Resolutions Adopted By Republican State Central Committee.

We, the Republican state central committee of the State of Oregon, believing as we do in the principals of the Republican party and realizing the desire of the people to continue these principles and to keep the Republican party in power, and believing that this can best be brought about by the election of Hon. William H. Taft to the Presidency, earnestly recommended that the Republican state convention send to the Republican National convention only such delegates as are favorable thereto.

We commend and indorse the able, successful and manly efforts of Senator Charles W. Fulton in behalf of the interests of the State of Oregon, and we deplore the vicious, untrue and unmanly assaults that have been made on the character of one of the brightest and ablest men in the State of Oregon.

Whereas, our party has seen fit to select as our nominee for the highest office within the gift of the people of the state Hon. H. M. Cake, of Portland, Or., we pledge to him our loyal support, believing that he will measure up fully to expectations and will prove an able and trustworthy public servant.

LYTLE WILL TAKE HIS TIME

Declines to Hurry Becauae of Trolley Line.

When E. E. Lytle, president of the Pacific Railway & Navigation Company was asked Friday if the proposed building of an elecrric line from Hillsboro to Tillamook would have any effect on the plans of his company, he replied he could not conceive of any reason why it should. He said he is always glad to hear of extensions of electric lines in this state, but that, so far, he had learned of no work done by surveyors in the territory through which the P. R. & N. is to pass. Employes of this company are scattered along the line of its road, and the only thing which they report is a "blazed" survey made some time ago, done by young men who were evidently students. No regular corps of engineers has started a survey for the electric line, but Mr. Lytle said he hoped the line would be built, as the Tillamook country would welcome increased facilities in the way of transportation, which has so long been denied them.

"That is a great country," said he, "and is destined to be one of the most prosperous sections of the state. The finest kind of farming lands are to be had just now at prices that will advance rapidly when our railroad is completed. Besides the farming and dairying interests, there is a wealth of timber to be cut and make into lumber, and that industry in the district is practically in its infancy.

"I am unable to say definitely when work will be resumed on our line. We have bridge material piled up on the East Side which we shall move down to Tillamook between now and September on scows. This material came in from the East some time ago. On September 15 the underwriters always put up their rates on insurance for material sent by sea and we shall have our stuff transported before that time.

"I hear very little about the troubles concerning water transportation to Tillamook, but until better provision is made for entering the harbor in the way of straightening and deepining the slough, I do not look for much improvement in present conditions. Of one thing, however, there can be no doubt: That section has come to be of so much importance that good facilities must be provided before a great while."—Oregonian.

Whooping Cough.

"In February our daughter had the whooping cough. Mr. Lane, of Hartland, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough." says Mrs. A. Goss, of Durand, Mich. For sale by all druggists.

A Californian's Luck.

"The luckiest day of my life was when I bought a box of Bucklen's Arnica Salve," writes Charles F. Budahn, of Tracy, California. "Two 25c. boxes cured me of an annoying case of itching piles, which had troubled me for years and that yielded to no other treatment." Sold under guarantee at Chas. I. Clough, drug store.
