 The boy or girl with any defect of vision is greatly handicapped in the pursuit of knowledge in the school room. If your boy or girl does not show a high percentage of average in the school report the probabilities are that there is something the matter with the eyes. To find out costs you nothing if you will bring them to me for examination. It doesn't pay to guess about the eyesight of your child—it is better to see that the eyes are right. If glasses are needed I am prepared to furnish the exact thing that will meet the needs of the case. Remember that they are guaranteed for one year, and I am here to make them good.
