When Anna told her mother she was certainly the happiest woman in the village and she made Anna happy by telling her she should have a pretty gown as her fingers could make Anna was not disappointed when she saw the dainty white garment with the fancy work on it and she felt that it had paid her to be a night owl.

Three years ago I was marked for death. A grave-yard cough was tearing my lungs to pieces. Doctors failed to help me, and I hope had died, when my husband got Dr. King's New Discovery.

The fact that no less than 4,000 delegates are expected to attend the fifth session of the National Rivers and Harbors Congress, to convene at Washington on December 9th and continuing throughout the two succeeding days, is a complete evidence of the deep interest taken in the vital question of waterway improvement.

The Ohio Valley Improvement Association, one of the strongest as it was one of the earliest associations advocating waterway improvement, will be represented by not less than 250 delegates, with the associations for the improvement of other great waterways cordially uniting in the work of the National Rivers and Harbors Congress.

Fortunately the question of waterway improvement is now considered from the standpoint of its immeasurable and its national importance. With the question made a part of the fixed and settled policy of the government; with annual appropriations made in adequate amounts; with the merit of the stream and the favorable report of the Board of Engineers, U.S.A., determining the work and with the work continuous, waterway improvement will become an accomplished fact.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk.
