THE YEAR'S RECORD

In Births, Marriages and Deaths in Tillamook County.

The births last year numbered 118, being an increase of 47 over the previous year. The largest number of births occurred in August, the records showing 21, with only 4 in November. Of the 118 births, 71 were males and 47 females.

The total number of marriages in 1909 were 55. They increased to 69 in 1910, a gain of 14.

There were 55 deaths in the county last year, made up of 20 females and 35 males. The deaths last year were about 40. Of the 55 deaths in 1910, 18 persons lived to be over 60 years of age and ranged upwards to 90 years. Eight died before they reached the age of two years. Of the fatalities, 6 persons were drowned, 1 suicide, 1 killed by log, one given carbolic acid by mistake, 2 found dead, and one dropped dead. Pneumonia claimed 5, tuberculosis 4, Bright's disease 2, consumption 1, appendicitis 2, cerebral hemorrhage 1, gastro enteritis 2, spinal meningitis 3, and heart disease 3. Strange as it may seem there were no deaths from typhoid and other fevers in Tillamook county last year nor from whooping cough, diphtheria, measles, and other like diseases prevalent amongst children.

RAILROADS HELP CAUSE OF HARBOR. Tillamook to Make Renewed Effort to Obtain Government Appropriation. With the entrance of two new railroads into Tillamook Bay region the residents of that section are making renewed efforts to secure a Government appropriation for a channel to connect the local harbors with deep water and with that end in view the citizens again are promising to provide \$650,000 of the \$1,700,000 requisite for the work. Both the Hill and Harriman systems will have their Tillamook Bay lines completed within the present year, although service over the Hill road may not be inaugurated until early in 1912. These rail connections will make it possible for Tillamook Bay to serve the outside world with freight unloaded in the harbor. With an improved channel, the enterprising people of both Bay City and Tillamook City believe that they could compete with other points along the coast in both rail and water transportation. When the Government Engineers met Dec. 29 to consider the merits of the Tillamook claims for a deeper channel they heard evidence in favor of both Bay City and Tillamook. While the Bay City channel seemed to receive more consideration than the other, it evidently is the desire of the Tillamook people to secure improved facilities for both places. Port Project Favored. However, the Government failed to act favorably upon the request for an appropriation of approximately \$1,000,000 and the harbor plans have not been carried out. There has been considerable agitation recently for establishing a port of Tillamook, supported by general taxes, and this plan will be presented among others. In the end it is hoped that one of the several projects now under way will be carried out. The Hill interests have arranged to complete their United Railway line to Bay City at once, according to the announcement of John F. Stevens upon his return from the East a few days ago. They have acquired a considerable acreage near the water front, suitable for terminal yards, and declare that they will spend a liberal amount of money for improvements. Definite plans as to the work to be done at Bay City have not yet been completed. At the same time two forces of men are working on the line of the Pacific Railroad & Navigation Co. to connect Hillsboro with Tillamook Harbor points. It is expected that trains will be running between Portland and the city of Tillamook before the middle of the summer, the service to be operated over the Southern Pacific tracks between this city and Hillsboro. People Expect Results. While Tillamook City will be the terminus of the Harriman line, Bay City will be one of the principal stations. The people of both places are depending upon the completion of this road to give the business of the community added impetus and to assist in building up the district. Although work soon will be started on the United Railway extension to the Coast it cannot be completed within six months after the Harriman line starts to run trains into the bay towns. When this line's service is added to that of the other the Tillamook region will have better transportation facilities than most places of the same relative importance in the Northwest. The fact that the bay forms a natural harbor has been pointed out and the comparative cheapness in the cost of improving the channel has been made a strong feature in the requests for Federal aid. The estimate of \$1,700,000, it is said, will pay for making the bar at the mouth of the mouth of the harbor 20 feet deep as well as provide the means of deepening the channel. While neither railroad is taking an active part in the campaign both are laying their plans with the view of serving the shipping interests of an improved harbor. Although the United will operate electric trains, the officials of that road declare that they will compete actively with the Harriman line for all classes of freight traffic. When given as soon as the cropny cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by Lamar's Drug Store.

TILLAMOOK AND BAY CITY To be Terminals of the United Railways—Steam and Electricity to be Used on Road.

Surveys for the Tillamook Bay extension of the United Railways have been made to Bay City and that place will likely be the terminal of the new line, although the City of Tillamook may be reached through a connecting road, said John F. Stevens, president of the North Bank and head of the Hill enterprises in Oregon, yesterday. Construction of the McMinnville branch of the Oregon Electric may be begun within the present year, although no definite steps in that direction have been taken. "We are principally concerned just now with the Eugene extension," said Mr. Stevens, "although the McMinnville line has been receiving our earnest consideration. We have completed surveys for two different routes and will select one of them as soon as we deem construction advisable. It is hard to say when work on the McMinnville branch will start, but we intend to build it eventually. Rights of way and franchises have been secured in McMinnville and the territory through which we must pass."

Electricity Is Favored. During the first period of its usefulness the Tillamook Bay line will be operated partly by steam and partly by electricity, although the aim is eventually to use electricity on the entire line if that is practicable. "The tendency is more and more to use electricity," said Mr. Stevens yesterday. "While we are building all of our electric lines in such a way that they could stand steam traffic, we are not doing that with the view of using steam. It is merely a matter of safety and economy in the end to construct them in that way. It is because of this that the opinion has been advanced that the use of steam on the Oregon Electric line is our ultimate object. So far as I know, the Oregon Electric will remain an electric line indefinitely, although the Tillamook Bay road will have the use of steam trains over the mountains, while electric power will be used in the level places."—Oregonian.

For LaGrippe Coughs and Stuffy Colds. Take Foley's Honey and Tar. It gives quick relief and expels the cold from your system. It contains no opiates, is safe and sure.—C. I. Clough.

Singer Sewing Machines. Now is your opportunity to get a machine that will last you a life time, on easy monthly payments that you will scarcely miss and no interest. THE NEW TESTAMENT CHURCH AND THE NAME.

For Over Three Hundred Years the Church Was United in This Name.

I.—Scriptural Names of Individual Believers.

- 1.—Disciples (Learners), Matt. xxvi., 26; Acts vi., 1. Christ the Teacher, Bible the only text book, judgment the examination day. 2.—Brethren (Relation to one another), Matt. xxiii., 8; Acts xv., 23. Christ also is our Brother and we are his brethren. Matt. xii., 50; Heb. ii., 11. 3.—Saints (Character), Acts ix., 32; Rom. i., 7. We become such, not after death, but here. 4.—Christians (Ownership, followers), Acts xi., 26; xxvi., 28; I. Pet. iv., 16. We are Christ's ones. This name includes all the above. If we are Christians, we are saints, brethren and disciples. When and How do we get this name? At Baptism, Act. ix., 1-5. Are Divinely named, Jas. ii., 7; Acts xi., 26.

II.—Scriptural Names of the Church.

- 1.—Christ's Church, or the "My Church," Matt. xvi., 18; Acts xx., 28; Eph. v., 25. Since He built it, purchased it, died for it, it must be His. 2.—Church of Christ, Rom. xvi., 16. Refers to different local congregations, not to denominations we now have as they did not exist at that time. 3.—Church of God, I. Cor. i., 2. Same as Church of Christ for Christ is God.

III.—The Harm of Wearing Other Than Scriptural Names.

- 1.—Party names are sinful, Gal. v., 19, 20 (R.V.); Rom. xvi., 17, 18; Col. iii., 17. 2.—Party names make and perpetuate divisions. I. Cor. i., 12. No divisions until party names were used; divisions will cease when party names cease. 3.—Divisions hinder the conversion of the world. John xvii., 20, 23. "That they may believe," "that they may know." People don't know which church to join, hence stay out of all. We waste money and men to perpetuate divisions while the heathen world is waiting to know of Christ. 4.—Divisions disregard Christ, the Head of the Church, Eph. i., 22, 23; John xxv., 14; Matt. vii., 21; I. Cor. i., 10. When we know His command and wish, yet don't comply, we deny Him.

As a follower of Christ what name do YOU wear? V. E. HOVEN, Church of Christ.
