FALL STYLES Await You.

Leading Modes for Men, made for us by the Premier Producers of America.

SINCERITY STYLES SPECIALLY PROMINENT, Embracing Youth and Men's Distinctive Clothes.

Sincerity Clothes

Now is the Logical Time

for clothes selection, and this is the logical place to make that selection.

This is going to be a big Clothes Season. Men have been denying themselves a great many things for a year past. Now we feel the reaction. We have prepared for it, so have the manufacturers. One notable feature is the immense range of styles—the daring innovations in clothes. These have to do with young men's clothes, chiefly. It is well enough to avoid the very flamboyant styles. We feel that our own selections have comprehended all the best that the leading designers have offered that are within the precincts of good taste. We invite your inspection and await your approval.

The Modern RAINCOAT.

A long, light overcoat that covers you from top to toe and is waterproof too, that is why we call it a raincoat. Brandegee, Kincaid & Co. made it for fair weather as well as stormy.

MODERN CLOTHES

to be really modern, must be a little ahead of the times. This is true of the Modern Raincoat, the material is as handsome as before it was waterproofed. The prices are modest.

For the past five weeks the milk at the cheese factories have been keeping up, with little or no decrease in the amount. There was a sudden falling off in the early part of the summer when the dry weather set in, but since then, with several copious showers of rain during the summer and no east wind, the flow of milk this year will be another record breaker.

William H. Williams, the shoeblack, but known about town as shortly, was brought in from Reebler's, on the Wilson river, on Friday, by Deputy Sheriff John Aschin, suffering with insanity. He had left the city under the illusion that people were after him, and creating some excitement Sheriff Crenshaw was telephoned for. Williams is a cocaine fiend. He was declared insane, and Sheriff Crenshaw turned him over to a warden of the State asylum at Dolph on Sunday.

The registration books will be opened on Monday for the registration of voters for the Presidential election, and will be kept open daily until five o'clock up to and including October 20. Voters who have already registered this year are not required to register again for the Presidential election. Those who have not registered since the 1st of January, however, must register if they wish to cast a ballot in November. Voters who have moved into different precincts than those in which they are registered will be given the opportunity to record the change so that they may vote at the polling place of the precinct in which they now live.

TO CREATE A PAY ROLL.

Planning to Re-Build the Saw Mill in this City.

Preliminary arrangements have been made to take over the Tillamook Lumbering Company property with a view to putting in another saw mill. Since the saw mill was burned the city has lost a pay roll of \$1,500 a month, and to recover that loss several citizens a few days ago became interested and are now making plans to re build, as well as figuring upon new machinery. The mill property has been tied up, also four million feet of logs and timber, and, probably, by the first of the month all plans will have been consummated to commence work soon after. To give those who want to help this industry along an opportunity to do so, it is proposed to sell several thousand dollars worth of lumber certificates to those who are contemplating building in the near future. As an inducement to obtain a saw mill at Bay City, a free site was given and over five thousand dollars worth of lumber certificates were sold. The business men of Tillamook City have subscribed liberally for a long number of years for celebrations, two lakirs' fairs, advertising schemes aglore, etc. all of which have taken large amounts of money out of the city, with business men putting in their time and energy, sweating drops of blood, to make a success if a system that has not built up one industry within the city nor created a pay roll of one cent, which the city is more in need of today than lakirs' fairs, shows and advertising "gruffs"—the latter being on the tapis good and strong now and quite recently. Tillamook City needs industries and pay rolls, and if the business men and citizens,

as well as the Tillamook Development League, would concentrate their energies and influence in that direction, now that a move in that direction is started, it is one of the best moves that could be made to make this city and surrounding territory an industrial center with a large monthly pay roll.

Siletz River Bottom Land.

I now have several tracts of rich river bottom land along the Siletz river which I can offer at \$20 per acre. I have one 72 acre allotment near the mouth of the river for \$1600, another 80 acre allotment about 5 miles up the river, and still another 58 1/2 acres a few miles below the agency with improvements for \$2600. These pieces are exceptionally good buys and as good as any bottom land in Tillamook. For particulars write Ralph Ackley, 603 Corbett Bldg., Portland, Ore.

The First Principle Of the Salaried Man Should Be --- TO SAVE. ---

It is possible that luck may play an important part in the quick making of fortunes, but it has nothing to do with fortunes accumulated from the savings of labor.

A bank account, however, will be of assistance and the young man or woman who will take this method of saving from his or her salary will eventually reach the desired goal.

This bank welcomes the accounts of those people who are working on salary and have a desire to save a part of it.
