Watch Tillamook Grow! Rab, rah!
The honking machine continues to blow its own horn every time it goes honking. Hoak!

It is really too bad that the calamity howlers can't howl down butter fat from 35c. to 10c. per pound.
To put the Wilson river road in condition suitable for automobiles will take a big wad, so it is up to those who wish to improve the road for that purpose to help pay the expense.

Mayor Schmitz, of San Francisco, was sentenced to five years in the penitentiary on Monday for being a hoodler. He has not got more than he deserved. But there are others who ought to keep him company, for in this effort to clean out the rottenness in large cities, there are others who ought to be caught in the muck rake.

We cannot add much to what we said last week about Mrs. Ella R. Hays in the obituary notice, other than to say that another good woman has gone to her rest, respected by all who knew her and sadly mourned by her children and relatives. Left a widow with a family to care for, her aim and ambition was to give her children a good education and fit them for the duties of life, and in this she had partly succeeded when the grim reaper severed her from her children. It is women like Mrs. Hays who make the lives of others happier, and the hallowed ties which bound her to her children are traits of character we all admire in a good Christian mother.

This is going to be the banner year for dairymen in Tillamook, for never before in the history of the county did butter fat range so high and for so long a time. The average price for the year will cap the climax, for when butter fat is about 34c. a pound in the spring and summer months, it is plain there is big money in dairymen in Tillamook county. It may not please some disgruntled individuals who are not engaged in dairying, and who have become calamity howlers at a time when the dairymen of Tillamook county are unusually prosperous and saving money as well. We think the dairymen ought to go down on their marrow bones and thank heaven that it is a republican, and not a democratic administration, which brought about the prosperity to be seen every where.

What a contrast. We recall the fact that some years ago that men who went into the slab wood business in Portland went broke, but we do not remember ever hearing the newspapers express a word of pity for the poor devils who tackled the slab wood business and made a failure of it, nor for the mill men who lost by these failures. Then followed a period in which the mill men contracted with M. C. Banfield to take the slabs of the saw mills, and he was the first person in Portland to make a success of the business, and which assured the mill men pay for the slabs and relieved them of a good deal of trouble and worry. Now the Portland newspapers picture Mr. Banfield as a Slab Wood King, simply because he is making a success of the business for himself and the mill men. By way of diversion and justice, it would be well for the Portland newspapers to dwell somewhat upon the push, the perseverance, the difficulties, the losses and the large amount of money that had to be invested before the slab wood business in Portland was made a success of. It took the Portland newspapers years of toil to bring them up to their present perfection and success, so if there are slab wood kings in that city, there must also be newspaper kings as well, who adopted the same business principles in making a success of their businesses as the slab wood people did.

It used to be that Nehalem did not get a square deal in the matter of road work and had just cause of complaint, and at most every election Nehalem was made a political football, the untried office seekers making promises to the voters, so much so that the vote at Nehalem became an unknown quantity as far as party lines were concerned. At the last election the republican office seekers promised to give Nehalem a square deal in regard to road improvements. That was all the Nehalemites wanted and for a number of years had a right to demand. We wish to say that Nehalem, like all other parts of the county, is getting a square deal in road work, and if the same system is adhered to the office seekers next year will be at a disadvantage, for they will not be able to use the old stereotyped argument that one part of the county was discriminated against the other in road work. The Nehalemites are getting what is justly due them, and which the republicans promised them, so it is pleasing to note, after years of pulling in different directions, that the Nehalemites are all pulling together for good roads, and as the north part of the county is destined to become a most important part of the county, we expect to see the Nehalem country a bee hive of industry, and all honor to the settlers up there who have had the grit and perseverance to stay with it, building roads and improving the country generally. The Nehalemites were certainly entitled to a square deal in road work, for it used to be that their horseless carriages could only traverse the rivers when they desired to go calling. As to connecting Clatsop county with a wagon road, we predict that in a few years that not only will the inside road be built, but the Narcarney road will be built also, for Tillamook beaches are going to become immensely attractive, and to help make this county a big summer resort there must be good roads leading to all the beaches and other places of interest.

The Doctor Away from Home when Most Needed.
People are often very much disappointed to find that their family physician is away from home when they most need services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Clough's Drug Store.

NETARTS.

Cliff Taylor and John Johnson came down from the logging camp on Wilson river to spend the fourth on the beach. Ira Latimer and wife, drove over from Tillamook Sunday. L. A. Noah and Steve Noah, of Sanchez, West Virg., were camping on the beach for several days. Mrs. Florence Hardman, of Tillamook, and Miss Lottie Hardman, of Hoquiam, Wash., were on the beach Sunday. Alvin Johnson, Willard Johnson, Lem Johnson and their families and Russ Johnson, all of South Prairie, spent the fourth at Netarts.

Dryden Baker and family and Mrs. Frazer were camping at Maxwell's for several days.

Charles Bradley, of Hillsboro, brought in a load of campers the last of the week. Mr. and Mrs. Ralph Ackley spent Sunday at Netarts visiting with Mrs. Ackley's people, Mr. Geo. W. Phelps.

W. H. Easter's family are camping on the beach. The Shelton Hackers parties left on Monday morning for Bay City, Nehalem and other points on the beach.

Mr. H. T. Patrick and Miss Harriette Higgins, of Salem, are camping at Happy Camp.

C. W. Talmage, of Tillamook, spent Sunday at Netarts enjoying himself. A. W. Phelps, of Long Prairie, spent the fourth at Netart, visiting with his brother, Geo. W. Phelps.

HEMLOCK.

Everything is lovely around here, for we hear the hum of the mower. Mr. Wallace's family have the measles. We are sorry to hear of Mrs. Brown, of Beaver, being worse again.

There is quite a few campers passing on their way to the beach. A. Kinnaman had the misfortune to lose a young mare last week. Orrin Wallace is home on a visit from Dolph.

C. Blanchard brought out a new mower from town last week. M. Woods, of Pleasant Valley, was out to see Mr. Beach, Saturday evening. It seems as though cheesemakers like to get together and talk of by-gone days.

Maggie Creecy, who has been staying with Mrs. Beach, has returned home. It seems as though some of the young men of Tillamook went to Cloverdale quite happy. It is too bad that young men have no respect for themselves. They ought to do for others.

Henry Ely lost a fine cow last week. A. Kinnaman and wife visited their children north of town the fourth.

We people of Hemlock did not have to leave home the fourth, as we held a picnic in Wallace's Grove and drank our own coffee and lemonade.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. CHENEY & CO., Toledo, O. TIMBER LAND, ACT JUNE 3, 1878--NOTICE FOR PUBLICATION. United States Land Office, Portland, Ore., April 13th, 1907. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An Act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892. ALGERSON H. TINGLEY, Of Portland, County of Multnomah, State of Oregon, has this day filed in this office his sworn statement No. 7466, for the purchase of the West one half of the Northeast one quarter and lot numbered one (W 1/2 of Ne 1/4 and lot 1), of Sec. 24, in Twp. No. 18, Range No. 9 west, W.M. and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver, at Portland, Oregon, on Wednesday, the 18th day of September, 1907. He names as witnesses: Samuel J. Smith, of Tillamook, Oregon; Toby J. Smith, of Tillamook, Oregon; Wesley Rush, of Tillamook, Oregon; Chas. M. Adkins, of Tillamook, Oregon. When we Buy Pianos

we investigate closely the factory asking us for an order. We make it a point to always find out first, whether said factory has ample capital to buy materials and labor on a big enough scale to make their product economical to produce. Second, we discover the grade said make of piano belongs in, and we see to it that said factory doesn't cheapen their piano in any way without cutting the price. Third, we then contract for enough instruments of said make to obtain their very lowest rock-bottom price by car loads, (for we never buy pianos except by car load).

When we Ship Pianos

we time our shipments from the various factories so as to have several car loads on the way at one time, making it more convenient for the railroad companies. Then we route our shipments over lines of roads giving us quickest service, and because we are the heaviest shippers of pianos on the Pacific Coast we get the very lowest freight rates musical instruments are handled for.

When we Sell Pianos

we pass on the benefits we secure from heavy buying and heavy shipping to those who buy from us. We are content to see our sales increasing so heavily year by year, and a smaller profit on each instrument sold pays us in the end from the larger number of customers we secure by being liberal.

Look over the assorted summer stock of pianos we are shipping to Tillamook. Many different makes will be shown. Easy terms if wanted.
