

**YEGGMEN AT BAY CITY.**

**Safe Blown Open and Contents Stolen.**

The store of Nelson & Co., at Bay City, was entered early Wednesday morning and the safe blown open by two yeggmen. The watchman at the saw mill heard two shots fired about half past one, and some men whispering, and in about half an hour heard a bomb explode. Several others heard the explosion and thought the bank was being robbed. It seems that the men attempted to enter the store in the rear, and failing to gain admittance that way, tried open the front door. To deaden the sound of the explosion, the crackmen oiled bags of potatoes and clothing over the charge before they set fire to the fuse. The charge wrenched open the door of the safe and the burglars gathered up what valuables they could get their hands on, which included a gold watch, one new \$10 gold piece, \$80 worth of 10-cent stamps, \$30 worth of 5-cent stamps, \$5 worth of 2-cent stamps, \$0 in cash, \$30 of which was in silver, and \$50 in gold.

It is thought that two men were implicated in the robbery, as two men were known to be loitering about the place the previous day. Sheriff Crenshaw took two suspects into custody on Wednesday, but as he could find no trace of the stolen property upon them, and having no money, he told them to leave the county.

**Jail Break Prevented.**

Late last Saturday night Fred Minick was in the vicinity of the courthouse, when he heard some one sawing a hard substance in that building. He readily surmised that some one was either attempting to break into that building or break out, so he immediately went to Sheriff Crenshaw's residence and informed him of his suspicions. The only prisoner in the county jail was Louis Smith, a young man about 19 years of age, bound over to the grand jury for breaking into the Miami Co.'s store at Hobsonville. The sheriff did not imagine for one moment that Smith would attempt a jail break, for he had been given a good many privileges since he was placed in the Sheriff's charge. When the sheriff arrived on the scene with Minick, they patiently waited for some time, when the sawing commenced again and the sheriff was convinced there was something doing. They remained outside for nearly two hours, the sawing continued, and in the semi-darkness they saw a coat thrown out of the jail window, and after a little a bundle came tumbling out. The sheriff thought it was the prisoner who had broken out, and immediately pounced on it, and to his surprise found it was only a roll of blankets. During this time Smith was making his way out of the window, and the sheriff instantly pulled his revolver and told him to get back or there would be something doing. He did so without further trouble and the sheriff went into the jail and locked

him up in the cage, where he will remain until his trial. The sheriff found that Smith had made two saws out of the knives he used for his meals and had cut out part of one of the bars in the window with one of the saws. It seems that Smith had also filled most of the locks in the jail with glass and other material he had scraped off the walls.

**Teachers' Annual Institute.**

The Annual Teachers' Institute for Tillamook County has been arranged for Superintendent W. S. Buel for Monday, Tuesday and Wednesday of next week at the High school in this city. The instructors are Superintendent T. J. Gary, of Clackamas County; Miss F. E. Baldwin, University of Oregon; assisted by teachers of Tillamook county, including Prof L. L. Baker, Jas. Goldsworthy, F. Hillebrand, et. U. Moore, P. M. Strand, Mrs. H. C. Hansen and Supt. W. S. Buel. There will be an evening session at the Christian Church on Tuesday evening, when the program will be:

Music,—selected.  
Reading, a, "Sisterly Scheme," (H. C. Bunner), b, "Village Watch-Tower," (Kate Douglas Wiggin), c, "Seen Things at Night," (Eugene Field),—Miss Baldwin.

Music,—selected.  
Reading, a, "Tom Comes Home," "Mill on the Floss," (George Eliot), b, "Behind a Curtain," (Mrs. Burton Harrison), c, "Second Trial," (Kellogg),—Miss Baldwin.

Music,—selected.  
Reading, "Her First Appearance" from Van Bibber's Stories, (Richard Harding Davis),—Miss Baldwin.

Fancy Indian Club Swinging—Miss Baldwin.  
Supt. Buel received work from Charles H. Jones, Editor of the Oregon Teachers' Monthly, that he would be here during institute and assist with the work. He will have charge of the singing and will give addresses on the following subjects: "New school laws," "Current Events," and "Oregon Indian Legends."

The public are particularly invited to attend the evening session, since it will be principally of an entertaining nature.  
Supt. Gary and Mr. Jones will probably deliver short addresses on some interesting subject.

The musical numbers will be furnished by home talent.

**PORT GETS BUSY.**

**Informally Agrees To Raise the Money for Improvements.**

There was an informal meeting of the Port of Tillamook on Tuesday, when it was decided to bond the district for the purpose of carrying out bar and bay improvements. The amount to which the district is to be bonded will be \$450,000, and we are informed that some parties in Chicago have wired from there that they can be floated in that city.

The Port took up a letter written by Russell Hawkins, of the Whitney Co., Ltd., to President H. T. Botts, in which he made several suggestions. He is opposed to the Sturgeon channel proposition and wants the North instead of the South jetty constructed. Among other things he says:

"Your letter, however suggests to me a plan of operation that will accomplish perhaps more than one would suppose, and perhaps, as much as an entire project as outlined by the Government will produce in the way of harbor benefits.

"My plan is this, and while I have not discussed it with our people, I believe I will be able to have them concur in it, build a North Jetty as contemplated by the Engineers under their plan of improvementment and to build a channel to Bay City as proposed. If my recollection serves me right, the North Jetty will cost somewhere in the neighborhood of Five Hundred and Sixty Thousand Dollars. There will be for contingencies, says, \$110,000.00, for channel work up to Bay City, says, \$150,000.00, or total approximating \$820,000.00. One-half of the project recommended by the Special Board of Engineers would mean \$820,000.00. Therefore, to be safe, I would suggest and recommend that the Port of Tillamook and the Port of Bay City offer respectively to the Government \$200,000.00 and \$230,000.00, or a sum equal to \$430,000.00, which shall be 50 percent of the sum required to build the North Jetty and a channel up to Bay City.

"If the Ports of Tillamook and Bay City believe I am in the right with the proposition I have outlined in this letter, I will at once take steps to secure the sanction of the Board of Review to the new proposed project, and will go East in May to arrange for an underwriting of \$250,000.00 worth of the Port of Tillamook bonds, and \$200,000.00 worth of the Port of Bay City bonds. Of course, providing it will have been discovered by competent attorneys that the two Ports have been organized upon lines that are legal and free from criticism and attack.

**Bayocean Brevities.**

Rev. Father Chabot and Rev. Father LeMiller, formerly pastor of Tillamook, were visitors on Tuesday last.

A petition has been filed with the post office authorities, that if answered will give Bayocean a daily mail service. The route proposed is an overland one, via Netarts, and will require two carriers, one leaving Tillamook every morning at 10 o'clock and another setting out from here at the same time. Such a method of transferring the mails will prove a very welcome boom to every one here and will greatly facilitate matters this summer.

Dr. and Mrs. Hawk, and Editor Miller and family spent last Sunday in our midst.

The new school teacher arrived Monday and commenced hostilities at once.

John Plasker came over Tuesday at Mr. Russell's request, to look over plans and specifications for the completion of the plumbing work in the annex.

The Bayocean No. 2 is fast beginning to look like a boat again and when finished will be as staunch a craft as there is on the bay.

John W. Bolin called Wednesday in the capacity of a strictly up to the minute, scientific clothing salesman and capped off quite a few orders from our smart set.

**A WORD IN REPUTATION TO CERTAIN VOICED OPINIONS.**

Unless dame rumor has played us entirely false, there are certain people hereabouts and elsewhere, who long ago became narrowly imbued with various erroneous ideas regarding Bayocean and its mission. They argued everything out to their own selfish satisfaction and looked with a quizzical and a doubtful eye, upon the work of development that was being done here. They opined as follows: Given a real estate firm, eager for its share of the filthy lucre; a resort property rich in advertising lore and teeming with the siren superlatives of any accomplished salesman; result, a hurried transfer of a hitherto worthless tract and a record breaking sale. Cash being out of the question, the invariable bromidiomatic rule was followed and the ancient installment contract resorted to. Then, as long as the almighty cartwheel was forthcoming, a supposed stab was made at improvements, lest certain fervid imaginations set to work and arouse the tantalizing watch dog of suspicion. As soon, however, as sufficient payments had been forthcoming to warrant the company's withdrawal, such would become a fact, thus leaving the proverbial gold brick on the useless hands of an everduped public.

Now it is not that recent developments have named this the time for an irrefutable argument against such childish wanderings, because time has ever been since operations first began. But a word to doubters, although scarcely worth the ink and paper to transcribe it, was thought not amiss; hence what follows:

Bayocean, first, last and all the time was a dream-come-true, to one of the shrewdest, brightest, most farseeing men in the west. He grasped the situation in its entirety at a glance and forthwith proceeded to carry out certain suggestions of his fertile brain, despite the obstacles that confronted him. With an ever watchful eye upon the future, he saw through and beyond these first few years of seemingly fruitless effort and beheld in the finished resort, the masterpiece of a master artist. He saw the wonderful field of opportunity open to him and his, to Tillamook Bay, to Oregon and to the Pacific Coast. He determined to call quite, only when ultimate attainment bid him cease.

To date over \$250,000.00 has been expended here. What it well cost to complete the outlined plans, only a few can say. But of this rest assured: Bayocean is bigger, stronger, firmer, sounder, richer, than any of you think. The events of the summer that is not hastening upon us, will open eyes now closed in a knowing wink. Regardless of opposition, pretty contentions, obstacles, hindrances, Bayocean will continue to move straight to the fulfillment of a cherished ideal. Then we who understood and believed and trusted in its goodness, can smile a contented, satisfied, confident smile.

**High School Flashes.**

Friday afternoon three of the High School students were called down stairs to judge a debate of the 7th grade which was held in Miss Weston's room. The question was "Resolved that the United States has a right to interfere in the war in Mexico." The debate was very close, but was at last decided in favor of the affirmative, 2-1. However, the negative had more good arguments than their opponents, and had all the negative been like Cap Handley there is no doubt but what they would have won.

The Ciceronians gave their program Friday afternoon, and although they had only a week in which to prepare, besides the preparations which they were making for their play, it was one of the best programs yet this year.

A number of boys have started cross-country running. As there is no danger of the road becoming crowded, a large number of boys are desired to take part in this exercise. No one could ever regret it after they had taken a four mile run each night after school for a week.

The C. L. S. Dramatic Club gave the play at the Gem Theatre which the people have been expecting for so long a time. Because of the stormy weather, there was not as large an attendance as we sometimes have, but instead of the people feeling as they have after some shows which have been held in this city, it was the reverse. Those who attended say it was the best entertainment ever given by the High School, and those who stayed away are the sorest bunch that were ever seen because they didn't go. After the program the C.L.S. people served lunch to the High School and Gem management.

Moving up day was celebrated again Monday to the surprise and delight of some and the dismay and sorrow of others.

The good weather has brought the desire into some of the students to play tennis, and as they have become tired of waiting for their court to be leveled, they took the net out last week and had a few lively games on the sod.

The C. L. S. and E. L. S. Dramatic troupes are contemplating a trip to Bay City in the near future to give the people there a chance to see and hear the entertainments which have met with such popular approval in this city.
