C. E. Lytle, president of the Pacific Railway & Navigation Co., spent a part of last week in Seaside, where he made known the intention of the builders of the road to enter Seaside by the branch of the line from Jewell on the Nehalem River. Seaside is much encouraged over the prospects of this railroad and the local paper announces the new road will give a road to Portland from that point which will be 30 miles shorter than by the A. & C.—Oregonian.

Dr. I. H. Smith, the county physician, informs us that he has a new record book to enter births, marriages, deaths and all cases of contagious diseases. Sheriff Crenshaw collected taxes, up to the 15th, amounting to $91,911.62 out of about $110,000 on the tax roll, which will pay off a large proportion of the outstanding warrants which have been drawing six per cent interest. In cases where no taxes have been paid by the first Monday in April, taxes will become delinquent, and the statute requires, from that date, a charge of ten per cent penalty and an interest charge of one per cent per month on the tax until it shall be paid. In balancing up his accounts the sheriff found that an error of 2c. had been made, but after discovering it, gave the correct figures for publication this morning.

John T. McNamara pleaded guilty at Hillsboro on Monday to simple larceny in a dwelling and was sentenced to one year in the penitentiary by Judge T. A. McBride The original indictment was for burglary and the defendant first pleaded not guilty. Owing to the fact that McNamara was under the influence of liquor when he entered the Tualatin Hotel, and robbed the room, his attorneys made a fight on the question of intent. District Attorney Hedges agreed to reduce the charge of larceny if the defendant would plead guilty, and the compromise was effected.

Mr. McFee came to Oregon in 1899 from Perry, Iowa, and had lived in Polk and Tillamook counties continuously since that time. His wife died in Iowa many years ago. A son, Plato McFee, was killed by the accidental discharge of a gun about one year ago. The two surviving children are Lanada McFee, of Nehalem, and Mrs. George Cobb, of Black Rock. Mr. McFee was a quiet, inoffensive citizen and had many friends.—Polk County Observer.

General Manager C. E. Lytle, of the Pacific Railway & Navigation Company, has chartered the vessel Kilburn, to leave San Francisco in April or May with one hundred tons of bridge iron for bridge construction at Tillamook. The entire cargo will be used on the first twenty miles out of Tillamook, and this will be the first time in the history of Tillamook that a railroad company has sent in a vessel with an individual cargo. The iron and steel is furnished by the Pacific Hardware Company, of the quake city. The vessel is now on the California coast run. It is not improbable that the P. R. & N. will next year have a steamer running into Tillamook harbor, on a schedule, carrying men and material into the coast terminal.—Hillsboro Argus.

STATE BANK EXAMINER.

John Steele, of Portland, Selected by the Commission.

SALEM, Ore., March 20.—James Steele, of Portland, has been appointed State Bank Examiner. He is a brother of State Treasurer Steele and was one of the founders of the First National Bank at Portland in 1868, and later was connected with the Merchants' National Bank of that city. Nearly his entire life has been spent in the banking business. The appointment was made at the meeting of Governor Chamberlain, Secretary of State Benson and State Treasurer Steele, comprising the Board of Bank Commissioners. The position carries with it an an annual salary of $2000 and traveling expenses. The inspection occurs at any time deemed advisable, and the trips are not announced in advance. —Oregonian.

Mr. Steele's appointment takes effect May 25th next He has supervision over all banks in the state except National Banks. This will give the customers of State Banks practically the same protection as that enjoyed by the customers of National Banks, while at the same time the State Banks have the privilege of accepting real estate security, which is denied National Banks, and which is no small factor in the usefulness of a country bank.
