"Non-Partisan Lawyers."

So popular has become the idea of assembly for naming candidates for the people to nominate in primaries that the State Bar Association has issued a call for an assembly of lawyers to name a "non-partisan" ticket for Judges of the Supreme Court. Not to leave any important preliminary undone, the Bar Association has appointed a central committee of "non-partisans," representing the thirteen judicial districts—most of the live members of which committee, however, are Democrats and ex-Democrats.

So that the assembly movement is making headway. So far, so good. The lawyers evidently know a good thing when they see it, just as the granges and the labor unions do.

But aren't they rather narrow in their non-partisanship when they refuse to take other reputable citizens than lawyers into their conferences and their committees and their assembly? Non-partisanship until this time was supposed to be broad enough to include Democrats, Republicans, Socialists, Prohibitionists and what not other breed of patriots. The selfishness or clanishness of lawyers is a severe shock to non-partisan credibility. And when lawyers, the world's chief trouble-makers, deny the competency of the mass of the people to name the judiciary, that caps surprise with disappointment.

However, the people have learned to know the lawyers and may not be over-credulous when hearing the good works of the lawyers in non-partisanship. For the people understand that if lawyers had nothing to say about election of judges, more men would be elected to the bench who would make lawyers the mark and hurry up business and cease wasting the people's money. Some of the people's best judges have not been approved by lawyers.

The lawyers are to be congratulated. It is not to be wondered at that they fail to see the superior interest of the people in the selection of judges.—Oregonian.

An Echo of Tariff Reform.

Commenting upon the Farmer's Alliance at St. Louis, the Globe Democrat has this to say:

An echo of the last era of tariff reform has been heard in St. Louis several times this week. Jacob S. Coxy who, in 1894, organized a considerable number of the discontented, who then were more common than work or wages, to march upon Washington and demand a redress of grievances. The Democrats were in full authority at Washington. Mr. Cleveland was president and there was a large Democratic majority in both Senate and House. The party had been swept into power by a wave of tariff reform. It had for years been thundering in its platforms that, if intrusted with control of all the law-making branches, it would make such a mighty cut in tariff taxes that the suffering consumer would find relief from his burdens. In a way, this pledge was kept. The consumer was eased of most of the burden of consuming. Idle men wandered over the country seeking something to consume. The atmosphere was cleared and purified by being cleaned of the factory smoke which had once polluted it, and appetites grew keener, partly because of that clearance, and partly because everything was so cheap that it seemed within easy reach. When would-be consumers reached for things they found that the low-hanging fruits hung too high to be reached by men tied down.

At Washington, Democrats who had been elected on pledges of tariff reform were quarreling and dividing in council as to what tariff reform was. It was then that the sugar trust manipulated the sugar schedules by a judicious distribution of some of its gilt-edged stocks among Democratic statesmen. In the doubt, uncertainty and hesitation which covered everything, the country languished more and more. Democrats then, like Senator Bailey of Texas now, declared that writing party platforms is only a matter of detail. The depression continued, and grew worse, through weary months, running into years. The House stood for one bill, the Senate for another, the president for a measure differing from both. In the midst of the distress, Coxy organized an army of ragged cadets and marched toward Washington. Other leaders of discontent, starting up in the farther West, marched after him, each with his little army of tatterdemalions. They were going to force action. They did. The Wash-

ington chief of police acted promptly and put most of them in jail.

We rejoice at the presence of Coxy here now for more than one reason. One reason is that, in coming here, he reached his point of destination in a Pullman car, and not on foot. Another is that, though he is still loudly viewing with alarm some things he doesn't like, there is not even a suggestion made to put him in jail. Chief of our reasons for gratification at his presence, however, is the opportunity it affords us of calling the attention of young Democrats who recently raised their voices and threw up their hats for another experiment with Democratic tariff reform, to the comparative condition of Gen. Jacob S. Coxy then and now. Then he traveled afoot. He travels now in parlor cars. Then he was asking "handouts" for his starving followers. Now he himself is handing out the assurance that no matter what wrongs any man may think his, let him not put his trust in the Democratic party to set them right. Thousands of men who did not march with Coxy in the '90s marched out of the Democratic party with him then, and, like him, will never march back.

Gen. Coxy states that most of the old Populists are Socialists. It remains for Milwaukee to show the world that it is both or either.

The moral of the result of the Hyde trial in Kansas City is that when jurymen weep at the eloquence of counsel in behalf of the prisoner's wife, it may be only in anticipatory regret of what they will have to do to the lady.

A new expedition has gone to Mount McKinley to find the foot tracks of the men who say they could not find the foot tracks of Dr. Cook. Exploration is so fast becoming a joke that it will be hard hereafter for promoters to finance their expeditions.

In a voluminous report presented by the Temperance Committee at the Southern Baptist Convention, President Taft is commended for his example of total abstinence and for his action in insisting on changed regulations governing the issuance of the United States special tax receipts of retail liquor dealers, whereby the "infamous work of the so-called bootleggers and other violators of the prohibition laws will be rendered hazardous." This action of the nation's chief executive, the committee reported, will render bootlegging impossible without detection under proper State enactments and enforcements.

The Population of Oregon.

The census enumeration of the State of Oregon, so far as it can be confirmed by officers of the Census Bureau, will show a population of 675,879. The net gain to the state will be 262,343.

Gain Made in Four Years.

Practically the entire gain made by the state has been secured within the past four years. Beginning at Ashland on the south, Jackson County, Josephine, Douglas, Lane, Benton, Linn and Marion, located in the rich valleys of the Umpqua, Rogue and Willamette rivers, have awakened a large interest in horticulture and farming.

West coast counties have waited in a large measure the railroad development necessary for reaching their harbors and handling dairy products, but a clear gain in population has been experienced. Clatsop, Tillamook, Lincoln, Curry and Coos show an increase of from 25 per cent to 50 per cent, the gain in Coos being the largest.

It is probable that Salem, jumping from 4,258 people in 1910, to 13,000 during the present enumeration, will lead all cities of the state outside of Portland. The First Congressional District will have seven cities which exceed 5,000 population, Salem, Eugene, Albany, Medford, Roseburg, Ashland and Grants Pass. Roseburg, Oregon City and Corvallis are claiming for admission to the select circle.

When the state shall be re-districted by the legislature in order to accommodate another Congressman, that body will be asked to designate Multnomah as a district. The suggested plan then places all of Eastern Oregon, including Klamath and Lake counties, in a district with Clackamas, Washington, Columbia and Clatsop, where 40,494 votes were cast in the last election. The remaining district would contain all Willamette Valley counties, together with Southern Oregon and the coast, except Clatsop, and would have 43,404 votes.

The following table shows population by counties and Congressional districts:

Pore Ole Dad.

Ye can scarce pick up a paper
An' its "Poets' Corner" greet,
'Cept ye'll see a pretty poem
'Bout the mother, saintly, sweet;
But ye'll have a time a searchin',
Eyes will be er-achin' bad,
Ere ye'll overtake a poem
At this time for pore ole dad.

No, it isn't willful in 'em,
Them that write of mother dear,
That there's never notice taken
Of her old man settin' near
No, it's never meant to slight him,
But it looks a little sad—
All the bouquets made for mother,
Not a bloom for pore ole dad.

True, our mother watched above us
Till her dear old eyes would ache,
But ole dad he humped to feed us
Till his back would nearly break;
Nother crooned above the cradle,
Gave devotion, all she had,
Still that wasn't any circus
At this time for pore ole dad!

Do not take one line from mother
When you write the soul-sweet song
But if there's a word for father
Now and then it won't be wrong.
Poor old soul! He's bent and wrinkled,
An' I know 't would make him glad,
If while you are praisin' mother
Somethin's said for pore ole dad.

Auto Upsets Demonstration.

FOREST GROVE, Or., May 18.—A party of business men of this city met with an automobile adventure yesterday on the Forest Grove-Tillamook stage road, which came near being serious. John McNamer, who runs the stage between here and Tillamook, plans to substitute an automobile for horses, and a demonstrator of a Portland firm came out with a machine and took the party out to show it the hill-climbing ability of the automobile. While going up the mountain, which terminates in the summit, five miles above Gales City, the engine refused to work, and the machine started to run backwards. The driver guided it into the bank, where it partly turned over and spilled the occupants, slightly injuring McNamer and Smith, and doing about \$200 worth of damage to the machine. The occupants of the car were: John McNamer, John Stribich, Hugh Smith, Claud Smith, Charles Miller, Jake Wirtz and the chauffeur.

Auto Road for Tillamook.

Construction of a good road from Portland to Astoria is the plan which the Oregon State Automobile Association has outlined and will attempt to work out as fast as is practicable. The road is to be built by way of Tillamook, and the vice-presidents of the state organization for the respective counties through which the road is to pass have combined to carry out the plan for its construction. Taking a leading action in the plan for the Portland-Astoria road are W. H. Parker, of Clatsop County, and John S. Beal, of Multnomah. The road from Portland to the beach is believed to be one of the most important undertakings of the State Association.

Another thing undertaken by the Oregon State Automobile Association is the selection of a hotel and garage in each town and city, to be designated the official stopping place for the members of the organization. These places are to be recognized by the official emblem that is being prepared by the association. The emblem of the association will be a wheel, inside of which will be a beaver, designating the state.

Call for State Republican Assembly.

Pursuant to the direction of the Republican State Central Committee, last chosen under the provisions of the direct primary law and authorized by that law to make rules and regulations for the government of the republican party in Oregon, an assembly of the republicans of this State, through their representatives to be elected from the different precincts and counties, is called to meet in the City of Portland, Oregon, Thursday, July 21st, 1910, at 10 a. m., for the purpose of formulating and adopting a party platform, and to recommend to the favorable consideration of the Republican voters of this State the name of a candidate, best qualified, for each of the elective State offices, representatives in Congress, and judicial district offices composed of more than one county, subject to nomination at the primary election to be held on September 21st, 1910, as provided by law.

The appointment of delegates among the different counties, as fixed by said committee, being one for each fifty votes, or major fraction thereof, of the votes cast for William H. Taft, at the last presidential election, is as follows:

Baker	34	Lane	66
Benton	24	Lincoln	12
Clackamas	55	Linn	44
Clatsop	29	Malheur	16
Columbia	25	Marion	76
Coos	37	Morrow	14
Crook	18	Multnomah	354
Curry	5	Polk	29
Douglas	42	Sherman	9
Gilliam	19	Tillamook	12
Grant	15	Umatilla	47
Harney	9	Union	30
Hood River	15	Wallowa	27
Jackson	41	Wasco	18
Josephine	19	Washington	40
Klamath	13	Wheeler	8
Lake	9	Yamhill	40

It is recommended that the county assemblies be held by the republicans in each of the counties of this State, on Saturday, July 16, and that the meetings for electing delegates there to be held on Saturday, July 9th, and that the delegates to be elected in such manner as the County Central Committee for each county may provide.
