### EASY TO MIX THIS.

Prepare it at Home by Shaking Ingredients Well in a Bottle.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of headache or kidney or bladder derangement, in the following simple prescription, if taken before the stage of Bright's disease: Fluid Extract Dandelion, one half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

### Astray Notice.

### Tillamook Mill and Electric Light Plant Destroyed by Fire.

Last Sunday morning about 9 o'clock the people of Tillamook City were startled by the alarm of the fire bell. Rushing to the scene of the fire they saw the Tillamook Lumber Company's mill all aflame. It was evident from the start that the plant could not be saved, and so the attention of the fire department, which had responded promptly, and those of the citizens who were minded to lend their assistance were directed toward saving the surrounding property. This for a time was seriously endangered owing to the fierceness of the fire from the mill. At one time the pressure from the water mains seemed to be very low and the cause was found to be in a pipe that led from the hydrant opposite the mill to the boiler room that had been broken off and was letting the water escape. Chief Crenshaw discovered the fault and had this connection shut off and the water pressure was regained full force. Had this happened earlier in the fire it is probable that several more buildings would have burned despite the faithful efforts of the fire department.

How the fire originated seems to be a mystery. The night-watchman, Mr. Gray, had gone home at his usual time, a little after 6 o'clock in the morning and no sign of a fire was noticed at that time and in less than three hours and a half the mill was burnt down. Mr. Gray and the city nightwatch, Mr. Zimmerman had put out fires in the mill twice before, that would have burned the mill down had their been five minutes start. As the mill was quite old, a great deal of saw dust had accumulated under the mill, and a fire originating in it might smoulder for several days without being noticed.

The Tillamook Lumber Company has had a varied existence. It was originally built by Smith & Barker and then passed into the hands of L. Crenshaw, and finally into the hands of Whitehouse & Beals, the present owners. Mr. Beals has been a member of the firm about two years.

It is hard to estimate the loss to Tillamook City caused by the mill burning at this time. Building operations were extensively planned over the entire city, and while the material can be supplied from the Hobsonville and Yellow Fir mills, the distance of these mills from the city will undoubtedly cause some delay in getting material. The Tillamook Lumber Company had been doing a fine business the past two years and had a nice contract ahead of them, and the fire makes it a serious loss to them. Their loss will exceed \$20,000 and is only partially covered by insurance in the sum of \$5000. That their loss is greater by not being able to fill their railroad contract and losing their electric light patronage is readily seen.

Tillamook City is now in total darkness all the street lights being out until the electric light plant can be rebuilt. The citizens have to resort to the use of the old coal lamps.

Quite a number of men will be thrown out of employment by the burning of the mill but it is hoped that the mill will be rebuilt at once and that all these men will be employed in the rebuilding operations. Tillamook City can ill-afford to lose an institution of such importance and it would not be amiss if the citizens came to the front with a good liberal bonus to help re establish the Tillamook Lumber Company again.

### Lyda's Sawmill Ruined by Fire.

FOREST GROVE, Oct. 14—W. H. Lyda's sawmill, one of the best equipped plants in the state, located four miles northeast of here, was completely destroyed by fire last night. It was valued at about \$10,000, with \$3,000 insurance. There was no fire at the mill yesterday during the day, and the fire did not start until about 10 o'clock in the night, so the owner is certain that the mill was set on fire. This is the third sawmill Mr. Lyda has lost by fire the past eight years. Three years ago on Gale's Creek, 11 miles northwest of here, he had another one destroyed, together with a large amount of lumber, neither of which were insured.

Frank Rolston, the engineer at the mill says he burned the fire all out and wet down around the boiler and engine-room Saturday night and left no fire there. No lumber was destroyed.

There is some talk of Hemlock having school as soon as the directors can get a teacher.

### Explosion Lays Village in Ruins.

PONTANET, Ind., Oct. 15.—By the explosion of the Dupont powder works today between 25 and 50 persons were killed, 600 injured, and Pontanet, a city of 1000 people were wiped out. Where stood a thriving and busy town this morning, tonight there is ruin and scattered wreckage. The dead and more seriously injured have been taken away. Five hundred inhabitants, all more or less wounded, remain to gather scattered household goods and sleep under tents, guarded by soldiers of the state.

Without warning the powder mills, seven in number, blew up at 9:15 this morning. They employed 200 men, and of these 75 were at work when the first explosion occurred in the press mill. In quick succession the glazing mill, two corning mills and the powder magazine blew up, followed by the cap mill. In the magazine, situated several hundred yards from the mill, were stored 4000 bags of powder.

The concussion when it blew up was felt 200 miles away. Every house in this town was destroyed. Farmhouses two miles away and schoolhouses equally distant were torn to pieces and their occupants injured.

Indianapolis and even Cincinnati felt the shock. A passenger train on the Big Four Railway, four miles away, had every coach window broken and several passengers were injured by flying glass.

### Notice of School Indemnity Selection.

United States Land Office, Portland, Ore., Sept. 6, 1907.

Notice is hereby given that the State of Oregon on September 6th, 1907, applied for Lot 4, section 7, and Lot 1, section 18, township 3 north, range 8 west, and Lot 3, section 13, township 3 north, range 9 west, and filed in this office a list of school indemnity selections in which it selected said land; and that said list is open to the public for inspection.

Any and all persons claiming adversely the above described land or any legal subdivision thereof, or claiming the same under the mining laws, or desiring to show said land to be more valuable for mineral than for agricultural purposes, or to object to said selection for any legal reason, should file their claims or their affidavits of protest or contest in this office on or before the 15th day of November, 1907.

ALGERNON S. DRESSER, Register.  
GEO. W. BIRBE, Receiver.

### A Certain Cure for Group—Used for Ten Years Without a Failure.

Mr. W. C. Bott, of Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequalled for croup and whooping cough. For sale by Clough's Drug Store.

### Notice of Final Account.

NOTICE IS HEREBY GIVEN, That the undersigned has filed in the County Court of Tillamook County, Oregon, her final account as executrix of the estate of JAMES L.
