Editorial Snap Shots.

A typical Christmas in Tillamook—the rain and wind storm on Wednesday.

* * *

A little fable: Who were the four individuals who are alleged to have divided up a snug little sum out of the water system? Well, we'll call it a one per cent fable.

* * *

The November jury had a picnic, coming to town and then going home, at the taxpayers' expense, drawing per diem and mileage. We think it would be perfectly proper for the governor to pay the expenses of this bank holiday jury so as to protect the taxpayers from busting.

* * *

The Cloverdale Courier says:

"There is a decidedly strong feeling against Hembree in this section."

Wouldn't it have been more correct for our contemporary to have said there is a decidedly strong feeling against Governor Chamberlain for paroling Hembree, the Sandlake murderer? That is how people feel all over the county.

* * *

A widow woman advertised that she would apply to the probate court on a certain date to wind up the estate in this county. It transpires that she cannot do so now and will have to re-advertise on account of the governor's negligence in allowing three days to lapse in the bank holiday. It being the governor's error, why should this poor widow woman be put to this additional expense?

We extend our congratulations to Dr. Boals and his bride, and may they live long and have heaven's blessing resting upon them throughout their married life is the benediction of the snap shot man. It is thirty years ago Christmas morning that we lead a bride from the altar, so we know something of the joys of married life.

* * *

The snap shot man ran up against a demented brain storm going home from work on Tuesday night. But as our sympathy is always with those who have made mental and physicial wrecks of themselves, especially those who have one foot in the grave, we have not the heart to push any man down, who is going from bad to worse, at this time of the year, when there should be good will towards men.

We have been invited to criticise the editorials in our contemporary. Let us remark right here that the "special interests" have control of the editorial columns and are writing the editorials. For what object we will inform the people of Tillamook county later. Consequently we do not care to criticise editorials when the writers are ashamed to sign their names and persists in remaining under cover.

* * *

Some few persons seemed disappointed two weeks ago that the Headlight did not comment upon the Hembree parole in the issue which contained the news of what Governor Chamberlain had done. We were going to press when the news reached us was the reason. Our last week's issue ought to convince every body that we are not afraid to lay the facts before the people. Anyway, we were simply reflecting public opinion in Tillamook. That was all.

At a meeting of the Water Commission on Monday evening, it was decided to ask the city council to levy a 5 mill tax, which will amount to $2000, to help the water system out. Those who put the mortgage plaster upon the city prepredited that the water system would pay for itself in a few years and would lower insurance rates and would provide enough money to run the city. It does not look like it, for there is a pipe line laid every year on the tax money raised in this city. Besides the $2000, the water commission is wanting $800 from water rent, making $2,800 to come out of the tax money next year.

A Baker City editor objects to hugging in round dances. It can't be that he is opposed to hugging in all forms. If he is, he will be the first editor of the kind we have ever heard of, and he will not have much of a stand-in with the boys of the editorial association.—Cloverdale Courier.

The snap shot man has never had the dancing craze, and if our contemporary is correct in its contention, then it begins to look that we have lost some of the pleasures of life. But, say, Bro. Hill, does the ladies like to be hugged by every Tom, Dick and Harry in round dances, for we want to be well informed before we start in to get our share of this social pleasure?

Another year will have passed and gone in a few days, but for Tillamook it has been a most interesting and successful year in many ways, for at no time in the previous history of the county were the settlers so well fixed and prosperous as we find them today, with a great and bright future ahead for the county and the people. No section of country in the state has been more prosperous than Tillamook. Yet there is much that can be done and will have to be done the next few years to boom Tillamook. This cannot be done by a rule or ruin policy, but with a long pull and a strong pull, and a pull altogether, Tillamook can be made one of the best counties in the state. Are we doing to do this? Or will the saloon and gambling faction butt in and make their special interests paramount to the interests of the county.

Hush, Bro. Turner, hush. How dare you criticise the "special interests" editorials in the paper you write for? And we wonder how the Sage of Hemlock would feel if he was running a newspaper, had no control of the editorial columns, and had to father the editorials written by a bevy of "special interests" editors, each one with a big ax to grind politically and otherwise? Oh, yes, we have editorial writers aglore in this city now they have control of the honking machine's plant, and by men who have not the courage, nor the manhood, nor the honesty to sign their names to what they write as long as they can get a lot of foolish little puppets to do their dirty work. Would you like to know, Bro. Turner, the names and the object each of these "special interests" editors have in view in getting control of the paper? It is certainly interesting, and not to the interest of the county and city.

* * *

Our contemporary has rightly criticised the misbehaviour of a number of young men at the entertainment at St. Alphonsus academy, but the only way to put a stop to it is to arrest and fine the boys, which should be done in this instance. This had to be done before the hoodlums would desist from annoying people in the United Brethren church some time ago, after exhausting Christian forbearance of those who had charge of that church. But our contemporary ought to go after those "higher up" and the places which make these young men hoodlums. Also go after those who use profame and disgusting language on the public streets, and who insult respectable citizens. It is easy enough for a newspaper to jump onto a lot of boys who misbehave themselves, but our contemporary ought not to cover up the misbehaviour of those "higher up," for the boys will say, and be right in saying, that they are being discriminated against.

Paul Wessinger, president of the State Brewers' Association, says:

"The Brewers' Association positively is opposed to the vicious element in the saloon business."

That is no doubt true, since the brewers are now forced to admit that something must be done to stem the tide of public indignation against the crimes which originate in saloons, especially the murders which occur so frequently in Oregon. But the trouble is the Brewers' Association cannot keep the vicious element out of the business, for they have allowed it to go on too long. People all over the country have suddenly come to the conclusion that, as a class, saloon keepers are law breakers and that their saloons are responsible for a great deal of crime, poverty and blighted lives. We do not have to go outside of Tillamook county to prove that, as all could see for themselves when some of the vicious element were running saloons here.

* * *

Perhaps the people of Tillamook county will instruct their next representatives in the State Legislature to work for the repeal or amendment of the parole law. They do not seems to be satisfied with the way it is working, particularly in the Hembree case.—Oregonion.

But that will not avenge the murder of the two innocent women whom Hembree premeditately and deliberately killed and whose heads he cut off and burned in a stove, and to cover up his bloody, grewsome crime, set fire to his house. And out of the hundreds of prisoners in the state penitentiary, Governor Chamberlain has paroled one of the most dangerous and blood-thirsty villians. The plea that the governor does not think that Hembree is guilty and that it was not possible for him to have committed the murders, may be a good way to put himself right. It, however, only exasperates the situation by even intimating that the intelligent people of Tillamook are wrong in their judgment and that the governor his right. Chamberlain can never make the people of this county believe that way, and he has badly disappointed them.

The City Tax Levy.

A meeting of the city council was held on this (Thursday) evening, when the tax levy for the city was made, which is a tax levy of ten mills upon each dollar of taxable property within the city limits, to be made upon the assessment roll for the year 1907, to be divided, applied and used as follows:

For general purposes under original provision of the charter, 2 mills;

For payment of interest on water bonds, 5 mills;

For payment of interest on other indebtedness and to create a sinking fund for its final payment, 2½ mills;

For Tillamook City Library Fund, ½ mill.

The following bills were allowed:

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. *Why* the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Sheriff's Sale.

By virtue of a warrant to me directed, issued by the County Clerk of Tillamook County, Oregon, commanding me to sell several articles of personal property and parcels of real property upon which the taxes are levied and unpaid as shown by the tax-list accompanying such warrant, of the State, County, School and other taxes for the year 1906 and special school taxes, and Tillamook City taxes for the year 1907, I will, beginning at 10 o'clock in the forenoon of the 28th day of January, 1908, and continuing from day to day thereafter until the list is exhausted, offer for sale at public auction and sell to the best bidder the real property situated in Tillamook County, Oregon, particularly described in the list following, to-wit;
