How many months in the year can the Wilson River road be used for auto-

As there is trouble in getting wood for the court house, County Clerk Lamb has made the suggestion that every fellow who applies for a marriage license be made to furnish two cords of wood. That is a good idea, provided George is allowed to spark the girl while the fellow is out in the woods sawing his Ed Smith two cords of spruce limbs.

The county court is figuring upon im proving the road from Three Rivers to Dolph next year, and we certainly hope it is still further figuring upon making another improvement, for up-to-date another improvement, for up to date roads and antiquated toll gates don't, in our judgment, look very good or in-viting to home seekers. Cut out the toll viting to home seekers. Cut out the toll S. M. Batterson gate, too, gentlemen, so as to make the J. L. Houghton. improvement complete.

\* \* \* It is a good thing to have an annual Tillamook County Fair, to display the county's products, but it should not stop there, for Tillamook needs to spread out. And to do so we would suggest that Tillamook have a county exhibit at the state fair this year. This is a move in the right direction and the best kind of advertising for the county. I: would do more good than a lot of bum write-ups by those who come into the county now they see an opening to milk the people.

The editor was with a lively crowd which went to Netarts Saturday evening, which made the woods echo. It was bo bad, however, that the crowd which Geo Ludtke's team followed did not know one road from the other and should get lost in the woods. Wasn't hea peach of a driver, girls? Why, if the crowd which the editor had gone over with had known it they would certainly have serenaded the driver when he drove into camp in the small hours of the morning. What a peach of a green driver ?

There are those who think we did not use good judgment in recommending that the roads to the beaches ought to be fixed first. In all due respect to those who contend that one of the main roads into the county ought to be fixed first, for heaven's sake don't bring a lot of people into the county and then force that would be county and then force that would be compared to the county and then force that would be compared to the county and then force that would be compared to the county and then force that would be compared to the county and then force that would be considered to the county and then force that would be considered to the county and the county and the county and the county are considered to the county are considered to the county and the county are considered to the county are conside them to bump-the bumbs over roads like that going to Netarts, for that is Work in enough to make his Satanic majesty swear that he would never return to the county after traveling over it. Another thing, as charity commences at home, it looked to us that it was only right to study the comforts and conveniences of our own settlers first, who have to foot the bill. Were we right or wrong is our ideas that the roads to be beaches should be improved next year?

\* \* \* Amongst the business men there is a strong sentiment in favor of the county lending a helping hand in the proposition to build an automobile road into J. J. Rupp, delivering 90 yards Tillamook county. There is good business sense in doing so, for it will not only mean better roads for the settlers, but it will attract a rich class of tourists wm. Ryan, road work into the county who will invest and leave Carl W. Stanley, pund into the county who will invest and leave a large amount of money here. Now is the time to make preparations for the summer travel if Tillamook county is to become the favorite summer resort of the Pacific Northwest. But it is going to take money, and lots of it, before this can be accomplished, and the least the county can do is to improve one main Glass & Prudhomme. road into the county and all roads lead. A. No one ought to object to that if they will only stop to consider what a great benefit it is going to be to the county in a fit it is going to be to the county in a large of the county in a larg for the railroad, but there were those w ho stood back, would not subscribe a cent and who said the railroad would not help the county. Cholera and Diarrhoea Remedy Cured Him. Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles Igot caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have mitten the above through simple gratitude and I shall always speak a good word for this remedy.—SAM. H. Gwis, Concord, Ga. For sale by Clough's Drug Store.

With such an editorial policy of par tiality and unfairness, the wonder is that the paper continues to maintain a respectable circulation among fair minded persons.

As long as the editorial management is in the hands of a man who fails to im. partially investigate such questions of great public import, and treat them fairly in its editorial columns, it can hardly expect a general support from well informed and intelligent citizens Yours for right and a square deal for all, CHAS.
