From the New York Tribune, May 30, 1908.

Washington, May 29.-President Roosevelt today issued a statement commending the Oregon members of the House for their support of ingly traced out the boundaries administration policies and wishing them success in the coming elec-tions in that state. The statement follows:

The President said goodby to the two Oregon Congressmen, Messrs. Hawley and Ellis, and stated publicly that he took the occasion to thank them for the attitude they had consistently maintained in the support of the administration's policies, and to wish them success in the election which is to take place on Monday next. The President stated that he wished publicly to express his appre-ciation of the cordial manner in which the gentlemen had backed up

the policies and the meaasures which the President felt were of such consequence for the welfare of the country, in connection for instance with such matters as securing employers' liability legislature, both as regards interstate commerce and as regards the employees of the gov-ernment itself; securing child labor legislation, and the effort to secure the proper administration by the courts of the power of injunction, and finally securing by the nation of thoroughgoing and adequate control over the great interstate corporations, a control which shall be both effective to prevent any wrongdoing by them and at the same time of such character as will permit the reward in emple fashion of all busi-ness which is so conducted as to be for and not against the public interest
