There is usually an idea of more or less formality about an "Opening," and while this is quite an event with us, we want it to partake more of the nature of a house warming, with customers or strangers dropping in, looking around to see what the powers that be have decreed as the proper things in wearing apparel for every member of the family. Buy if you want to. We are here to serve you. But we will not urge you to buy. Just come and look. That's what we want you to do. The new suits and other wearables will make their own appeal to you. You'll want them. We believe in carrying goods that sell themselves on sight and reputation for worth. So you will see at least a score of New Spring Styles in Ladies' Suits and Jackets, Misses Jackets, Sincerity Suits for Men and Young Men—some Stunning, Dashing Ones for Young Men, and then ranging to the quiet styles and colors for the more dignified and sedate—we won't say old men. Then there is the Famous Hercules line for Boys and Children; and the Hunter Brand Shirts, Hardman Hats, Conklins' Gloves, Packard Shoes, and new colors in neckwear; and so on down the list of necessities or luxuries, as the case may be.

Tillamook is finding its salvation in competition. Months ago, when one steamer gave that port spasmodic connection with Portland, the whole county suffered. Now that opposition boats are running regularly, the great dairy district takes on new life and sends out both loaded with freight and passengers every trip.—Oregonian.

In the case of Weber vs. Weber for divorce, an amended complaint has been filed in which the charges set up in the original complaint have been greatly modified and made much milder. We are informed that it was by a misapprehension on the part of the plaintiff that the original complaint contained the most severe charges, which have now been withdrawn.

County Surveyor Parker, of Clatsop county, has completed the survey for a proposed public highway leading from the present county road along the Upper Necanicum River to the Tillamook County line, a distance of about 10 1/2 miles. The building of this road, which will be undertaken next year, will complete a first-class wagon and automobile road between this Astoria and Tillamook.

Word was received in this city of the death of Lester P. Smith, son of Jasper Smith. It seems that he was injured in a mine and died from the effects after being taken to the hospital. He was county school superintendent of Tillamook County for one term, and he left the county about ten years ago and mined in Idaho, and came into possession of some valuable mining property.

About 50 men quit work on the railroad on Monday. They wanted an increase in their wages, and as the contractors would not consent to this they skidded. Men keep coming and going all the time, as higher wages can be obtained elsewhere. It is getting as hard to hold men here as it was two years ago, notwithstanding that there are a large number of men out of employment.

The cheese factories are making their usual arrangements for a large supply of milk this year, which will be the largest in the history of the county. There is every indication that the dairymen will have another prosperous year, as Tillamook cheese is sure to receive the top price, that is the cheese which is properly manufactured, cured and bearing the inspector's seal before it is placed on the market.

We have to announce the death of Mr. B. F. Durfee, which took at Independence, Mo., on the 12th inst., after only a few hours sickness. Deceased was well known in Tillamook county, where he resided for a number of years previous to his removal to Missouri about two years since. His death came as a surprise, as

he was expected in this city to defend a suit brought against him in the circuit court. The many friends of Mrs. Durfee in this city will be sorry to hear of her bereavement, and we are informed that she is prostrated with grief on account of the death of her husband.

Main street is making a move in the right direction. A building is in course of construction between the jewelry store and T. Coats' office, which is being erected by Clark Hadley and to be used for an annex to the Ramsey House, and on the ground floor will be a restaurant. Sam Downs is putting up a building on the lot next to Browne's Shoe Store, to be used for a moving picture show. M. F. Leach will tear out the meat market and the building next door and erect a two story building in their place. The Tillamook Hotel and Edmunds Bros. store are to be painted and the street is being scraped, the mud removed and will be graveled and rolled.

Representative A. G. Beals returned on Saturday from attending the special session of the State legislature. He proved himself to be an efficient and conscientious legislator. Mr. Beals served creditably on the Ways and Means, Assessment and Taxation and Food and Dairy Products Committees, being chairman of the latter committee. We are indebted to him more than any other member of the legislature for the enactment of the new Dairy Bill, as it was through his efforts and influence that the bill carried, and for the edification of the dairymen in this county, we publish the bill in full in this issue. Recognizing Mr. Beals' worth, Governor Benson has appointed him on the Board of Higher Curricula. The appointment was unsolicited by Mr. Beals and came as a great surprise to him.

Shaw tickets 96, 687 and 33 wanted at Sturgeon's.
