in a while, so as to keep body and soul together, and so that we can pay our honest debts. It is simply jealousy on the part of Rollie which keeps his temper at boiling heat. There is one thing, the snap shot man is fond of work, abled bodied, and is not bumming on the government or anyone else for a living.

We have a copy of the bill to create Yamhill, Polk and Tillamook counties a judicial district, and it is as plain as the nose on a man's face that this bill, introduced by request, is for the purpose of legislating a democratic attorney into office with a salary of \$2,000 a year. Of course, we wouldn't like to accuse any of the untried attorneys of this city as wanting a seat at the political graft counter, for there is no necessity of creating another office, that of district attorney for the three counties at a salary of \$2,000 a year, to be appointed by the Governor. This is only another slick way for democrats to get into office. And it is said it is Judge McPadden, of Corvallis, who wants the job.

We want to enlighten the people of Tillamook, and especially republicans, in regard to the spasmodic mud slinging by certain citizens whenever they can get hold of and control a newspaper. It will be remembered that this mud slinging was commenced by those who started up the Independent on two occasions and who used the Ocean Wave and the Telephone Register. Now the Herald has become their organ. It is democrats for the most part who have written the mud slinging articles, and in proof of this it will be remembered that it is always republicans or republican officials, republicans, men, republican attorneys, those who were connected with the county Bank, who

have been repeatedly attacked. No one ever remembers a democrat or any members of the whiskey ring being attacked in the mud slinging articles. We leave these facts with our readers, especially with republicans to ponder over, not that we want to convey the impressions that all democrats are mud slingers. Far from it, for it appears to be known that it is but a few democrats who are responsible for it.

This is a "Bricktop" snap shop. What a big fuss some people did kick up about Sheriff Crenshaw using "Bricktop," the ex convict, in rounding up the violators of the law. It was a terrible thing, so they argued, to allow such a criminal to remain in the city. Briefly, let us discuss this. Admitted that "Bricktop" is an ex-convict and petty thief when under the influence of drink, what about the robbers who ran gambling games in this city and who robbed the farmers, boys and others who came to Tillamook City to trade? One gambler said of "Bricktop" that was a prince when he was losing money at the gambling table. But the point we want to impress upon the people of this county is this: For several years the gamblers carried on a system of wholesale robbery and paid city officials for protection, but did you ever hear one of the men who howled about "Bricktop" howl about the gamblers? We don't know much about "Bricktop," but it seems to us that he is not half as bad as the persons who robbed the people of this county at the gambling dives in this city.
