Work repairing the government dredge was completed on Wednesday, and it cost about \$3,000 to make the repairs. With \$1,200 used for two months dredging, this used up most of the \$5,000 appropriated by the government. The dredge will be put in commission for one month and then laid up. As the Port of Tillamook has several thousand dollars in the treasury and the channel and water front needs dredging, it is expected that arrangements will be made to keep the work going.

1740. 1911. The Coffee Pot Bank. The Up to the Minute Bank.

The savings idea is just as worthy, just as necessary to business success to-day as it was in 1740, but the methods have advanced during that time.

We now have the most modern savings convenience invented and respectfully invite the people of Tillamook County to call and see them.

In brief, let us tell you that it is a small HOME SAVINGS BANK which registers, or indicates, at all times, THE EXACT AMOUNT OF MONEY which has been placed in it.

The amount of money is plainly shown at all times, the amount of each kind of coin—Nickles, dimes, quarters and so on.

The thing that stimulates saving is to see the amount grow, to see it every day, right before your eyes. With one of our new banks this feature is the big thing and these banks have proven very popular wherever they have been placed.

GET ONE THE FIRST TIME YOU ARE IN TOWN, especially if you have children, for you know the adage, "as the twig is bent, so is the tree inclined," and the children will take unusual interest in these banks because THEY ARE SOMETHING NEW AND UNIQUE.

THEY ARE to be had FREE for we loan them to anyone who starts an account of \$1 or more.

game was called at 2:00 p. m. at the Gifford Stillwell Park with Nehalem at bat and Clent King the High School twister on the mound for Tillamook. The game was played with very little interest from start to finish, the score being 8-0 in favor of the home team at the close of the sixth. However in the seventh and eighth the visitors managed to work in four scores to the home team's two, and the game was closed with a score of 10-4 in favor of Tillamook.

A group of twenty-one boys from the Portland Y. M. C. A. arrived in Tillamook while taking their annual hike through this county. They were at Bayocean for a few days and started for Portland Tuesday, going out over the Wilson River road. The bunch is composed of three sections, known as the "Indians," the "Heathens" and the "Pirates," which traveled in the order named. The boys stopped at the Hotel Ramsey and ate a lunch, after which they started for Bester's Ford, where they camped for the night. High, who has been employed at the Rogers Bros. drug store at McMinnville for the past two years, and previous to that was clerk in Clough's drug store in this city, has purchased Dr. Brown's drug business at Cloverdale and took charge of it last week. About a year ago Mr. High, while employed in the Rogers Bros. store met with an accident in the explosion of gas in his face that has greatly impaired his eyesight. A

scar is left on one eye that blurs the sight and the other is still weak from the effects of the acid. While not yet able to do full work he will be competent to manage a business himself. His friends in this city will be glad to hear that he is started in business for himself, and Cloverdale is to be congratulated upon Mr. High locating there, for he is a careful druggist.

At the monthly meeting of the Tillamook Commercial Club on Monday evening, among other things brought up were the matter of a cement pavement district, and a committee will wait on the city council to have an ordinance to that effect passed; and the matter of sewerage and hard surface pavement. It was pointed out that until the city raised the amount of the bonded indebtedness a sewerage system could not be started. The citizens, when the new city charter was voted upon, voted down that section which provided that the city's indebtedness should not exceed \$150,000. There was some misunderstanding over this matter, some of the voters thinking that it gave the city council power to bond for that amount of money, which it does not, for before any more bonds could be sold it would have to be left to a vote of the people. It is proposed to resubmit the section at the next annual city election in December.

On account of so much home talent that is laying dormant and undeveloped, Lottie Rogers, the art teacher, has decided to stay and help us out, for a while, her whole heart seems to be wrapped up in her work and it just grieves her to see so many young lives thwarted for the lack of opportunity for the development of the best that is in them and thereby occupy their time in beautifying and embellishing their homes rather than to leave their time unoccupied and allow them to get into the habit of waiting and idling their time away among the affluents that tend to lower their moral and physical life. She has remarked that with her 20 years or more of teaching of various forms of art work she had never found a larger percentage of talented young people, or where their parents seemed to be more interested in their children's welfare than here in Tillamook. Now this is something for us to be proud of, as Mrs. Rogers has taught art in various cities of the east and in Southern Oregon, and has been teaching in Salem for the past eight years.
