I called at the Tillamook County Bank to-day and introduced myself to the cashier. When I told him I wanted to know more about a savings account I found him very ready to explain it all to me.

It's a very simple matter and I had supposed it would mean a great amount of trouble and red tape.

It was so easy I took a dollar out of my pocket (I will not miss it) and opened an account right there. They took my signature and address and gave me my bank book.

I felt backward when I went in but when I came out it seemed to me I actually had an interest in that Bank."

The contractors will have completed the bridge work in August, and after that is done it will not be long before the road is completed.

### I know the best paint to use

Says the Little Paint Man.

For the man who is about to paint his home or other buildings there is the choice of three materials:

- Cheap Mixed Paint
- Hand-mixed Lead and Oil
- Good Prepared Paint, such as SWP

There is so much controversy about which is the best to use that it is hard for anyone not a paint expert to arrive at a decision. Here it is in a nutshell.

Cheap mixed paint is a poor buy--it's cheap, it's shoddy, it won't wear or give satisfaction. So it isn't worth considering.

Hand-mixed lead and oil is good as far as it goes, but it is impossible for anyone with a paddle and bucket and working by rule of thumb to make as good a paint as that which is worked out on a strictly scientific formula and mixed and ground by powerful machinery.

Good prepared paint, such as Sherwin-Williams Paint (SWP), will give the best of results. It is made of Pure Lead, Pure Zinc, Pure Linseed Oil and the necessary coloring pigments and driers, all combined according to exact scientific formula, the result of over 40 years' experience in paint making, and mixed and ground by powerful machinery designed especially for the purpose. The result is a paint that covers most surface and wears longest.

Just call and get color cards and all information.

The Ray Feed Co. under the management of Ray & Owen solicit a liberal share in the grocery and feed business of this county.

After several weeks of fine weather, rain made its appearance on Sunday evening, which did a wonderful amount of good all over the county, for rain was greatly needed. Had it come a few weeks earlier it would have helped the grass on the prairie land, which is short and will not be a full crop this year. The grass on the bottom lands is looking fine and there will be a good crop, the rain on Sunday helping it some, but it did the oat hay a lot of good and has already wonderfully improved the pastures and set most everything to growing. Since Sunday there have been several light showers of rain. Although it was unusually dry in the timber for this time of year, the rain of the past few days gave the entire county a good soaking, which will allay all worry for a time by the timber people, for it was the intention of putting the fire wardens on duty, but this will not be necessary until conditions have changed.

A number of the residents of the south part of town, who believe in having the virtues of a home respected, decided Sunday afternoon to see what the law would do in the way of cleaning their neighborhood of a certain house of ill fame which was being run by Mrs. P. Asp. An attorney was interviewed on the best action to take and his advice was that the District Attorney, Geo. Willett be asked to serve papers on her for the purpose of relieving the two children, of the married life of Mr. and Mrs. P. Asp, from the abuse of their mother and for the purpose of breaking up her infamous business. The papers were served by Sheriff Crenshaw Monday afternoon and trial set for Tuesday at 3 p.m. in Justice Stanley's court. At this time the children were taken from their mother and put in charge of Mrs. Allison, and it was decided that the trial would be abandoned on condition that Mrs. Asp leave town immediately, to which she consented.
