HAVE HIGHEST RECOMMENDATION
B. A. Davis, 627 Washington St., Connorsville, Ind., is in his 65th year. He writes us: "I have lately suffered much from my kidneys and bladder. I had severe backaches and my kidney action was too frequent, causing me to lose much sleep at night, and in my bladder there was constant pain. I took Foley Kidney Pills for some time, and am now free of all trouble and again able to be up and around. Foley Kidney Pills have my highest recommendation."

Accused of Stealing.
E. E. Chamberlain, Clinton Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c at Chas. I. Clough's.

Hay Fever, Asthma and Summer Colds
Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with Hay Fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. Chas. I. Clough Co.

A Joke That Failed.

The clerk of a supply store in southern Colorado did not know Indian nature very well when he invited a Ute chief to a boxing bout. After explaining the use of the gloves, which the chief seemed to readily understand, they went into a vacant room in the rear of the store to spar. The gloves were adjusted, and the clerk invited the chief to hit him. This, of course, he failed to do, as Indians never strike with their hands in conflict. All at once the clerk struck out, and catching the chief under the ear, landed him on the floor. This was enough. The Indian sprang to his feet, pulled off the gloves, jerked out a knife, and the clerk had to run for his life. Fortunately he managed to keep out of reach until some friends caught the infuriated Indian and held him until he cooled off. Then the clerk explained the joke, but with very poor success. The chief consented to forego vengeance for the insult, but he was never friends with the clerk again.—St. Louis Globe-Democrat.

Ornamented With Scars.
The natives of some of the islands of the Pacific are always glad to see the doctor on his periodical visits. At Kaiser Wilhelm's harbor the German government has stationed Dr. Heise-gang as medical officer. He is a busy man. Natives by the dozen come to him, not to be treated for illness, but to get the benefit of his professional opinion on how to scar themselves artistically. The natives are very fond of scars, and nearly all of them are covered with specimens which have resulted from self inflicted wounds which were kept open by frequent scratching or by the introduction of foreign substances like sand, bamboo, shells and so forth. The excrescence which results from the average vaccination is scratched off at the proper time, and the resulting large scar is very dear to the native. A young islander whose face and body are a mass of cuts, bruises and scars is considered the catch of the season by the dusky belles.

They Couldn't Help It.
During the American invasion of Porto Rico, in the course of the war with Spain, General Tasker H. Bliss with his troops, was stationed near a village held by an overwhelming force of Spaniards. Orders were to keep his "eye peeled" and, if he heard anything suspicious, to fall back about eight miles. Instead of this his men turned in one day and captured the village, chasing the Spaniards out. The next day the commander of the American forces came along to find Bliss sitting in front of the home of the chief man of the village. The commander asked him why he had attacked the Spanish force, when he knew that he was outnumbered. "Couldn't help it," said General Bliss. "You see, my men have been hungry for some days, and the wind blew toward them from the village, and some squaw was frying onions over there. And so"—Argonaut.

Jefferson as an Inventor.
Not many people know that Thomas Jefferson was a great inventor. His inventions were all of articles of everyday use. He devised a three legged folding camp stool that is the basis of all camp stools of that kind today. The stool he had made for his own use was his constant companion on occasions of outings. The revolving chair was his invention. He designed a light wagon. A copying press was devised by him and came into general use. He also invented an instrument for measuring the distance he walked. A plow and a hemp cultivator showed that his thoughts were often on agricultural matters. His plow received a gold medal in France in 1790. Jefferson never benefited financially by his inventions, but believed they should be for the use of everyone without cost.

He Didn't Know.
One June day in 1862 near Fredericksburg, Va., General Stonewall Jackson saw one of General Hood's Texans climbing a fence to get into a cherry tree. "Where are you going?" shouted Jackson. "I don't know," replied the soldier. "To what command do you belong?" "I don't know," the Texan replied. "Well, what state are you from?" "I don't know." Jackson gave the man up, but he asked a comrade what it all meant. "Well," was the reply, "Old Stonewall and General Hood gave orders yesterday that we were not to know anything until after the next fight." The soldier was left to his cherries.

An Innocent Query.
At a dinner party in England the host introduced to the favorable notice of the company, amid murmurs of admiration, a splendid truffled pheasant. "Isn't it a beauty?" he said. "Dr. So-and-so gave it to me; killed it himself."

"Ah! What was he treating it for?" asked one of the guests.

One Disadvantage.
Potts—it is a great deal better to own your own home and not have to pay rent, isn't it? Lotts—Well, yes, in a general way it is, but it has its disadvantages. A fellow can't go round driving nails anywhere he pleases in the woodwork of his own home, you know.—Boston Transcript.

Her Advice.
"Ah," he said as he led her back to her seat after the waltz, "I just love dancing."

"Well," she replied as she attempted to repair a torn sounce, "you're not too old to learn."

The man with a new idea is a crank until the idea succeeds.—Mark Twain.
