## THE WAY TO BUY GOOD SHOES AND OXFORDS: Go to a Store that Sells the Good Kind.

Don't buy footwear on outward appearance. It's the inwards that counts—the same as in a watch. A Shoe or an Oxford may look good—and, yet be paper soled, porous leathery, piece heeled and weakly stitched. There's a world of deceit practiced in the manufacture of footwear. Shoe and Oxford buying is a dangerous pitfall to the unexperienced or unwary. To buy safely, 'tis wise to examine them knowingly.

McKillop, are eight cases filed in the circuit court to quiet title to certain lands, H. T. Botts being the attorney for the plaintiff in each case.

Tillamook county may well rejoice over a court decision that knocks out its toll roads, or road toll, rather. The people may have to pay a little more taxes to keep up the roads, but they will gain, indirectly, a good many times this amount. Toll roads are a relic, not actually of barbarism, but of primitive times that should have passed ere this is such a naturally resourceful county as Tillamook, that is just entering on a new era of development.—Oregon Journal.

Some few weeks ago Mr. Albert Mason asked his class in the public school how many of the girls could make bread, and out of about 20 only two could make the staff of life. He promised them prizes for the best bread makers and Monday was the date set for the girls to bring in their bread to be examined, with the result that Lizzie Luthi obtained the first prize, Daisy Goodspeed second, and Alice Farley third. Now most of his pupils know how to make bread, and bread as good as their mothers make.

Mr. F. G. Eby, who is arranging with the settlers for a right of way for the Astoria & Columbia River Railroad, was out fishing last week and lost a charm from his watch string on the banks of Wilson river, and much to his surprise on his return to town Henry McKindley told him his dog could find it. Mr. Eby asked McKinley to go fishing with him and to take the dog, and it was not long after they reached the spot where Mr. Eby had been fishing when the dog brought the charm in its mouth to McKinley.

Peter Berns, son of Mr. and Mrs. Frank Berns, who was drowned last Thursday in Wilson river while rafting logs at the Hadley boom, was buried on Saturday, the religious service being in the Catholic church, conducted by Father J. J. Burri, which was attended by a large number of friends. The remains were buried in the Catholic cemetery. Berns was 23 years and 10 months old, and was a young man well respected by all who knew him, and the parents and relatives have the sympathy of the entire community in their bereavement.

At the adjourned meeting of the city council Monday evening, owing to the absence of Councilmen King and Allen, no action was taken in regard to appointing a night watchman. From what we can learn there are three councilmen opposed to appointing Huntsinger and none in favor of Geo. F. Zimmerman. It seems that some of the councilmen are not well pleased with Huntsinger, who admitted to them that he had cared for some drunks and did not bring them be-

fore the recorder, but who, after two months inoffice, suddenly pounced down upon the kids and bicyclists.

Al. Wilson, who has been failing in health for several months, died suddenly on Sunday evening in Easter's barn. He had returned from a trip up the Wilson river and was putting the horses in their stalls when he dropped dead. Frank Easter and some boys in the stable carried the body into the office and sent for Dr. I. M. Smith, who, upon his arrival, pronounced Wilson dead. Coroner C. E. Reynolds was notified, but he did not think it advisable to hold an inquest. Al. Wilson was an old resident of Tillamook county. He was a contractor in former years and was one of the contractors of the Wilson road. Mr. A. P. Wilson, formerly of this city, but now of Grass Valley, Cal., is a brother of the deceased. For several years Wilson has been acting in the capacity of driver at Easter & Son's livery barn. The remains were buried on Tuesday in the Oddfellows' cemetery.
