mook from Portland? Ans. \$6.52 by stage and \$7.50 by boat.

How much money will one cow bring in during the year? Ans. A good cow about \$100.

How many banks are there in the county? Ans. Four. Will the poultry business pay?

What do you think the popula-tion of Tillamook City will be in 1915. Ans. 5,000 to 6,000.

What is the average price of cheese per pound? Ans. About 15

Would your city offer any induce ments to get a good moving picture to come in. Ans. We have two

good ones already. What do you think a man with \$500, \$1000 or \$2000 could do toward

buying a home in Tillamook County. Ans. Get a good start in the best section of Oregon.

Game.

Bear and deer are quite plentiful throughout the County. Wildcat, coon, mink and otter are also found in goodly numbers, and now an ter Realty Co. is spending a great deal of money to make that resort greese, ducks and spice during the geese, ducks and snipe during the winter months. Pigeon, quail, grouse and pheasant are found in season, thus furnishing game the What does it cost to reach Tilla- year round for those who delight to hunt. For the more daring an venturesome hunters, the Rocks opposite the Netarts beach furnish exciting sport in the shape of the hundreds of hugh sealion which inhabit them, many of which are as large as a good sized cow.

Salmon Fishing.

Salmon fishing is one of Tilla-mook County's important resour-ces. The Nehalem, Tilla-ngok and Nestucca Bays have excellent runs of chinook, silversides and steel-head salmon. There are four canthe above named bays, the output from which is valued at from \$150,000 to \$200,000 annually. Deepsea fish are as yet almost at un-known quantity. Our shore is uni-formly shelving, carrying a forty fathom curve well out to sea, and on this bank have been taken cod, halibut, skulpins, groupers and dozens of other varieties of fish. At present they are only taken when some vessel happens to be lying off for a tide or on some such occasion, but will some day furnish good employment for a large force of food seekers.

Tillamook County has Good Schools, with a number of Free and Up-to-Date High Schools.

DAIRY SCENE IN TILLAMOOK COUNTY.

Honey.

White clover is claimed by many to produce the very best grade of honey, and as it grows naturally on all the river bottom lands of th County, Tillamook honey cannot be surpassed for flavor, color an sweetness. The seasons are usually too short, however, to make ually too short, however, to make it profitable to engage in this industry extensively, but every farmer may have a few stands which, if properly cared for will produce all he can use of the finest honey. The southern part of the County is best adapted for the production of this article. duction of this article.

This Descriptive Matter was issued by the Tillamook Headlight, which is absolutely correct, and is sent out by the Pulicity Committee of the Tillamook Commercial Club.

George W. Willett. Fred C. Baker.
