Are You Giving Your Live Stock a Fair Deal? You like a little salt and pepper—a little mustard—a little lemon extract—a little this and that to flavor your grub. You know, your steer, your hog under natural conditions would have a chance to get a bite of this, a bite of that and a bite of the other thing and so get a variety in its feed. But under the unnatural condition in which you keep them, they get every day about the same sort of stuff to eat. As a natural consequence they get "off their feed." Even if they do not, their digestive organs need the tonic effect which comes from a variety of feeding stuffs. Watkins' Stock Tonic Is a scientific preparation which not only improves the flavor of the feed you feed, but also supplies that tonic element so needed to make your live stock do their best. There is no longer any doubt about the need of a tonic for the modern domestic animal kept under artificial conditions. You must give them something to help them digest their feed and get the greatest good from it. Watkins' Stock Tonic supplies this need. It makes the animal relish its feed more; it aids in the digestion and assimilation of the feed, and in addition to that, it has a tonic effect upon the whole system. Your animals need a tonic of this kind. Watkins' Stock Tonic is not a secret preparation. We tell you the actual ingredients that are used in it. You know exactly what you are buying, and pound for pound it will go farther and do more good than any other stock tonic or so called stock food ever made. The Watkins Man will be glad to leave you a pail on trial, backed by the Watkins guarantee. Delivered by Waggons. R. R. ROBERTS
