There is always more or less complaint along about tax paying time. But it is not those who are paying the bulk of the taxes who are complaining. It may not be out of place to pubers between \$10,000 and \$5,000. The timber owners pay 75 to 80 per cent of the taxes and have been doing so for many years, and they have never asked for roads and other improvements to enhance the value of their property, whereas the large amount of taxes they have paid have gone to enhance the value of the dairy farms. Pinchot was amongst them, and when Roosevelt emerged from the wilds of Africa Pinchot hurried It looks as though the Republish some of the amounts paid abroad and was the first to tell dent. Since then Pinchot and his monied friends have assailed President Taft and boosted the progressive movement to defeat him. These politicians played traitor to La Follette when they saw he did not have a ghost of a show to win out, but were all the time grooming Roosevelt for the nomination. = There is some satisfaction in knowing that President Taft is bigger than Teddy's "big stick" and all the politicians who have helped to wield it for their own selfish ends or personal spleen. This is how the snap shot man sizes up the estrangement between the president and the expresident and the cause which led up to it. Amongst Republicans generally, who admire both of these gentlemen for what they have done and are doing for the country's good, it is a source of regret.
