Three Rivers Creamery Association.

To the stockholders and Directors of the Three Rivers Creamery Association, Hebo, Oregon. GENTLEMEN,—Following is my report as secretary of your creamery for the year 1909. The factory received for the year 1909, 1,718,847 lbs. of milk, an increase over 1908 of 236,000 lbs. Receipts for months as follows: February, 25,928 lbs.; March, 93,747 lbs.; April, 207,721 lbs.; May, 233,373 lbs.; June, 281,878 lbs.; July, 300,009 lbs.; August, 212,052 lbs.; September, 150,290 lbs.; October, 100,000 lbs.; November, 59,040 lbs.; December, 23,909 lbs. 182,168 lbs. of cheese manufactured and sold for the year. Cheese sold for a total of \$1,236.98, an increase in value of the factory's product over 1908 of \$7,000.00. Average price received for cheese for the year, 15.34 cents per lb. f.o.b. Tillamook. Average yield was 10.6 lbs. of cheese per 100 lbs. of milk.

Amount of butter fat in milk, 67,200 lbs. Average butter fat in milk, .03805 per cent. Number of boxes of cheese made 182,168. Factory received for making two cents per lb. cheese, which made \$3,643.36. Expenses for the year were \$3339.89. Resources of the factory are at present as follows: Cash with treasurer, \$151.43; due to factory from merchants for December cheese, \$170.79; creamery building and ground \$1,825.65; 1910 expense account, \$95.00; supplies left over from 1909, \$251.10; D. A. Bailey, \$8.73; Oregon Cheese Co., \$65.57; A. Mason, \$7.24. Total resources, \$2575.51. Liabilities are the capital stock of \$2000.00.

Beyond the expense account of which I am enclosing you an itemized account, we paid a 12 per cent dividend on the capital stock of the association, which amounted to \$240.00. Concerning what money is in the hands of the treasurer and the amount of the same for cheese and one month's salary of secretary and cheesemaker for the year 1910 account, it would make a balance of \$417.22 cash the factory has on hand at the beginning of this year, with no liabilities other than the capital stock.

I would suggest that it would be well to select a delegate to attend the Tillamook County Creamery Association meetings. The association has done good work the past year and another year should witness further improvement in quality of Tillamook cheese, and anything that will improve the quality, naturally will raise the price, other thing being equal.

I will further notice by the attached itemized list of expenses for hauling account is quite a heavy one but it being delivered to Tillamook, makes it sell for a higher price. The amount of cheese around Tillamook City for the year would have paid \$1.44 for the milk on an average for the year. Respectfully submitted, CARL HABERLACH, Sec.

Clover Leaf Creamery Company.

To the Directors and Stockholders of the Clover Leaf Creamery Co., Tillamook, Oregon. GENTLEMEN,—Following is my report as secretary of your cheese factory for the past year: Amount of milk received, 1,537,157 lbs. Receipts for months as follows: March, 31,002 lbs.; April, 166,178 lbs.; May, 253,576 lbs.; June, 263,810 lbs.; July, 247,989 lbs.; August, 214,440 lbs.; September, 167,029 lbs.; October, 115,000 lbs.; November, 56,536 lbs.; December, 15,354 lbs. 181 lbs. of cheese was manufactured and sold. Amount received for cheese, \$36,000.00. Average yield was 11.07 lbs. of cheese per 100 lbs. of milk. Average price received for cheese for the year, 15.34 cents per lb. f.o.b. Tillamook. Average yield was 10.6 lbs. of cheese per 100 lbs. of milk. Number of boxes of cheese manufactured, 182,168. Expenses for the year were \$3339.89. Resources of the factory are at present as follows: Cash with treasurer, \$151.43; due to factory from merchants for December cheese, \$170.79; creamery building and ground \$1,825.65; 1910 expense account, \$95.00; supplies left over from 1909, \$251.10; D. A. Bailey, \$8.73; Oregon Cheese Co., \$65.57; A. Mason, \$7.24. Total resources, \$2575.51. Liabilities are the capital stock of \$2000.00.

Beyond the expense account of which I am enclosing you an itemized account, we paid a 12 per cent dividend on the capital stock of the association, which amounted to \$240.00. Concerning what money is in the hands of the treasurer and the amount of the same for cheese and one month's salary of secretary and cheesemaker for the year 1910 account, it would make a balance of \$417.22 cash the factory has on hand at the beginning of this year, with no liabilities other than the capital stock.

manufactured. This leaves about \$1.51 1/2 cents per 100 lbs. for milk after deducting the making. It seems to be the experience of factories the size of Clover Leaf that 1 1/2 cents is hardly enough as a making charge. Expenses for the year were \$2,926. Resources and liabilities at present are as follows: Resources, \$1821.41. Liabilities, \$700.00. Respectfully submitted, CARL HABERLACH, Sec.

Elwood Creamery Company.

To the stockholders of the Elwood Creamery Co., Tillamook, Ore. GENTLEMEN,—Following is my report as secretary and salesman for your company for the year 1909. Factory received milk as follows: April, 83,680 lbs.; May, 139,981 lbs.; June, 141,799 lbs.; July, 135,581 lbs.; August, 121,783 lbs.; Sept., 119,738 lbs.; October, 68,579 lbs.; November, 26,350 lbs.; and December, 3,045 lbs. Total receipts, 840,536 lbs., a gain of 165,451 lbs. over 1908.

Butter fat in milk, 32,087 lbs. Average butter fat in milk .03817 per cent. 89,906 lbs. cheese manufactured and sold, 1287 boxes. 10,095 lbs. cheese were made per 100 lbs. of milk. It required 9.35 lbs. of milk per pound of cheese. Cheese sold for \$13,930.37. Average price received being 15.495 cents, or practically 15 1/2 cents per lb. net on the wharf. Elwood made quite a few Y.A. cheese, which helped the price up a little.

Paid \$1.46 and \$1.47 per 100 lbs. Prices paid for butter fat were as follows: April, 42.2 cents; May, 38.2 cents; June, 36 cents; July, 36 cents; August, 38.3 cents; September 39 cents; October 40 cents; November and December are estimated each 40 cents. Average payment, counting off 1/4 for making would be a little over 38 1/2 cents for butter fat, certainly a fine price. The factory operated only during the summer months.

Liabilities are the capital stock of \$550.00, due patrons for December and November milk, \$603.38. Resources; Building valued at \$600.00, cash in hands of treasurer, \$175.75, due for cheese sold \$473.71. Respectfully submitted, CARL HABERLACH, Sec.

Pleasant Valley Cheese Company.

To the directors and stockholders of the Pleasant Valley Cheese Co., Hemlock, Oregon. GENTLEMEN,—Following is my report as secretary of your company for 1909. The factory received for year 572,426 lbs. of milk, divided in monthly receipts as follows: March, 10,479 lbs.; April, 61,487 lbs.; May, 82,382 lbs.; June, 101,628 lbs.; July, 95,068 lbs.; August, 83,203 lbs.; September, 64,165 lbs.; October, 49,506 lbs., and November, 24,418 lbs. This milk was manufactured into 60,001 lbs. Average yield was 10.6 lbs. of cheese per 100 lbs. of milk. 863 boxes cheese made. The cheese sold for \$9,384.26, an average of 15.46 cents per lb. The factory made quite a few Y.A.'s, which helped the price up some. Amount of butter fat in milk was 23,014 lbs., being an average butter fat content of 4.02 per cent. Figuring on basis of 1 1/4 cents for making, which is the amount charged around Tillamook City, would make an average price of a little more than \$1.45 per 100 lbs. milk for the season. As a matter of fact the factory charged two cents per lb. for making cheese; paid \$5.16 for inspecting their cheese and also deducted and paid for hauling cheese and supplies the sum of \$195.46 for 1909 account. Receipts for making for the year were \$1213.82. Expenses for the year were \$1,251.61, from which should properly be deducted \$74.15 supplies left over and sold to patrons. The factory also installed a new boiler last year at a cost of \$181.25. Resources are \$70.00 cash in bank, \$72.75 supplies on hand, Building and grounds \$91.25. Total of \$1,124.00. Liabilities are bills payable of \$275 and the capital stock outstanding of \$500.00, a total of \$775.00. Would suggest that it would be well to elect a delegate to attend the sessions of the Tillamook County Creamery Association. Respectfully submitted, CARL HABERLACH, Sec.

East Beaver Cheese Company.

To the directors and stockholders of the East Beaver Cheese Co., Hemlock, Oregon. GENTLEMEN,—Following is my report as secretary of your company for 1909. The factory received for year 572,426 lbs. of milk, divided in monthly receipts as follows: March, 10,479 lbs.; April, 61,487 lbs.; May, 82,382 lbs.; June, 101,628 lbs.; July, 95,068 lbs.; August, 83,203 lbs.; September, 64,165 lbs.; October, 49,506 lbs., and November, 24,418 lbs. This milk was manufactured into 60,001 lbs. Average yield was 10.6 lbs. of cheese per 100 lbs. of milk. 863 boxes cheese made. The cheese sold for \$9,384.26, an average of 15.46 cents per lb. Meda Co-Operative.

To the stockholders of the Meda Co-Operative Creamery Co., Cloverdale, Oregon. GENTLEMEN,—Following is my report as salesman for your company for the year 1909. The factory received for the year 833,230 lbs. milk, a gain of 56,552 lbs.

over the preceding year. Receipts per month were as follows: March, 42,591 lbs.; April, 112,085 lbs.; May, 149,474 lbs.; June, 148,259 lbs.; July, 132,212 lbs.; August, 113,529 lbs.; September, 83,365 lbs.; October, 53,682 lbs. and November, 25,033 lbs. 93,709 lbs. cheese manufactured. Cheese sold for \$14,285.34, an average of 15.24 cents net at the dock at Cloverdale. 1375 boxes manufactured. Product exceeded 1908 by \$3,762.00. Milk contained 33,071 lbs. of butter fat, being an average of .03876 per cent butter fat for the season. Factory received \$1874.18 for the year for making cheese, being two cents per lb. Average yield was a little over 10.98 lbs. of cheese per 100 lbs. of milk, practically an 11 lb. yield, which is very good. I do not know what your expenses were last year, nor your financial standing, as you have a secretary who looks after these matters. Respectfully submitted, CARL HABERLACH, Secretary and Salesman.

Resources: Bills receivable, being notes given the company by the subscribers for stock in the company, \$349.04, fixture and factory ground \$600, supplies on hand \$143.90. Cash in bank, \$14.08; total, \$1,107.62. Liabilities: Bills payable \$474.04 and capital stock \$500. During the year 1 cent per lb. for butter fat was deducted from the milk delivered by subscribers to the capital stock of the company, same to be applied on the notes given the company for payment of stock. This makes considerable work keeping tract of these small payments, and as the notes are in escrow to secure payment of note given to purchase the factory, it makes it more difficult to endorse these payments. It would be much better to adopt some other method of paying these notes, especially as there are a number of notes given by subscribers to the capital stock who are not supplying milk to the factory. Respectfully submitted, CARL HABERLACH, Sec.

A Common Cold. We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by Lamar's Drug Store.
