An ordinance to prohibit the setting off of what is known as giant fire-crackers was passed to its second reading.
 At the election at Nehalem for a union high school, composed of school districts Nos. 11, 28, 29 and 39, the boundary board canvassed the votes on Wednesday, with the result that districts Nos. 11, 28 and 38 were unanimous for the union high school, while in district No. 29 only one vote was cast against it, making only one vote in the four districts opposed to a union high school for those districts. A director from each district will have the management of the school.
 R. W. Bundy pleaded guilty to killing deer out of season and Justice White fined him \$50. He was arrested by Deputy Game Warden Osborn, who also showed out an information against J. J. Hower for having deer meat in his possession, but as there was some doubt in the mind of the justice as to the truth of the testimony he dismissed the case. It seems that Bundy was out with a surviving party, and being without meat for several weeks he killed a deer, half of which he left at the camp, and while packing the other half out in a sack he had the misfortune to meet the deputy game warden, who was looking also for live game. Bundy made no bones about what he had done and the reason for doing so.
 The play, "Mr. Bob," given by the Junior Class of Tillamook High School at the opera house on Friday evening, was well attended. The young amateurs did fairly well, and it would have been a great help to the play and to the audience had they been trained so that they could have been heard and understood all over the hall. Apart from this defect in some of the players, they played their parts with a good deal of ease and composure. Patty, the housemaid (Evan Ross) and Robert Brown, the law clerk (Urban Shrode) sustained their parts about the best of any of the young players, followed by Katherine Rogers (Nellie Hankenkratt), Jenkins, the butler (Pierre Peters) and Philip Royson (Albert Bramwell). Rebecca Luke, mistress (Jennie Shrode) and Marion Bryant. Bob (Helen Bibby) also did well. During the intermission Misses Lillian Anderson and Edna Alderman gave vocal solos, and each received a well deserved encore. The popular quartette and the vocal duetts came in for a good round of applause, not because of any great musical ability of the singers.
TAFT THE MAN.
 Taft was nominated for President on the first ballot, at Chicago to-day.
Drama at Academy.
 On the evening of June 23, a drama, entitled "A Little Heroine; or, Self Accused," will be given by the Dramatic Club, at the Academy Hall. Prices of admission—Reserved seats, 50c.; general admission, 35c. Tickets on sale at Clough's and Academy.

AGREEMENT IS SIGNED. Work on the Railroad will Start Up at Once.

On account of Mr. Lytle failing to give a letter of acceptance of the new agreement between the subscribers and the Pacific Railway & Navigation Company a good deal of speculation was indulged in this week as to when work on the railroad would start up. Mr. T. Coates went to Portland last week with the subscription list and with the purpose of securing an acceptance from Mr. Lytle, which he had been unable to procure as Mr. Lytle had been out of the city. Although it was predicted several weeks ago that work would start up on the 15th, but as that date is past and with no indications of doing so, it caused a good deal of speculation. Mr. Coates has phoned in saying that everything is all right and that he is under the impression that work will start up between now and the first of the month.
 A later message from Mr. Coates was received on Thursday afternoon, which stated that Mr. Lytle had signed the acceptance to the agreement, and that work would start up right away.

IDA SCHNAUER ASHORE. Drifts on Tillamook Spit in Fine Weather—Will be a Total Wreck.

The lumber schooner Ida Schnauer, Captain Henrickson, went ashore on Wednesday afternoon on Tillamook spit, or what is now known as the ocean side of Bayocean Park. She was outside and waiting for a tow to bring her in to load lumber at the Miami Lumber Company's saw mill at Hobsonville. The weather was fine and calm at the time. When Captain Schrader crossed in with the Sue H. Elmore between one and two o'clock he remarked that the schooner was close in, but thought she was safely anchored. It seems that she had lost her anchors and had only one small one left, and this failing to hold her and with no wind, she drifted ashore at a point on the spit opposite the site where it is proposed to erect the new hotel at Bayocean Park.
 The life saving crew at Garibaldi went to the assistance of the crew and took them all off with the exception of the captain, who stayed with his ship for a while or left her in charge of the mate.
 An effort was to have been made on Thursday to get her off the beach, but owing to the distance it was impossible to get a line to her. Even if this could have been done it would have been of no use, for the schooner during the night had changed her position and was farther up the beach and leaning, with her rudder post going to pieces. All hope of saving the vessel is abandoned, and she will become a total wreck. As soon as the weather turns a little stormy she will go to pieces, for she is old and unable to stand much pounding by the breakers.
 The Ida Schnauer belongs to the Miami Lumber Company, and is a three-masted schooner, built in 1871. It is only a few weeks ago that the Miami Lumber Co. lost their steam schooner Minnie Kelton, which lost her deck load after being struck by a huge wave, which disabled the vessel, and in a water-logged condition she was towed to the Columbia river, where she is a total wreck on her side on the sands.
 It was reported that the Ida Schnauer had on board the machinery for the new electric light plant for this city, but that was not correct, for the machinery was shipped on the Hugh Hogan.
 It is reported that the schooner is insured for \$5,000.

Death of J. J. McCoy.

We have to announce the death in this issue of Mr. J. J. McCoy, which took place in California on the 8th inst. He had been sick for several months, and was about 88 years of age. He was a prominent figure in Tillamook County, especially in the boom days of Bay City, where he owned considerable property. He helped build the road over the mountain to North Yamhill.
 JAMES J. MCCOY
 Died at his late home in this city on June 8th, in the 88th year of his age, after a long illness.
 Mr. McCoy was a native of Missouri. He moved to Oregon in 1850 and to Escandido eight years ago, where he resided at the time of his death. An aged sister, Miss M. C. McCoy, who acted as his housekeeper, is the only surviving relative.
 His funeral took place from F. G. Thompson's undertaking parlors Wednesday, Rev. J. N. Turrentine officiating and the remains were laid to rest in the Oak Cemetery.—The Advocate, Escandido, Cal.
For Exchange.

COPELAND CASE REVERSED. Supreme Court Overrules Demurrer Granted by McBride.

SALEM, Or., June 16.—Two appealed cases were decided by the Supreme Court today, the lower court being reversed in each instance. The most important case was that of Richard Wills and others against the Nehalem Coal Company and M. S. Copeland, from Clatsop County. This suit was the outcome of a coal mining project promoted by W. H. Copeland. Mr. Copeland secured an option on a tract of land believed to contain coal, the price being fixed at \$12,000. He then organized the Nehalem Coal Company with a capital stock of \$15,000. He subscribed for shares to the amount of \$100, and his wife, M. S. Copeland, \$750, so that they controlled a majority of the stock. They then sold stock and used the proceeds to buy the land, but took it in the name of M. S. Copeland, who transferred it to the company at a consideration of \$87,000, she taking as pay the 750 shares of stock and a note for \$12,000. Four years later this suit was brought to either have her stock canceled or compel her to pay for it, in the lower court Judge McBride sustained a demurrer to the complaint, but on appeal the Supreme Court in an opinion by Commissioner Slater, holds that the complaint states facts sufficient to entitle plaintiffs to relief. The case is therefore remanded with instructions to overrule the demurrer.

Bids Wanted

Notice is hereby given that the County Court of Tillamook County, Oregon will receive sealed bids for the graveling of that portion of what is known as the Beals' road at Nehalem, Oregon, from the beginning of said road to angle 19, of mile 1.
 The approximate distance to be gravelled is 1/2 mile. The approximate amount of gravel to be used on said road is 600 cubic yards. All bids must be in certain price per cubic yard, and the said gravel to be distributed over the entire distance as may be directed by the County Court or its representative. The work must be completed on or before October 1, 1908. All bids must be filed with the County Clerk on or before 10 o'clock a. m. July 1st, 1908. The court reserves the right to reject any and all bids. By order of the court.

Badly Sprained Ankle Cured.

Three years ago our daughter sprained her ankle and had been suffering terribly for two days and nights—had not slept a minute. Mr. Stallings, of Butler, Tenn., told us of Chamberlain's Pain Balm. We went to the store that night and got a bottle of it and bathed her ankle two or three times and she went to sleep and had a good night's rest. The next morning she was much better and in a short time could walk around and had no more trouble with her ankle.—E. M. BRUMITT, Hampton, Tenn. 25 and 50 cent sizes for sale by all druggists.

Thomas A. Edison tells of an experiment tending to prove his theory that a normal man needs not more than four hours of sleep in the twenty-four.

The test involved 100 men employed in the Edison laboratory at Menlo Park. For two years, he says, they worked on the four-hour sleep schedule, and "it did not seem to hurt them." The only variation in their habits was the eating of four instead of three meals a day, an extra supper being served at midnight. For the first week or so the men showed up very tired and limp, but after they gained in mental alertness and bodily agility, Edison calls attention to the fact that on this plan the men slept perfectly when they were in bed, whereas, in the ordinary plan of eight or ten hours in bed, he believes that most people are not sound asleep and dreamless for the whole period. He also tells how his wife changed from the eight-hour to the five-hour plan, with the best results. He questions the accepted idea that sleep is required to restore the body.
