 It seems that fate is against Peter Jacobs. He lost his position, household goods and home in the fire which destroyed Holden & Ziemer's cheese factory at Fairview, and there are those who think the boys should circulate a subscription so as to give him a new start.  
 The young people of the Methodist church gave a very pleasant farewell dinner to Miss Inez Bozarth, who goes to Bay City, soon, at the home of Mr. and Mrs. H. D. Wylie in East Eugene on Tuesday evening. The occasion was a very happy one and Miss Bozarth received a splendid chafing dish as a token of appreciation of her services as an earnest worker in the church and Epworth league.—Eugene Register.

 Like most other banks, we do not desire to have business transactions with people without a proper sense of business honor. But to any man or woman who is anxious to save a few dollars, to pay his debts and get along in the world, we extend a hearty welcome.—Tillamook County Bank.  
 The school board succeeded in keeping Prof. W. R. Rutherford principal of the public school, after several attempts to do so, who had been offered and had accepted the position of principal of the Eucla high. The teachers engaged are Mr. and Mrs. Rutherford, Miss M. Lister, Mrs. Albert Mason and Miss V. Walker.  
 After a long spell of dry, fine weather, the rain showers this week were greatly appreciated, for it was beginning to look as if the hay crop would be short if the dry weather continued. As the ground was thoroughly soaked this week there is no doubt about Tillamook county having another bumper hay crop this year.  
 On May 23rd, at the residence of the groom's parents, occurred one of the prettiest home weddings of the season, when Miss Maudie Brooks and Mr. Walter Vaughn were united in the bonds of matrimony by Rev.  Word was received in this city Wednesday that a schooner was off the bar flying signals of distress, which was later thought to be the gasoline schooner Evie. As the tide was out when word was received, Captain Schrader could not leave here until the afternoon to go to her assistance.  Peterson & Dunbar's Vaudeville Show commenced a week's engagement at the Opera house on Tuesday, the house being packed with an audience that appeared thoroughly well pleased with the evening's amusement. The first thing on the program was a laughable farce, which was well rendered, followed by dancing and singing, a cornet solo, acrobatic performance and illustrated songs, all of which was interspersed with music. As there will be a fresh program every night the company will give good entertainments during their stay in Tillamook, which will conclude next Monday evening. A voting contest was started on Tuesday, to be continued every evening, and the young lady receiving the largest number of votes will be presented with a gold watch and chain. There will be a routine on Saturday afternoon, and following the performance on Saturday night a dance will be given.

**SUBMIT RIGHT OF WAY CASE**  
**Judge Burnett to Decide Fight Over Garibaldi Survey.**  
 Further testimony was taken on Tuesday in the law offices of Snow & McCamant, at Portland, before Judge Burnett on the right of way fight between the Astoria & Columbia River Railroad and the Pacific Railway & Navigation Company over points of conflict in the surveys of the two roads near Garibaldi. The hearing was held in Portland by stipulation, and after evidence was introduced by the Lytle road, the case was submitted and briefs will be filed before July 5, when Judge Burnett will give his decision.  
 The case hinges on the good faith of the two roads, and each side seeks to establish this point. The Lytle road seems to have the advantage, as it is already actively engaged in construction, with a monthly payroll of from \$20,000 to \$30,000. In addition, further activity is to be begun on the Tillamook end this month, when a shipment of construction materials, including a train of construction cars and a locomotive, will be sent forward. The A. & C. has so far made surveys at the points in question, but has not started actual work as yet.  
 The principal testimony taken on Tuesday was that of Chief Engineer Davis, of the P. R. & N. Co., who could not testify when the case was up before on account of illness. The disputed territory offers the best route between the Tillamook country and the Nehalem Valley.

 In all directions Chili is traversed by a chain of volcanoes. Chili would be a great training ground before a tackle with a strenuous antagonist.

**FAIRVIEW.**  
 Well, the rain has surely moistened the webs of the Tillamookers who were so anxious for rain.  
 Myron Trowbridge and Jack Rupp went up Wilson river to repair the bridge across Jordan creek.  
 Oscar Tittle was injured somewhat seriously in the mountains by the top of an old dead tree falling and hitting him on the hip. He was working in Ed. Donaldson's logging camp. He is getting along nicely, although it was a narrow escape for him.  
 Mrs. Vaughn and sister and daughter, her sister being here visiting her, whom she had not seen for 40 years, spent the day at Henry Olds with others of the family, and Wednesday they spent the day with Mr. George Randall in town.  
 San Francisco finds that grafters are harder to handle than the results of an earthquake and conflagration. It should remember that Tweed was put in stripes at last, and that perseverance pays.  
 Seismographic instruments have become so sensitive that they locate earthquakes of which no other trace is ever found. Mankind would be glad if Dame Nature will stick to this variety.  
 An actress who has married a man much her junior is said to have reduced marriage to a philosophy. A wife who undertakes to bring up a husband needs it.  
 If Providence will give them another year or two of good crops the people of Oklahoma will not care whether they have a new constitution or not.
