The Willamina Times insists that a railroad is to be built from that place to Pacific City. It is the same company that solicited rights of way last year--The Portland & West Coast Railroad Co., of which A. H. Malaney is one of the promoters. A right of way man has established headquarters at Willamina and will make an effort to secure the balance of the rights of way. The survey is from Willamina to Dolph and along the Salmon river to Pacific City. It is stated they have secured 15 per cent of the rights of way and have spent \$50,000--too much to put in a venture without completing it, hence the Times argues, its a sure go. The Courier heartily endorses the efforts to secure a railroad that will tap the southern part of Tillamook county even though it passes up the hub--Cloverdale. We emphatically say we are in for its success. Let \$50,000 look like a good bit of money to spend for a survey of the plus a way and see survey and survey date Courier.
