Should Avoid It.

to All the Ancient Writings of the Egyptians.

ere is a slab of black stone in the tish museum which if you could lk away with it and establish your m as the owner you could sell any for a quarter of a million and find a dozen money kings in England America ready to buy it.

here is nothing very striking about stone. It might be a piece of k marble with some peculiar hierophics upon it. But it is just these glyphics which make it so valuabecause they are the key to all ancient writings of the Egyptians, without this stone, called the Rostone, we should be unable to the Egyptian writings which have it. This is largely due to a lack of early training or to the fact that somediscovered from time to time. he French tourists found the Rotimes these people have been reared stone in Egypt and transported

COMMON SENSE Leads most intelligent people to use only meetidines of known composition. There-fore it is that Dr. Pierce's medicines, the makered which print every lagredient entering has them upon the bottle wrap-pers and attry its correctness under oath, are daily graving in favor. The com-position of Dl. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investiga-tion turned fully upon his formule, being condent that the better the composition of these medicines is known the more will their great curative merits be recor-nized. Being wholly made of the active medicinal principles extracted from na-tive forest roots, by exact processes really dried. And you know it is a tive forest roots, by exact processes long time since they were alive. It original with Dr. Plerce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the stead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either al-coholic beverages or habit - forming drugs. Examine the formula on their bottle wranners. The same as sworn to by bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great, blood-purifier, stomach tonic and bowel regulator—the medicine which, while not

place on the paper are as clear as day-light. That is why we keep all of our prints in boxes that just fit them so that they must be lifted out squarely with no chance of their being dragged across the one below. It seems like a trifle. But it is just such trifles that make or mar the sale of a really fine print worth thousands of dollars."--New York Press.

pus of the oligocene; Anchitherium of the lower mlocene; Parahlppus, Protohippus and Pliohippus of the middle and upper mlocene, and finally Equus of the pliocene and the quaternary from which the modern horse directly descends. Hipparlon and Hippidium represented ancient side branches that died without descendants.

More Laughter, Less Suicides.

The physiological benefits of laughter cannot be overestimated. It shakes up the diaphragm, sets the pulses beating to a lively measure, stimulates the blood corpuscles, enlivens the brain and sometimes produces dislocation of the jaw when indulged in too heartily by a man with a large mouth. Used with discretion, laughter is as inspiring as a sea breeze, as refreshing as an August shower. Its moral effect is beyond computation. It has killed more ridiculous superstitions by its rollicking roars of unbelief than any other agency. What can be more de-risive than a laugh? The man who laughs never kills himself .- Exchange.

Living Up to His Name. A teacher in a mission school in Bos ton had among her pupils a colored boy named Ralph Waldo Emerson Longfellow. As he was absent one Sunday, she asked the class if any one knew the reason for his absence. "I reckon I do," said one small, seri

ous looking boy. "What is the reason, Johnnie?" "I guess he's home writing poetry," responded the boy, with a delighted chuckle .- Youth's Companion.

That's What Makes Him Mad. "Why are you always quarreling with your wife?" "She is always arguing with me." "But you need not get angry; just explain to her in a calm, gentle tone of voice wherein she is wrong." "But she is never wrong."-Houston Post.
