"BREAKING to harness" is pretty lively work sometimes; but if it's well done, the results are usually good. We've broken a lot of high-spirited fellows to our clothes; and we expect to keep on doing it. The man we especially like to "tackle" is the fellow who thinks we can't persuade him that these fine clothes, made for us by

are better than any he gets made to measure; better for him; economy for him; better style, better quality. We're convincing a lot of just such skeptics right along. The clothes do it: all we have to do is to get them tried on. Men are sometimes a little stubborn about that, but once they get into the clothes, that settles it. They're the best, the most stylish, and about the only clothes that you know are all-wool.

We like to get the other fellow, too, who thinks these clothes are too high priced; he's easy, if he once gets started; the economy is too apparent.

New Suits in grays and blues; fancy mixtures, snappy new patterns, very stunning creations, \$20 to \$35. Great line of fine furnishings; shirts, neckwear, hosiery, underwear. Best hats made.

This store is the home of Hart Schaffner & Marx Clothes.

Of course we carry other lines of clothes that will not cost you as much money. We have splendid suits for men and young fellows from \$11.50 up.

 Has a trout more sense than a fisherman? Sometimes we think they have. Our reason is this. A trout will not raise only to a certain kind of a fly on a given day, while some fisherman spend their good time and money trying to make Mr. Trout take the fly that he don't want. We have the largest assortment of flies and fishing tackle ever brought into the county and can give you a tip on the kind of fly that the fish are after.—King & Smith Co.
