As business has been dull for several months it is expected, with a continuation of fine weather, that it will soon begin to pick up, but at present there is no building going on to give employment to men out of work.

Henry McKinley and Tom Holman were arrested on Tuesday charged with rape upon a young girl under sixteen years of age. They waived examination and were each placed under \$2,500 bonds. The mail service, which was delayed last week on account of so much snow in the mountains, resulted in several days mail being delayed. The first to come to hand was some letter mail via Willamina, on Thursday. Next morning a bunch of letter mail was brought in over the North Yamhill route, and the same afternoon more came by way of the south, bringing the first daily papers since Monday. The remainder of the letter mail came in on Sunday and Monday, some of the newspapers being a week old, and what failed to get across the

then reached this city this afternoon.

If you want a good time come to the basket social to be given by the Sodality girls of Sacred Heart Parish. Captain Erickson, the new master of the Golden Gate, was in command of that vessel when she came in this week. It is 15 years since he came to Tillamook as master of a vessel and he found the bar in much about the same condition now. Captain Hosford also made another trip in. They found 18 feet of water on the bar, and instead of spending money on building a jetty to improve the bar they both think that a bar dredge would be preferable and would bring quicker results. Captain Erickson, having been in command of coasting vessels for a number of years, says that in removing a bar by jetties another forms further out at sea, whereas a dredge, whenever there is a shallow place in the channel, will remove it. He thinks the days of jetty work along this coast is past.
