Another butter and cheese plant of Tillamook County has made its annual report, the business showing a dividend of 10 per cent to the stockholders. The amount of milk delivered at the creamery in 1906 was by far the largest ever received by it during a single year, thus proving the substantial growth of the industry and its increasing benefit to dairymen. The energy and enterprise shown by the promoters of this industry are all the more conspicuous because of the lack of railway transportation facilities to which the citizens of Tillamook County have long been entitled and of which they are still deprived.—Oregonian.

DEATH OF MRS. MAXWELL

Another Pioneer Woman of Tillamook Passes Away.

It is with much regret that we have to announce the death of Mrs. Maxwell, wife of ex-Senator J. W. Maxwell, which took place at her home near Tillamook City on Sunday morning. She had been in poor health for several months, but it was only about four days before her death that she was taken worse. Everything was done for her that could be by loving relatives and friends until death claimed her. Mrs. Maxwell was a woman who was loved and respected by all who knew her, and was a good wife and affectionate mother.

The funeral service was conducted by Rev. D. L. Schrode, pastor of the M.E. church on Monday afternoon, which was attended by a large number of relatives and friends, who followed the deceased to the Oddfellows' cemetery, thus showing their last token of respect and sympathy for the deceased and the bereaved family. The Fairview Grange, of which deceased was a member, had charge of the funeral, the service being in the Grange hall.

Mrs. Esther Ann Maxwell was born in Ohio on the 13th March, 1845, and was a daughter of William L. and Mary Ann Graham. She was the youngest of a family of ten children. She was married in Illinois to Mr. John W. Maxwell and then went to Missouri and from there to Nebraska. In 1880 they crossed the plains with ox team and remained in Eastern Oregon two winters. They stopped at Hillsboro for a short time, and came to Tillamook County in the fall of 1883, where they settled near Netarts. To this union were born nine children, of whom five, with her husband, survive her viz., William Mortian, Riley and Robert Marshall Maxwell and Mrs. Bertina Jane Carlson, of Tillamook, and Mrs. Mary Elnor Jones, of Silver City, New Mexico.

THE TAX ROLL.

The Valuation in School Districts and Amount of Special Taxes.

We give below a list of the valuation of property in school districts in Tillamook county, which may be of interest to some of our readers, especially for future reference, together with amounts the special school taxes will raise. It will be seen that the present tax roll is an increase over that of last year, and totals up to \$110,000 82.

SPECIAL NOTICE.

We have just received advice that our big stock of Spring Wash Dress Goods, Wool Dress Goods, Laces, Embroideries, Ribbons, Calicos, Muslins, Knit Underwear, Hosiery, Lace Curtains, etc., are laying in Astoria and will be shipped on next trip of the steamer Elmore (about next Saturday).

During Stock taking we collected several hundred Remnants of Woolen Wash Dress Goods that are now on the Bargain Tables at about Half Price.

All Odd and Ends throughout the entire store are now selling at a Big Sacrifice in Prices.

Haltom's Dept. Store.

rush orders came to have abstracts prepared at once of the title to all the property which the railway company owns in this vicinity, including the holdings of the old South Coast road, which was acquired by the A. & C. R. some years ago.

It appears that the original abstracts which were in the hands of Mr. Hammond were destroyed during the San Francisco fire. Several men were immediately put to work, and the abstracts were prepared and forwarded to New York in the shortest possible time.

Again it is asserted that a few weeks ago a contract was made between the Hammond Lumber Company and the railway by which the latter agrees to haul the lumber company's logs to its mill at a specified rate for a term of years. These things, coupled with the fact that persons who are closely connected with either the Hammond or Hill interests have been quietly purchasing real estate in this vicinity for some weeks, have caused a belief, which is considered a certainty, that the reported sale has been consummated.

This belief is augmented by President Hill's oft-repeated assertion that the lumber trade is one of the greatest classes of business, which the railroads are after, and the knowledge that by purchasing the Astoria road and extending it to Yaquina he will make directly tributary to his roads the output of the most extensive timber belt in Oregon.—Oregonian.

City. Valuation. Rate. Tax. \$863,105.00. 10 mills. \$ 8,631.05

Total amount of County and State Tax 87,384.47

Total amount of tax on this roll \$110,000 82

Out of the ten mill levy for Tillamook City, which will raise, it will be seen, \$3,651.05, half that amount will go to the Tillamook Water Commission to help defray the expenses of the water system of this city. The Water Commission wanted 8 mills, but the city council decided to give it 5 mills.

THE HAMMOND ROAD.

Will Commence Work in Spring—Reported that Hill has Bought the A. & C. Railroad.

Work on the extension of the railway to Tillamook is expected to begin this Summer, and, as the coast route has been selected, its construction will afford the most attractive scenic line on the Coast, as well as open up and make directly tributary to Astoria and Portland a remarkably rich timber and agricultural district.

During the past few weeks, the Hammond interests, which own about four miles of new-front property in the vicinity of New Astoria, have purchased 200 acres of land adjoining this on the south and abutting on the Fort Stevens military reservation. For this they paid \$300 per acre. It is to be used as a yard for the sawmill which the company is to erect this Summer, a plant that will be one of the largest and best equipped in the Northwest, and will employ over 1000 men. The logs to supply this mill are to be obtained from the company's vast timber holdings in the Necanicum River district, extending as far south as Tillamook County, in the section that is to be tapped by the extension of the Astoria railroad.

Not Officially Confirmed.
While the sale of the Astoria & Columbia River Railroad to the Hill interests has not been confirmed, there are several things which tend to substantiate the report. It is known that a few weeks before the announcement of the sale,
