1740. The Coffee Pot Bank. 1911. The Up to the Minute Bank.

The savings idea is just as worthy, just as necessary to business success to-day as it was in 1740, but the methods have advanced during that time.

We now have the most modern savings convenience invented and respectfully invite the people of Tillamook County to call and see them.

In brief, let us tell you that it is a small HOME SAVINGS BANK which registers, or indicates, at all times, THE EXACT AMOUNT OF MONEY which has been placed in it.

The amount of money is plainly shown at all times, the amount of each kind of coin--Nickles, dimes, quarters and so on.

The thing that stimulates saving is to see the amount grow, to see it every day, right before your eyes. With one of our new banks this feature is the big thing and these banks have proven very popular wherever they have been placed.

GET ONE THE FIRST TIME YOU ARE IN TOWN, especially if you have children, for you know the adage, "as the twig is bent, so is the tree inclined," and the children will take unusual interest in these banks because THEY ARE SOMETHING NEW AND UNIQUE.

THEY ARE to be had FREE for we loan them to anyone who starts an account of \$1 or more.
