BAUXITE IN TILLAMOOK.

Another Source of Wealth Added to the County's Many Resources.

TO EDITOR OF TILLAMOOK HEADLIGHT.

Tillamook County appears to be on the eve of a development to take place within the next five years, of a greater extent perhaps than in all of the previous years of her history combined.

With the advent with the steam railroad, the prospect of one or more electric roads, and the beginning of the manufacture of our enormous timber products added to the natural adaptability of our lands for all kinds of milk and cream products, in itself alone would be sufficient to put us in the forefront as a model country in which to live, but in addition to these there are, however, many latent resources in our country of which as yet nothing appears to be known and which have probably never before been mentioned. Among these is Bauxite, from which is extracted aluminum.

Pioneer settlers of Tillamook may be surprised to learn that there are excellent reasons for believing that there is within the borders of our county this ore known as Bauxite.

A refining company, of Denver, Col., has this to say about aluminum and its ore Bauxite:

"The principal ore of aluminum is Bauxite, which contains when pure, aluminum oxide 74 per cent. The ore has a dull earthy luster and is found in various colors. Alumina is widely distributed in nature, but the above mineral is the principal source of the metal.

The electrical furnace is, up to the present time, the only successful method of extracting this metal from its ores.

Large deposits of Bauxite that can be cheaply mined and are near to transportation could be contracted to sell, or treated profitably. Ores should carry from 50 to 75 per cent alumina.

The uses of aluminum are numerous, at present the largest being in electrical, household utensils, various alloys, etc.

Quotations for this mineral remains at 36 to 38 cents per lb."

The mineral received its name from the village of Baux (or Beaux) in southern France, where a highly ferriferous, variety was first found and described by Berthier in 1821.

Aluminum is one of the metals present in clay, feldspar, slate and many other rocks and minerals. It was discovered by Wohler in 1828 and was re-examined by him in 1845, when he obtained the metal in minute globules, or beads, by heating a mixture of choloride of aluminum and sodium. In 1855 the French chemist Deville showed, as a result of a series of experiments, that aluminum could be prepared on a large scale and in a compact form without much difficulty.

The mineral cryolite found in Greenland, which is double flouride of aluminum and sodium, was the ore first used for its manufacture; but bauxite, a mineral found in France, and consisting chiefly of alumina or oxide of aluminum and oxide of iron, has more recently been employed as a convenient source of the metal.

The manufacture of aluminum was started in 1860, near Newcastle, by Mr. (afterwards Sir) I. L. Belt; but owing to the restricted demand for the metal the works were stopped, and it has been since manufactured chiefly in France. Recently, however, works have again been started in England by the Aluminum Crown Metal Co., at Hollywood, near Birmingham.

Here the metal is make from alum. Large works have also been started at various points in the United States.

The properties of aluminum are, that it is a white metal somewhat resembling silver, but possessing a bluish hue which reminds one of zinc. This bluish color can be whitened by hydro fluoric and phosphoric acids, and also by a heated solution of potash. It is very malleable and ductile. In tenacity it approaches iron, and it takes a high polish. It fuses at about 1291° F. (700c) and can then be cast in molds into ingots.

Exposed to dry or moist air, it is unalterable, and does not oxidize or tarnish like most common metals, neither cold or hot water has any action upon it. Sulphuretted hydrogen, the gas which so readily tarnishes the silver in households, does not act on aluminum, which is found to preserve its appearance under all ordinary circumstances as perfectly as gold does. When cast into molds it is a soft metal like pure silver and has a density of 2.56; but when hammered or rolled it becomes as hard as iron, and its density increases to 2.67, it is therefore a very light metal, being lighter than glass and only one fourth as heavy as silver.

Aluminum is very sonorous, a bar of it when struck giving out a very sweet, clear ringing sound. It is a good conductor of heat and electricity. Considerable difficulty was long experienced in working the metal for want of a suitable solder, that generally used consists of aluminum, 6 per cent; copper 4 per cent; zinc 90 per cent.

This white metal never occurs pure in nature, but is abundant in all clays as a silicate, formerly one of the most costly of metals, it is now becoming very cheap by reason of the invention of a few years since, of a process of extraction by electricity. The metal is valuable in the pure state for domestic utensils, and alloyed, with copper in excellent bronzes.

It can be cast, rolled and forged, and and when certain soldering difficulties are overcome, it will become a serious rival to copper in the form of wire for electrical purposes. Such articles as coins, medals, statuettes and many other things for which its strength and lightness render it particularly suitable, have been manufactured from aluminum, it is used also for opticals, surgical and electrical instruments. Aluminum leaf and wire may be employed with advantage in place of silver wire for embroidery.

Aluminum forms with copper, several light, very hard white alloys; also a yellow alloy which though much lighter than gold, is very similar to it in color. This gold-like alloy, which is ordinary aluminum bronze contains from 5 to 10 per cent of aluminum, and is very strong, was discovered by Dr. Percy, of London. For many years it has been manufactured into watch chains, pencil cases and other small ornamental articles, more lately it has been made on a limited scale into such articles as table plate and carriage mountaing which have an attractive appearance. This bronze, which can be made with a tensil strength equal to that of steel, has certain advantages for field guns, its anti friction and wearing qualities make it well adopted for bearings of shafts; but its price, being considerable in excess of ordinary bronze, somewhat hinders its use on a large scale for objects of utility. An alloy of aluminum and tin is used for optical instruments, and from another of aluminum and silver called "Tiers arget," excellent spoons and forks are made.

The first discoverer of aluminum had the reward of his genius.

Pliny tells us that in the reign of Tiberius (41 B. C. to 37 A. D.) a worker in metals presented a beautiful metal cup resembling silver, but lighter, to the Emperor, who questioned him and learned that he had extracted the new meta from clay. The secret he said, was known but to himself and the Gods. The sage Tiberius, reflecting that if this metal could be made from earth, it would lower the price of silver and gold, decapitated the artificer in order that his secret might remain with the Gods, and so deprived the world of a most useful metal for eighteen centuries.

This metal is growing rapidly in popularity and favor, to the writer it seems that there has never been a time in the history of the world when there was greater need of the metal aluminum than at the present day, which on account of its lightness, strength and durability would certainly be an ideal material out of which to manufacture aeroplanes and other flying-machines; and it is not necessary to call the attention of any of the people of Tillamook County to the fact that within her borders there lies more natural water power than can be found in almost any other portion of the globe, which could be utilized in generating electricity for manufacturing such metal; and this article is written for the purpose of calling the attention of the people of Tillamook City and County who have an interest in its welfare to start a movement to investigate and determine whether or not Bauxite exists in such quantities and cantains such percentage of Alumina as would warrant our people in advertising to the world at large the presence of such mineral in order to bring to our county the necessary capital to develop such resources. A few dollars spent at this time in investigating this matter and judicious advertising might prove like "the bread cast upon the waters", which in due time would return millions of dollars into our treasuries.

The writer has discovered evidence of the existence of bauxite on the watersheds of Tillamook Bay and believes that with the unlimited water power which lies at the door of Tillamook City, the advent of the railroads above mentioned, and water highways, Tillamook City will be ideally located geographically for the manufacture of the metal aluminum.

FRED C. SKOMP.

A Thrilling Rescue.

How Bert R. Lean, of Cheny, Wash., was saved from a frightful death is a story to thrill the world. "A hard cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid $10 to $15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For Lung Trouble, Bronchitis, Coughs and Colds, Asthma, Croup and Whooping Cough its supreme. 50c. and $1.00. Trial bottle free. Guaranteed by Chas. I. Clough's.

Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint."—J. S. Lamar, Tillamook; Hawk & Miller, Bay City.

FOLEY'S HONEY AND TAR
stops the cough and heals lungs

WHEN WOMEN REGISTER.

A Hotel Clerk Explains Why a Blotter Is Necessary.

"Hotel clerks get to be great observers of human nature," said an old hotel "lobbyist." "During the many hours out of each day that I spend warming this chair I have learned many tricks of their trade which go to prove my statement.

"In fact, this clerk here has a peculiar trick of his own which shows how keen an observer he is. If you watch him at work you will find whenever a woman is registering he holds a blotter so as to hide the other names on the page. At first when I noticed it I thought that he was merely holding the blotter in readiness to use it on the newly written name, but when I found that he did it only when a woman was registering my curiosity got the better of me, and I asked the reason.

"'Why,' said he, 'women are the most nervous creatures in the world. I hold that blotter up to show that I am not watching them write their names and at the same time to keep them from trying to excel the other handwriting on the page. If they noticed that I was watching them closely it is a safe bet that they would get nervous and make an awful botch of their signatures trying to be fancy. On the other hand, if they saw a particularly pretty signature on the next line the chances are that they would try to improve theirs with a flourish or two, which generally means a choice blot to be scratched out by yours truly.'

"I decided to test his theory by looking over a woman's shoulder while she registered. The result was just what he said it would be."—Milwaukee Sentinel.

LEPROSY.

After One Ravage the Disease May Lie Dormant For Years.

The leper in the settlement at Molokai is far better off than the leper who lies in hiding outside. Such a leper is a lonely outcast, living in constant fear of discovery and slowly and surely rotting away. The action of leprosy is not steady. It lays hold of its victim, commits a ravage and then lies dormant for an indeterminate period. It may not commit another ravage for five years or ten years or forty years, and the patient may enjoy uninterrupted good health. Rarely, however, do these first ravages cease of themselves. The skilled surgeon is required, and the skilled surgeon cannot be called in for the leper who is in hiding. For instance, the first ravage may take the form of a perforating ulcer in the sole of the foot. When the bone is reached necrosis sets in. If the leper is in hiding he cannot be operated upon, the necrosis will continue to eat its way up the bone of the leg, and in a brief and horrible time that leper will die of gangrene or some other terrible complication. On the other hand, if that same leper is in Molokai the surgeon will operate upon the foot, remove the ulcer, cleanse the bone and put a complete stop to that particular ravage of the disease. A month after the operation the leper will be out riding on horseback, running foot races, swimming in the breakers or climbing the giddy sides of the valleys for mountain apples. And, as has been stated before, the disease, lying dormant, may not again attack him for five, ten or forty years.—Jack London in Contemporary Review.

A Compositor's Blunder.

Some years ago the following apologetic explanation for a compositor's blunder appeared in a leading weekly literary journal published in London:

"In our last number, as we discovered unfortunately too late for correction, we announced that Mr. John Stuart Mill's inaugural address lately delivered before the University of St. Andrews had since been republished by him 'in the form of a five shilling elephant.' Even the most ardent believers in Mr. Mill's powers among our readers will probably have received this announcement with some incredulity. The fact is that by an error of the press the word 'elephant' was substituted for 'pamphlet,' and the mistake, although the proof was read and reread, unluckily escaped the corrector's eye."

Gretna Green.

Gretna Green is a parish in Scotland, just "over the border," where marriages used to be performed according to the law of Scotland. The ceremony was binding performed by a layman in the simplest form, when, being registered, the parties, in the presence of witnesses, were declared man and wife. The first person who officiated at these strange unions was George Scott, who began "his unlicensed ministry" about the year 1756.

Our Neighbors.

"We simply must move," said his wife positively. "I can't stand this place any longer."

"All right," replied her husband. "I know a flat we can get that is $5 cheaper than this one."

"Well, I should say not. If we move into that the neighbors would think we couldn't afford to stay where we are."—Detroit Free Press.

Extenuating Circumstances.

Attendant (in botanical gardens sternly)—Don't you know it's against the rules to pluck flowers in here? Little Girl—B-b-b-but, sir, I thought all that folks in glass houses shouldn't do was to throw stones.—Success Magazine.

Courage, like cowardice, is undoubtedly contagious, but some persons are not liable to catch it.—G. D. Prentice.

Percheron Stallion Ville.

The Registered Percheron stallion Ville will stand for the season 1909 in Tillamook at Tillamook City, Beaver and Hebo. Ville is the largest and best proportioned stallion in the county.

L. E. SANDERS, Owner.

Notice of Sheriff's Sale.

In the Circuit Court of the State of Oregon, for Tillamook County.

Mitchell, Lewis & Staver Company, a corporation, Plaintiffs, vs. E. E. Tyler, doing business under the firm name of E. E. Tyler & Company, Defendants.

NOTICE IS HEREBY GIVEN,—That whereas an execution has been issued out of the above entitled court, in the above entitled cause, date May 17th, 1909, commanding me as Sheriff of Tillamook County, Oregon, to sell the hereinafter described property, personal and real, belonging to the said defendant which has heretofore been attached in said cause to satisfy the sum of $3,204.87, with interest thereon from September 29th, 1908, at the rate of 6 per cent per annum and for the further sum of $1500.00, with interest thereon, at the rate of 8 per cent per annum from September 29th, 1908, and $75.00 as attorney's fees, and the costs and disbursements of said action and accruing costs.

And whereas all the personal property attached in said action has heretofore been sold as perishable property, except the building erected upon the North 55 feet off of Lot One, in Block Five, in Thayer's addition to the town of Lincoln, now Tillamook City.

Now I will on the 25th day of June 1909, at the hour of ten o'clock a.m. of said day, in front of the Court House door, in Tillamook City, Oregon sell at Public Sale all the right, title and interest of the said E. E. Tyler, in and to lot number four (4), in Block number eight (8), in Miller's addition to Tillamook City, and 55 feet off the North End of Lot One (1), in Block five (5), in Thayer's addition to Lincoln, now Tillamook City, and also the building erected on the last named tract, to the highest and best bidder for cash.

Dated this 19th day of May, 1909.

H. CRENSHAW,
Sheriff of Tillamook County, Oregon.

Notice of Sheriff's Sale.

NOTICE IS HEREBY GIVEN,—That in pursuance of a decree of foreclosure and order of sale duly rendered and entered in its Journal by the Circuit Court of the State of Oregon, for Tillamook County, at a regular term of said Court, on the 19th day of April, 1909, in a certain suit, wherein William Ryan is plaintiff, and E. E. Tyler and Delia L. Tyler, his wife, and Mitchell, Lewis & Staver Company, a corporation, are defendants in favor of said plaintiff and against said defendants, and in pursuance and by virtue of an execution and order of sale duly issued and under the seal of said Court in said cause, to me duly directed, dated the 13th day of May, 1909, said judgment and decree being for the sum of $450.00, with interest thereon from the 3rd day of September, 1907, at the rate of 7 per cent per annum, the further sum of $75.00 attorney's fees, and the sum of $45.05 costs and disbursements, and commanding and requiring me to make sale of the following described real property, to-wit: Lot four (4), in Block eight (8), of Miller's addition to Tillamook City, in Tillamook County, Oregon, to satisfy the decree rendered in said cause for foreclosure of a mortgage executed to plaintiff and held by him.

Now therefore by virtue of said execution, judgment, order and decree and in compliance with the command of said writ, I will on Friday, the 25th day of June, 1909, at the hour of 10 o'clock a.m., at the front door of the Court House, in Tillamook City, Tillamook County, Oregon, sell at public auction, subject to redemption, to the highest bidder for cash in hand, all the right, title and interest which the above named defendants or either of them had on the date of the mortgage of plaintiff herein, viz: On September 3rd, 1907, or since had in or to the above described real property to satisfy said execution, judgment, order and decree, interest and costs, and all accruing costs.

H. CRENSHAW,
Sheriff of Tillamook County, Oregon.

In the County Court of the State of Oregon, for Tillamook County.

In the matter of the Estate of Josie Alice Davidson, A Minor. } Citation.

To Olive Alice Dodge, Guardian of the above named minor, Josie Alice Davidson, the above named minor, Frederick M. Davidson, Monta V. Davidson, Joyce B. Morse, Laura Dodge, Ernest Dodge.

GREETING: In the name of the State of Oregon you are hereby cited and required to appear in the County Court of the State of Oregon, for the County of Tillamook, at the Court room thereof, at Tillamook City, Oregon, on Monday, the fifth day of July, 1909, at 10 o'clock in the forenoon of that day, then and there to show cause if any there be, why an order should not be granted directing Olive Alice Dodge, Guardian of the above named minor, to sell the real property belonging to the estate of said minor, at private sale for cash in hand, which said real property is situated in Tillamook County, Oregon, and is more particularly described as follows, to-wit:

An undivided one third interest in and to that portion of the Donation Land Claim of James Quick and Anna Quick, bounded by beginning at a point on the West line of said claim twenty-five and 50-100 (25.50) chains south of the North West corner of said claim and running thence East twenty-one and 75-100 chains; thence North eleven and 50-100 chains; thence East eighteen and 25-100 chains to East line of claim; thence North fifty (50) links; thence West forty (40) chains to West line of claim; thence South twelve chains to beginning, containing twenty-seven (27) acres more or less in Tillamook County, Oregon.

This Citation is issued in accordance with an order of the above entitled court in the above entitled cause, made and entered on the 18th day of May, 1909, a copy of which order is hereto attached and made a part of this Citation, marked Exhibit "A."

Witness the Honorable H. F. Goodspeed, Judge of the County Court of the State of Oregon, for the County of Tillamook, with the seal of said Court affixed this 19th day of May, 1909.

Attest: J. C. HOLDEN, Clerk.
(Seal)

Exhibit "A"

In the County Court of the State of Oregon, for Tillamook County.

In the matter of the Guardianship of Josie Alice Davidson, A Minor. } Order for Citation.

On this 18th day of May, 1909, came Olive Alice Dodge, Guardian of the person and estate of Josie Alice Davidson, a minor, and petitions the Court for an order to sell at private sale for cash, the real property belonging to the estate of said ward, described as follows:

An undivided one-third interest in and to that portion of the Donation Land Claim of James Quick and Anna Quick, bounded by beginning at a point on the West line of said claim twenty-five and 50-100 (25.50) chains south of the North West corner of said claim and running thence East twenty-one and 75-100 chains; thence North eleven and 50-100 chains; thence East eighteen and 25-100 chains to East line of claim; thence North fifty (50) links; thence West forty (40) chains; to West line of claim; thence South twelve chains to beginning, containing twenty-seven (27) acres more or less in Tillamook County, Oregon.

And it appearing to the Court that said Guardian has filed an Inventory and Appraisement of all the estate of said ward as provided by law, that there is no personal property belonging to the estate of said ward; that said ward has no income whatever except the rents of said land and the best rent obtainable for the rent of said land is $10.00 per annum; that the least sum sufficient for the maintenance and education of said ward is $175.00 per annum; that the taxes on said lands average $5.00 per year; that the petitioner is not able financially to support, maintain and educate said ward as she should be supported, maintained and educated without using the proceeds of the sale of the said lands; that it will be to the best interest of the said ward, and that it is necessary in order to support, maintain and educate the said ward that said land should be sold at private sale for cash.

It is therefore hereby ordered that the next of kin of said ward and all persons interested in the estate of said ward be, and they are hereby required to appear before this Court, at the Court room thereof in Tillamook City, Oregon, on Monday, the 5th day of July, 1909, at 10 o'clock a.m. of said day, and then and there show cause why license should not be granted to said Guardian to sell the lands as prayed for.

H. F. GOODSPEED,
Judge.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

NOTICE FOR PUBLICATION.
Department of the Interior.
United States Land Office, Portland, Ore., April 30th, 1909.

Notice is hereby given that ELMER H. GARY, of Nehalem, Ore., who, on Dec. 6th, 1907, made Homestead Entry, No. 16405, Serial No. 01440, for E ½ of Se ¼, Sw ¼ of Se ¼ and Se ¼ of Ne ¼, Sec. 32, Tp. 3 N, range No. 10 west, Willamette Meridian, has filed notice of intention to make final commutation proof, to establish claim to the land above described, before W. H. Cooper, U.S. Commissioner, at Tillamook, Oregon, on the 15th day of June, 1909. Claimant names as witnesses:

William Finley, of Nehalem, Oregon; J. J. Walter, of Portland, Oregon; E. H. Lane, of Nehalem, Oregon; M. Edee, of Nehalem, Oregon.

ALGERNON S. DRESSER, Register.

Notice to Creditors.

NOTICE IS HEREBY GIVEN,—That the undersigned has been duly appointed administrator of the estate of HENRY C. HILL, deceased, by the County Court, of the State of Oregon, for Tillamook County. All persons having claims against said estate are hereby required to present the same for allowance to me, at the office of H. T. Botts, Attorney-at-Law, in Tillamook City, Oregon, within six months from this date.

Dated May 6th, 1909.

ARTHUR K. HILL,
Administrator of the estate of Henry C. Hill, deceased.

Notice of Appointment of Administrator.

NOTICE IS HEREBY GIVEN,—That the undersigned has been duly appointed administrator of the estate of R. D. PECKHAM, deceased, by the County Court of the State of Oregon, for Tillamook County. Now, therefore, all persons having claims against said estate, are hereby required to present them to me at Tillamook, in Tillamook County, Oregon, with proper vouchers on or before six months from the date hereof.

Dated at Tillamook, Tillamook County, Oregon, May 5th, 1909.

A. W. SEVERANCE,
Administrator of the Estate of R. D. Peckham, deceased.

Notice.

NOTICE IS HEREBY GIVEN,—That the undersigned has been appointed by the County Court of the State of Oregon, for Tillamook County, executor of the last will and testament of PETER BRANT, deceased. All persons having any claim against the said estate are hereby required to present the same, together with the proper vouchers, within six months from the date of this notice to the undersigned at his residence in Tillamook City, Oregon, or to T. H. Goyne, Attorney-at-Law, at his office in Tillamook City, Oregon.

Dated May 6th, 1909.

JOHN A. BRANT,
Executor of the Last Will and Testament of Peter Brant, deceased.

NOTICE OF VACATION.
Of that Portion of Bayocean Park Lying North of the South line of Twenty-seventh Avenue.

TO ALL WHOM IT MAY CONCERN. Notice is hereby given that the undersigned has this 31st day of May, 1909, filed in the office of the County Clerk of Tillamook County, State of Oregon, petition for the vacation of all that portion of the map or plat of Bayocean Park lying North of the South line of Twenty-seventh Avenue and for the vacation of all the streets, avenues, boulevards, and alleys of said Bayocean Park lying North of the South line of Twenty-seventh Avenue; that said petition recites that the petitioner and the signer of this notice is the owner in fee simple and in possession of all the real property affected by said vacation; that no parties other than the petitioner are in anywise interested in said vacation and that it is the intention of the petitioner to replat and rededicate the property.

The said petition will be presented to the county court of the county of Tillamook sitting as a Board of County Commissioners for the transaction of county business on the 27th day of July, 1909, at the hour of ten o'clock A. M. or as soon thereafter as the said petition can be presented.
