There is usually an idea of more or less formality about an "Opening," and while this is quite an event with us, we want it to partake more of the nature of a house warming, with customers or strangers dropping in, looking around to see what the powers that be have decreed as the proper things in wearing apparel for every member of the family. Buy if you want to. We are here to serve you. But we will not urge you to buy. Just come and look. That's what we want you to do. The new suits and other wearables will make their own appeal to you. You'll want them. We believe in carrying goods that sell themselves on sight and reputation for worth. So you will see at least a score of New Spring Styles in Ladies' Suits and Jackets, Misses Jackets, Sincerity Suits for Men and Young Men—some Stunning, Dashing Ones for Young Men, and then ranging to the quiet styles and colors for the more dignified and sedate—we won't say old men. Then there is the Famous Hercules line for Boys and Children; and the Hunter Brand Shirts, Hardman Hats, Conklins' Gloves, Packard Shoes, and new colors in neckwear; and so on down the list of necessities or luxuries, as the case may be.

Call and Inspect them. **YOU ARE WELCOME.**

Some ingenious thief packed off about 18 bundles of shingles belonging to the new saw mill company. No matter how much some people try to benefit the city, there are those who purloin and want to work a "graft," instead of helping out. As long as the spirit of lawlessness continues one cannot expect anything else. And Mr. Whitehouse has an idea that his pile of brick has grown smaller.

The steamer Argo brought in on this trip the remainder of the machinery for the new saw mill, with the exception of the iron work for the carriage, which was sent back two weeks ago because it was not strong enough for the heavy logs to be handled. Good progress is being made in getting the machinery in place, and it is expected that the mill will be running by the 1st May. Mr. Whitehouse, who has a contract to furnish the mill with logs, has several booms ready to deliver.
L. G. Freeman came near losing one of his horses while tied in the shed belonging to the U.B. church. While he was attending the service in that church some boys monkeyed with the harness and buggy, and when he came from the church he found the animal almost strangled leaning against the wall and the pole of the buggy between its legs. The young hoodlums had started to run a wire from the shed to the buggy, but Mr. Freeman returned to the shed earlier than usual, and it is fortunate that he did for the horse could not have lived much longer.
The case of Vincenz Jacob for violating the local option law was tried on Tuesday before Justice Sappington and a jury composed of James Tone, J. S. Diehl, A. Plasker, Dave Fitzpatrick, Frank Paul and Dan Goodspeed. Notwithstanding that the prosecution had a strong case against Jacob, with two witnesses, Leonard Rush and Clarence Townsend, to prove the charge, the jury failed to agree, Tone, Plasker and Paul standing for not guilty and Diehl, Fitzpatrick and Goodspeed for guilty. Owing to the friendship of the defendant with some of the jurymen it was predicted that the jury would not agree, which proved correct. The case will be tried again next week.

Adolf Nordstrom, the confessed murderer of John Peterson, has owned up to another crime, that of stealing a shot gun from a saloon in Astoria, which belonged to a man named Charley Hays. The sheriff's office of Clatsop county wrote to Sheriff Crenshaw asking whether Peterson had a Winchester trap gun with a leather case in his possession when arrested. Peterson had a gun of that description with him, but with no leather case. Sheriff Crenshaw succeeded in getting from Peterson what he had done with it, and he said that after he had stolen the gun he threw the case between the saloon and another building in Astoria. Sheriff Crenshaw advised the Clatsop authorities of this, and they found it there on Tuesday. The gun will be returned to its owner.

A meeting of the city council was held on Monday evening, when Mayor Coates and Councilmen Talbot, Catterlin and Lamb were present. The water commission made a report showing that it had expended \$7,831.71, and C. E. Reynolds, president of the commission, being present, he made a verbal demand for 6 mills out of the 8 mills levied for general purposes to be placed in the water fund, leaving only 2 mills for the city. The water commission's report was laid on the table and Mr. Reynolds was told to put his demand in writing. In the matter of the county court allowing the city only half of the road tax collected within the corporate limits, this was referred to the ways and means committee, with instructions to confer with the city attorney for the purpose of taking proper steps to collect the whole amount of the road tax.
F. W. Christenson assumed the duties of dairy inspector and cheese grader on Monday, having signed a contract with the Tillamook County Creamery Association, which is composed of the large co-operative associations. Mr. Christenson will receive a salary of \$125 per month for ten months of the year. The object of the association, as previously stated in this paper, is to manufacture a uniform grade of cheese and not put it on the market on the market until it is properly cured, when the A1 grade will bear the inspector's stamp that it is of first quality. Where cheese fail to reach that standard, the inspector will not be allowed to place his stamp. Hence, those who buy Tillamook cheese in future will look to see that it bears the inspector's stamp that it was A1 grade and in fine condition when it was shipped from this county, or in other words, it is a guarantee by the association that the cheese so labeled is the renowned Tillamook cheese, manufactured under a system of sanitary supervision which is also an assurance of its purity and wholesomeness.
