The Tillamook Headlight.

High School Notes.

Friday, the 30th of September, the Emersonian Literary Society gave the first regular meeting in this year's contest. The main features of the meeting were, first, the crowded condition of the assembly room, which made it very inconvenient for the rendering of some parts, one seat having to be taken up in order to make room for the piano.

Since our last column was edited the faculty has given the students their usual monthly treat in the way of one of those soul inspiring tests which caused a number of the students to vow that they would put forth a most strenuous effort to receive better grades in the future.

Elva Austin has been absent from school during this week on account of ill health.

The evening of October, the 8th, the sophomore class gave the first party of the year in Todd's Hall. The sophs, as usual, are gifted with the desire to give the first of everything, no matter what the cost is. Everything went along as smooth as glass and all enjoyed themselves as well as possible during the party, but something had to happen to the poor sophs.

The first regular meeting of the Ciceronian Literary Society was last Friday, when they gave an excellent program, consisting of a short talk by their president, Oscar Aschim, vocal and instrumental music, recitations and readings. Everything was as called for on the program except a part or two which could not be helped.

The Juniors and Freshmen held their annual meeting for the purpose of electing class officers. Wednesday the Juniors elected the following officers:—Eva Wheeler, pres.; Floyd Eberman, vice pres.; Myron Blanchard, sec. and treas.

The average daily attendance for the past month has been very good, it being ninety-seven and seven tenths per cent for the whole school. Last Saturday the Emersonians, who have been coached by Prof. F. A. Schofield, and the Ciceronians, who were under the management of the High School coach, Prof. Ralph Moore, met on the gridiron in a tryout game.

Good results always follow the use of Foley Kidney Pills. They contain just the ingredients necessary to tone, strengthen and regulate the kidneys and bladder, and to cure backache. Chas. I. Clough.

You are not experimenting on yourself when you take Chamberlain's Cough Remedy for a cold as this preparation has won its great reputation and extensive sale by its remarkable cures of colds, and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. Sold by Lamar's Drug Store.

failed to make the goal, but when time was called they had again come within two feet of the goal line. Only once in the last half did the "Emies" reach a point which could be called close to the goal. The final score was 5 to 5. The line up was as follows:

- Ciceronians: Client King, John Ebinger, H. Sappington, W. Anderson, Howard Harris, Lyle Smith, Oscar Aschim, L. Harrison, C. Kaufman, Ralph Moore, Arthur Wallace. Emersonians: FB Floyd Eberman, RH Frank Schofield, LH Verle Stanley, QB Harvey Ebinger, C Everet Kuntz, RG E. Goldstrom, LG Percy Dunstan, RE Perry De Lilly, RE Benly Stam, RE Elbert Gian, LE Ralph Harris.

The following week will be spent in trying out the first team, which is expected to meet the Dramatic Club team on election day.

The 8th grade class is intending to give a program and basket social in the near future, the net receipts to go to the Gilford Stillwell Park.

On account of the large attendance in the 4th and 5th grade rooms, the Board of Directors and the Principal took up the matter of obtaining some nearby house or room into which they might move the 5th grade. W. C. King thought he had secured the upper part of the Page store, having paid the rent in advance, but when ready to move the seats into the room Saturday, the owners decided that they didn't care to let it go. But as something had to be done Mr. King secured a number of carpenters, whom he put to work tearing out the partition on the east of the Library making it into a room for the 5th graders and also enlarging the assembly room by removing the wall between it and its cloak room.

The Eighth Grade elected the following officers Tuesday: Pauline Beals, President; Chas. Kennedy, Vice President; Howard Lamar, Secretary; Ruby O'Neal, Treasurer; Alfred Fletcher, Sergeant-at-Arms.

The portion of Washington county proposed to be annexed to Multnomah is seven miles wide, contains 112 of our 730 sections, four and a half of our fifteen millions of taxable property, one-fourth of our voters and population and one-half of our railroad mileage. 500 voters of this strip have signed a remonstrance against annexation—a clear majority, as less than 300 signed the petition and about 900 votes were cast at the general election. In addition many who first favored annexation now oppose it and say the cut was too deep.

In any calling of life, demands a vigorous body and a keen brain. Without health there is no success. But Electric Bitters the greatest Health Builder the world has ever known. It compels the perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work.

This world famous rifle shot who holds championship of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." C. I. Clough.

Insuring Dairy Products. When the scales and tester are first used on many herds the results will be such as to discourage the dairyman and cause him to lose interest and confidence in better methods. He will believe that he is making a good profit, while the test shows that some of his cows are being kept at a positive loss. It is often true that the weeding out of one-half a dairy herd will cause the actual net profit to increase. This should be done systematically.

Second, the conditions that surround the cow must be made favorable. Lighting, ventilation and cleanliness must be practiced before the best results can be secured. The feeding must be carefully looked to, and economical rations, which will produce good milk flow, are necessary before the best of cows can become profitable animals.

First, know the actual production of each animal by the use of the scales and tester the year around. Testing for a few weeks or months will not do, the facts must be known for the full year. Second, the conditions that surround the cow must be made favorable. Lighting, ventilation and cleanliness must be practiced before the best results can be secured. The feeding must be carefully looked to, and economical rations, which will produce good milk flow, are necessary before the best of cows can become profitable animals.

WM. GALLOWAY, Circuit Judge 3rd Judicial District. Candidate for Re-Election.

In speaking of Judge Wm. Galloway, Judge W. M. Ramsey says: "A judge should love justice and hate iniquity and possess a robust integrity, and be able to hold the scales of justice firmly and evenly. He should be no respecter of persons, deciding for or against parties as their rights appear to him according to the measure of the law. He should be no 'trimmer.' I have known Judge Galloway for many years, and I believe he possesses these judicial qualities. He has in more than one instance in the past shown that he has the courage to stand by his convictions of duty in difficult positions, and if re-elected I believe he will maintain his high record for honesty and courage." RATTLESNAKE BITES.

Simple Rules For Treatment if You Have the Nerve to Use Them.

The treatment of a rattlesnake wound resolves itself into the application of a few very simple rules. In the first place, a person wounded by a snake usually does the very thing he should not do—that is, goes tearing off at top speed for the nearest human habitation, thereby increasing the circulation and disseminating the virus through the system more rapidly. The man should sit calmly down and bind his handkerchief around the limb off it is a limb, break off a stout twig and insert beneath the handkerchief, producing a rude tourniquet, and twist until the circulation is effectually shut off.

With a sharp knife make an X incision over the wound, taking care to penetrate deeper than the fangs have gone. If he has good teeth and no canker in his mouth, he may now suck vigorously upon the wound. It does no good to suck the original wound. It is quite difficult to get any virus back through an opening not greater in caliber than a fine needle.

SET HIM THINKING. The Reason His Wife Gave For Delaying Postponements. Just when Mrs. Ackroyd had finished packing her trunks and after William Ackroyd had bought railway tickets for her and their two daughters little Bessie came down with a severe case of whooping cough.

When her husband got home that evening Mrs. Ackroyd was weeping. "Don't take it so hard, dear," he said. "It might be a good deal worse. Our little one is likely to get along all right. The doctor says the case isn't an unusually severe one, and when I telephoned him this afternoon he said he thought it might be safe for you to start away by the end of the week."

Half an hour later William Ackroyd was still sitting in a corner after thinking it over.—Chicago Record-Herald. Carrying a Bundle. A stylish looking woman who looked as if she had rather die than carry a bundle that wouldn't go into a handbag went into the women's suit department of a big store luggage a pastebored box half as big as herself. Other customers present wondered at her undignified action, but the saleswoman did not wonder.

Man's inhumanity to man makes countless thousands do likewise.—Life. Alaska's Coast Region. The coast region of Alaska has a mild climate, not colder than the northern part of Puget sound or of Scotland. The stand of trees is dense, averaging for considerable areas 25,000 feet per acre. Sitka spruce forming about 30 per cent of the stand and western hemlock about 75 per cent. Although by far the most abundant species, western hemlock does not produce as large individual trees as the spruce or western red cedar, the former occasionally showing a diameter of six feet with a height of 150 feet and the cedar diameters of from three to four feet.
