

NEW DAIRY LAW.

Specifying what the Dairy-men Must Comply with.

Below will be found the Dairy Bill which passed the State legislature, and which is of considerable interest to the dairymen of this county. Representative Beals was instrumental in getting the bill passed.

AN ACT

To provide measures for improving the quality of milk, cream, butter and cheese and for all dairy products of Oregon, and to provide for the employment of deputies qualified to inspect dairies, creameries and cheese factories, and to collect and disseminate valuable dairy information, and to form cow testing associations, and to provide a penalty for its violation:

Be it enacted by the Legislative assembly of the state of Oregon: Be it enacted by the people of the State of Oregon:

Sec. 1. Relating to the care of cream separators, and the sale of milk and cream:

It shall be unlawful for any dairyman who skims his milk by cream separator process to offer or expose for sale, or sell any milk or cream coming from a separator that is not thoroughly washed and cleaned within three (3) hours after each use thereof, or to offer or expose for sale, or sell any milk or cream coming from a separator that is kept in any stable or other building where any animal is housed or in any other place that is unsanitary or where bad air exists, provided that this does not prohibit keeping such separators in a room that is wholly separated by sealed and papered partitions from that part of the stable in which animals are housed. All tin and wooden ware and other utensils used about any dairy shall be kept in a clean and sanitary condition.

Sec. 2. Cows and barns for dairy purposes—Manner of keeping: When cows are kept by any person or persons, for dairy purposes, whether for butter, cheese, or for the production of milk or cream for sale in addition to provisions already made by law and now enforced, the stables or barns where such cows are kept shall be thoroughly cleaned every day and kept in a sanitary condition. The cow's udder shall be well cleaned immediately before each milking, and when the udder is soiled by mud or other filth, it must be thoroughly washed with water and wiped with a clean dry cloth.

Sec. 3. Unwholesome milk and cream. Whenever it is determined by the Dairy and Food Commissioner, his deputy or inspectors, that any person is using, selling or furnishing to any skimming station, creamery, cheese factory, condensed milk factory, milk depot, milk dealer, the retail trade, or to any consumer of milk, any impure or unwholesome milk or cream, caused by the use of a sanitary or filthy condition of the premises where cows are kept, or by the unsanitary or filthy care in handling of these cows, the use of unclean utensils, unwholesome food, holding the cream too long before shipping, or from any other cause, the person so offending shall be notified and warned by the commissioner, his deputy, or inspectors not to sell or furnish such milk or cream at any of the places, or to any of the persons above mentioned. A failure to obey such notice and warning and the continued sale of such milk or cream shall be deemed a violation of this act.

Sec. 4. It shall be unlawful for any person engaged in the manufacture of butter for commercial purposes to use in the manufacture of said butter any cream that is pronounced unfit for use by the State Dairy and Food Commissioner, or by any deputy of the State Dairy and Food Commissioner.

Sec. 5. Every creamery must take samples of all cream purchased by it and must keep such samples for a period of (2) two days, subject to the inspection of the State Dairy and Food Commissioner, or his deputies.

Sec. 6. Relating to the appointment of additional deputies or employees by the State Dairy and Food Commissioner, prescribing their qualifications and duties and providing their compensation:

In addition to the chemist otherwise provided by law for the Dairy and Food Commission, the State Dairy and Food Commissioner may appoint as many as three (3) deputies qualified to assist in promoting the interests of the dairy industry in the manner herein provided, and in such way as may be required by the Dairy and Food Commissioner in the enforcement of the dairy and food laws. These deputies shall be versed in modern, scientific and practical dairy husbandry and shall have had actual experience in the management of a dairy for at least two (2) years, or shall be a graduate from

the dairy department of an Agricultural College. Said deputies shall take and file with the Secretary of State an oath that they have the qualifications specified in this Act, and to faithfully perform the duties assigned them, and shall hold their appointment at the pleasure of the Dairy and Food Commissioner. In addition to the general duties hereinbefore provided, these deputies shall organize and conduct cow testing Associations and shall collect and distribute valuable dairy information in all ways within their power. They shall inspect the sanitary condition of dairies, creameries and examine into the quality of the milk and cream used in these plants and the sanitary condition thereof. Any or all of them at the direction of the Dairy and Food Commissioner, visit different creameries and take two samples of cream from each patron received at that creamery for testing. One sample shall be sealed and stamped with the label of the Dairy and Food Commissioner, and left for the owner or manager of the Creamery, and the other shall be tested by a deputy of the Dairy and Food Commissioner to determine the percentage of butterfat contained therein, and a report of said test shall, within ten (10) days, be forwarded to the dairyman contributing such cream for comparison with the test made by the creamery.

These deputies shall receive an annual salary of not to exceed Twelve Hundred Dollars (\$1200.00) which shall be paid in the same manner as is provided by law for the payment of other officers of the Dairy and Food Department. There shall also be paid to these deputies their necessary and actual expenses incurred in the discharge of their official duties, on the approval of the Dairy and Food Commissioner, provided such expenses do not exceed eight hundred dollars (\$800.00) per year.

Sec. 7.—Any person, firm or corporation convicted of violating any of the provisions of this Act, or failing to comply with same, shall upon the first conviction be fined twenty-five dollars (\$25.00); upon the second conviction they shall be fined fifty dollars (\$50.00); upon the third and all subsequent convictions, they shall be fined one hundred dollars (\$100.00).

Sec. 8.—The term person or persons herein shall include corporation or corporations.

Sec. 9.—That there be and hereby is appropriated annually out of any money in the State Treasury not otherwise appropriated, the sum of six thousand dollars (\$6,000.00) for the purpose of this Act.

Sec. 10.—All fines collected under this Act shall be transmitted by the person collecting the same to the State Treasurer and by him deposited in the fund known as "The Pure Food Fund."

Sec. 11.—That it shall be the duty of the Dairy and Food Commissioner to force the provisions of this Act.

TURN ON THE LIGHT. The Question of Public Morals and Decency are Brought Out.

[TO THE EDITOR OF THE TILLAMOOK HEADLIGHT].

What is the matter with you, Charley? Are you mad because you were away and, perhaps, did not get your part of the "tainted" money paid for defence? Or may be you had a few too many pulls at "bootleg" whiskey before you penned your remarks for the public? Maybe you don't drink "bootleg" liquors?

As is customary with the representatives of the law and degrading business of liquor vending, their paid attorneys, and all others who attempt to defend such infamy as bootlegging et al, one C. W. Talmage indulges in a few vile epithets. He makes his customary flings at religion, and ends by asking one whose codes of morals is patterned after the Man of Galilee, as near as we know how to do that, to come to his office and settle the matter, presumably, as two dogs would end their contention over a bone. Such methods and language are their main weapons of defence, the ones they prefer to use, the only ones they use with skill by reason of habit. Questions involving a moral principle are not settled that way. And we have no personal animosity against any one, nor any desire to be personal in our remarks, farther than such persons place themselves in the light of the truth and be revealed where they stand on this issue. Vile epithets we will not indulge in.

As for "they talk and talk and don't point out, they argue and argue and don't show wherein;" did you ever read about those who have eyes, see not, and have ears, hear not? Some of that tribe is alive evidently.

Drunks, low, wellowing, dead drunks; hilarious, loud, cursing drunks; drunks, but for the immediate aid of a physician would have proved fatal, doubtless, drunk boys, drunk girls, have been numerous, very numerous. But as is often the case, only sober people know a drunk person when they see him. And thank goodness, there are more sober people among us than drunk ones. Yet the court records will show some drunks lately too. See?

The fact is there are far too many drunk people amongst us. The lamentable fact is that so many of these are boys and girls not yet of age. For their own and their parents' sake, doubtless, they have not been exposed in court, but unless there is a speedy change for the better the police officers will not be doing their duty unless they make an example of some of the worst of them. And if that does not change them a bit for the better, bring all found intoxicated into court.

But this is not the remedy contemplated by the Local Option Law. According to our law, the illegal selling of liquor for other than medical or mechanical purposes is a crime. The crime is a grave one. The full penalty is severe. But not too much so. For the abuse of the former license system, which was aimed to prevent excessive drinking, has made plain to the majority of thoughtful; well disposed people, the enormity of the inherent evil of the liquor business. Vice, crime, poverty, disease, physical, mental, moral and spiritual blight are all entailed on society by the liquor business, its votaries and defenders.

These things are acknowledged by all except those so narrow in their vision they cannot see, or so base as to sell their souls for pelf. True, honest men may yet differ in their opinions as to the best remedy, practical remedy. But in this, as in many other sections of our country, where live many millions of America's best, truest citizens, local option is the law with which we are fighting this accursed business.

In this land of the "lauded majority" rule, every good citizen is bound by his sense of justice and right do all in his power to enforce that law, whether he approve the law or not, be he lawyer, judge, officer, juror, or layman of no other destination than good citizens. See that point?

Any one who fails in any one of these positions should be called to think of this fact, and if he chooses to persist in obstructing the courts of justice, he deserves to be censured and to suffer the consequences of his obstinacy.

The failures in prosecution in Tillamook have been along this line some where. The law is enforced elsewhere on no stronger evidence of guilt.

Let us turn on the light that we may see where any of us fail to do our duty. For one I want to stand in the light on this whole subject. If my position is not tenable or proper, I want to abandon it for the light one.

The penalty provided in the law is sufficient to effect a very satisfactory state of affairs where lawyers, courts, jurors, and citizens allow the law to be enforced. It is an opinion pretty generally shared that there has been much obstruction along this line some where, ignorantly or purposely.

It may be "anarchistic" to ask some questions that may help us to find a solution for a bad state of affairs, but any one holding tenable ground need not fear the light. If I hold a "torch in one hand and a bomb in the other," it is to hold the one to see where to throw the other to blow this iniquitable business back to hell from whence it came, that earth's millions of weeping mothers, starving children, and victimized men may be set free to enjoy the pursuit of life, liberty and happiness. And in its destruction I do not desire the injury of any individual. That is a prerogative reserved to the Creator of us all, to be used only for those who stubbornly refuse to see and do right.

Men let us get right on this subject. Sincerely yours, W. W. ROSEBRAUGH.

No Use To Die. "I have found out that there is no use to die of lung trouble as long as you can get Dr. King's New Discovery," says Mrs. J. P. White, of Rushboro, Pa. "I would not be alive to-day only for that wonderful medicine. It loosens up a cough quicker than anything else, and cures lung disease even after the case is pronounced hopeless." This most reliable remedy for coughs and colds, la-grippe, asthma, bronchitis and hoarseness, is sold under guarantee at Chas. I. Clough's drug store. 50c. and \$1.00 Trial bottle free.

Best Healer in the World. Rev. F. Starbird, of East Raymond, Maine, says: "I have used Bucklen's Arnica Salve for several years on my old army wound and other obstinate sores, and find it the best healer in the world. I use it too with great success in my veterinary business." Price 25c. at Chas. I. Clough's drug store.

How can any person risk taking some unknown cough remedy when Foley's Honey and Tar costs them no more? It is a safe remedy contains no harmful drug, and cures the most obstinate coughs and colds. Why experiment with your health? Insist upon having the genuine Foley's Honey and Tar.—J. L. Lamar, Tillamook; Hawk & Miller, Bay City.

For Diseases of the Skin. Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It itches the itching and smarting almost instantly. Many cases have been cured by its use. For sale by Lamar's Drug Store.

The Lucky Quarter. Is the one you pay out for a box of Dr. King's New Life Pills. They bring you the health that's more precious than jewels. Try them for headache, biliousness, constipation and malaria. If they disappoint you the price will be cheerfully refunded at Chas. I. Clough's drug store.

THE POET SAYS

"Beauty draws us by a single hair."

This seems like something of an exaggeration on the part of the poet, if at least does not apply to men. The man with a single hair would not draw worth a cent, unless as a curiosity.

People to look their best need hair, they need all they ever have. If the hair begins to go it is time to use

IMPERIAL HAIR TONIC. This preparation saves hair. It stimulates the hair bulbs, cleans the scalp of dandruff or eruptions, and promotes new growth. Try it now.
