

Are You a Money Saver ?

Most every one expects to be a money saver some time.

Some expect to save when their income is large ; others plain to save when their expenses are less.

People who wait until they can save without effort rarely begin to save ; they wake up some day filled with regrets because of the opportunities they have missed.

The moral is : Begin regular saving at this bank NOW ; whatever the income, make the outgo a little less and save the difference.

It's a simple matter to start a savings account here.
